

## Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

### Fidelity Funds - Absolute Return Multi Strategy Fund

a sub-fund of Fidelity Funds

Fidelity Funds - Absolute Return Multi Strategy Fund W-ACC-GBP (GBP/USD hedged)  
(ISIN:LU1989786808)

This fund is managed by FIL Investment Management (Luxembourg) S.A.

#### Objectives and Investment Policy

**Objective:** The fund aims to provide an absolute positive return with low correlations to traditional asset classes over the medium to long term.

**Investment Policy:** The fund uses a combination of diverse investment strategies in order to achieve its objective, include arbitrage, equity hedge, fixed income and macro strategies. The strategies will be primarily implemented by taking long and short exposure to a range of asset classes such as equities, corporate and government investment grade and below investment grade bonds, infrastructure, property, commodities, money market instruments and currencies from anywhere in the world, including emerging markets. These investments may be denominated in any currency.

The fund may invest in the following assets according to the percentages indicated:

China A and B shares and listed onshore bonds (including urban investment bonds) (directly and/or indirectly): less than 30% (in aggregate)

collateralised and securitised debt instruments: less than 20%

eligible commodity exposure: up to 10%

hybrids and contingent convertible (CoCo) bonds: less than 30%, with less than 20% in CoCos

SPACs: less than 5%.

The fund may also invest in China offshore bonds (including dim sum bonds).

The fund's exposure to distressed securities is limited to 10% of its assets.

The Investment Manager aims to outperform the benchmark.

**Investment Process:** In actively managing the fund, the Investment Manager combines qualitative and quantitative market analysis into a disciplined portfolio construction process to allocate investments across various strategies, such as long-short equity, arbitrage, fixed income and macro.

Arbitrage strategies aim to profit from the price difference between instruments that are related and judged to be mispriced. This may involve the simultaneous purchase and sale of related financial instruments.

Equity hedge strategies aim to profit from identifying undervalued stocks and either selling overvalued stocks or hedging the market risk associated with the undervalued stocks.

Fixed Income and Macro strategies are grouped together as strategies can cross both disciplines. Fixed Income strategies aim to produce consistent returns either within fixed income markets or through relative value strategies within markets such as corporate and emerging market bonds. Macro strategies traditionally use a top-down approach which studies macro-economic and political factors to invest in different asset classes across global markets.

The Investment Manager takes into account Sustainability Risks in its investment process. For more information, see "Sustainable Investing and ESG Integration".

**Derivatives and Techniques:** The fund may use derivatives for hedging, efficient portfolio management and investment purposes. The fund may use long or short positions. The fund will take long positions in securities that are deemed to be

undervalued and short those deemed to be overvalued. Short exposure will only be achieved through the use of derivatives.

**Base Currency:** USD

**Benchmark:** Secured Overnight Financing Rate (SOFR). Used for: performance comparison, outperformance and performance fee calculation.

**Risk Management Method:** Absolute VaR limited to 20%. Expected leverage: 600% (may be higher or lower but not expected to exceed 750%).

**Distribution:** As this is a non-distributing share class, dividends are re-invested.

#### Risk and Reward Profile

Historical data may not be a reliable indication for the future.

The risk category shown is not guaranteed and may change over time.

The lowest category does not mean a "risk free" investment.

The risk and reward profile is classified by the level of historical fluctuation of the Net Asset Values of the share class, and within this classification, categories 1-2 indicate a low level of historical fluctuations, 3-5 a medium level and 6-7 a high level.

The value of your investment may fall as well as rise and you may get back less than you originally invested.

The fund may invest in instruments denominated in currencies other than the fund base currency. Changes in currency exchange rates can therefore affect the value of your investment.

This fund is categorised in risk class 5 because, in accordance with the investment policy, the value of the investments may fluctuate somewhat sharply. Consequently, both the expected return and the potential risk of loss may be above average.

Additional risks: credit, leverage, interest rate, emerging markets.

**Recommended holding period:** This product may appeal to investors who plan to hold their investment for a recommended holding period of at least 3 years.

## Charges for this fund

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	0.00%
Exit charge	0.00%
The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser / distributor.	
Charges taken from the fund over a year	
Ongoing charges	1.00%
Charges taken from the fund under certain specific conditions	
Performance fee	N/A

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.

The ongoing charges figure is based on expenses for the year ending 30/04/2024. This figure may vary from year to year. It excludes:

- performance fees (where applicable);
- portfolio transaction costs, except in the case of an entry/exit charge paid by the fund when buying or selling units in another collective investment undertaking.

For more information about charges, including the possibility that swing pricing may apply, please consult the most recent Prospectus.

## Past Performance

Past performance is not a guide to future performance results.

If any, the past performance shown takes into account the ongoing charges with exception of any applicable entry/exit charges.

The fund and the class were launched on 12 November 2019.

The currency of the Fund is USD, while the currency of the Class is GBP. The return may increase or decrease as a result of currency fluctuations.

## Practical Information

**Depositary:** Brown Brothers Harriman (Luxembourg) S.C.A.
