

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

FAST - Asia Fund

a sub-fund of Fidelity Active SStrategy

FAST - Asia Fund Y-PF-ACC-GBP

(ISIN:LU0862795506)

This fund is managed by FIL Investment Management (Luxembourg) S.A.

Objectives and Investment Policy

Objective: The fund aims to achieve capital growth over the long term.

Investment Policy: The fund invests at least 70% of its assets in equities of companies that are listed, headquartered, or do most of their business in the Asia region (excluding Japan) including emerging markets.

The fund may invest in the following assets according to the percentages indicated:

China A and B shares (directly and/or indirectly): less than 50% (in aggregate)

SPACs: less than 5%

Money market instruments: up to 20%.

The Investment Manager may concentrate its investments in a limited number of companies, resulting in portfolio concentration.

Investment Process: In actively managing the fund, the Investment Manager considers growth and valuation metrics, company financials, return on capital, cash flows and other measures, as well as company management, industry economic conditions, and other factors.

The Investment Manager takes into account Sustainability Risks in its investment process.

For more information, see "Sustainable Investing and ESG Integration".

Derivatives and Techniques: The fund may use derivatives for hedging, efficient portfolio management and investment purposes. The fund uses derivatives, including complex derivative instruments or strategies, to meet the investment objectives of the fund which may result in leverage. The fund may maintain long and short exposure to securities through derivatives. In addition to core derivatives (see "How the Funds Use Instruments and Techniques"), the fund intends to use TRS.

Base Currency: USD

Benchmark: MSCI AC Asia ex Japan Index. Used for: risk monitoring, investment selection, performance comparison, and performance fee calculation. The fund invests in securities of the benchmark, however, management of the fund is discretionary, therefore the fund may invest in securities not included in the benchmark, and its performance over any period may or may not deviate significantly from that of the benchmark.

Risk Management Method: Relative VaR (limited to 200% of the VaR of the benchmark). Expected leverage: 220% (may be higher or lower but not expected to exceed 250%).

Distribution: As this is a non-distributing share class, dividends are re-invested.

Risk and Reward Profile

Historical data may not be a reliable indication for the future.

The risk category shown is not guaranteed and may change over time.

The lowest category does not mean a "risk free" investment.

The risk and reward profile is classified by the level of historical fluctuation of the Net Asset Values of the share class, and within this classification, categories 1-2 indicate a low level of historical fluctuations, 3-5 a medium level and 6-7 a high level.

The value of your investment may fall as well as rise and you may get back less than you originally invested.

The fund may invest in instruments denominated in currencies other than the fund base currency. Changes in currency exchange rates can therefore affect the value of your investment.

This fund is categorised in risk class 6 because, in accordance with the investment policy, the value of the investments may fluctuate considerably. Consequently, both the expected return and the potential risk of loss may be high. Liquidity is a measure of how easily an investment can be converted into cash. Under certain market conditions assets may be more difficult to value or sell at a desired price. This could affect the fund's ability to meet redemptions in a timely manner.

Additional risks: leverage, emerging markets, liquidity.

Recommended holding period: This product may appeal to investors who plan to hold their investment for a recommended holding period of at least 4 years.

Charges for this fund

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	0.00%
Exit charge	0.00%
The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser / distributor.	
Charges taken from the fund over a year	
Ongoing charges	1.09%
Charges taken from the fund under certain specific conditions	
Performance fee	20% of the out-performance if the class exceeds the return of the Index by more than 2% annualised.

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.

The ongoing charges figure is based on expenses for the year ending 30/10/2024. This figure may vary from year to year. It excludes:

- performance fees (where applicable);
- portfolio transaction costs, except in the case of an entry/exit charge paid by the fund when buying or selling units in another collective investment undertaking.

For more information about charges, including the possibility that swing pricing may apply, please consult the most recent Prospectus.

Past Performance

Past performance is not a guide to future performance results.

If any, the past performance shown takes into account the ongoing charges with exception of any applicable entry/exit charges.

The fund and the class were launched on 31 January 2013.

The currency of the Fund is USD, while the currency of the Class is GBP. The return may increase or decrease as a result of currency fluctuations.
