Fidelity Funds - Asia Pacific Dividend Fund

a sub-fund of Fidelity Funds

Fidelity Funds - Asia Pacific Dividend Fund Y-USD

(ISIN:LU1295424540)

This fund is managed by FIL Investment Management (Luxembourg) S.A.

Objectives and Investment Policy

Objective: The fund aims to achieve capital growth over the long term and provide income.

Investment Policy: The fund invests at least 70% (and normally 75%) of its assets, in income producing equity securities of companies that are headquartered or do most of their business in the Asia Pacific region, including emerging markets. The fund may also invest in money market instruments on an ancillary basis. The fund invests at least 50% of its assets in securities of companies with favourable environmental, social and governance (ESG) characteristics.

The fund will invest less than 30% of its assets (directly and/or indirectly) in China A and B Shares (in aggregate).

Investment Process: In actively managing the fund, the Investment Manager considers growth and valuation metrics, company revenues, return on capital, cash flows and other financial measures, as well as industry and economic conditions, among other factors. The Investment Manager will select investments which it believes offer attractive dividend yields in addition to price appreciation. The Investment Manager also considers ESG characteristics when assessing investment risks and opportunities. In determining favourable ESG characteristics, the Investment Manager takes into account ESG ratings provided by Fidelity or external agencies. Through the investment management process, the Investment Manager aims to ensure that investee companies follow good governance practices.

The fund adheres to the Fidelity Sustainable Investing Framework standards. For more information, see "Sustainable Investing and ESG Integration".

Derivatives and Techniques: The fund may use derivatives for hedging, efficient portfolio management and investment purposes.

Benchmark: MSCI AC Asia Pacific ex Japan Index, an index that does not take into account ESG characteristics. Used for: investment selection, risk monitoring, and performance comparison.

Risk Management Method: Commitment.

Base Currency: USD.

Distribution: Income earned by the fund is reinvested in additional shares or paid to shareholders on request.

Risk and Reward Profile

Historical data may not be a reliable indication for the future.

The risk category shown is not guaranteed and may change over time.

The lowest category does not mean a "risk free" investment.

The risk and reward profile is classified by the level of historical fluctuation of the Net Asset Values of the share class, and within this classification, categories 1-2 indicate a low level of historical fluctuations, 3-5 a medium level and 6-7 a high level.

The value of your investment may fall as well as rise and you may get back less than you originally invested.

The fund may invest in instruments denominated in currencies other than the fund base currency. Changes in currency exchange rates can therefore affect the value of your investment.

This Fund is categorised in risk class 6 because, in accordance with the investment policy, the value of the investments may fluctuate considerably. Consequently, both the expected return and the potential risk of loss may be high.

Additional risks: liquidity.
