# **Key Investor Information**

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

# Fidelity Funds - US Dollar Bond Fund

## a sub-fund of Fidelity Funds

A-MDIST-USD (ISIN: LU0168055563)

This fund is managed by FIL Investment Management (Luxembourg) S.A.

# **Objectives and Investment Policy**

- The fund aims to provide relatively high income with the possibility of capital growth.
- The fund will invest at least 70% invested in US Dollar denominated bonds
- The fund will invest at least 50% of its net assets in securities that maintain sustainable characteristics. The fund promotes environmental and social characteristics pursuant to article 8 of the SFDR.
- The fund adheres to the firm-wide exclusion list (which includes cluster munitions and anti-personnel landmines) and also excludes issuers which fail to conduct their business in accordance with accepted international norms.
- The fund can invest in bonds issued by governments, companies and other bodies.
- The fund has the freedom to invest outside its principal geographies, market sectors, industries or asset classes.
- The fund may invest in assets directly or achieve exposure indirectly through other eligible means including derivatives. The fund can use derivatives with the aim of risk or cost reduction or to generate additional capital or income, including for investment purposes, in line with the fund's risk profile.
- Investments may be made in currencies other than the fund's reference currency. Exposure to currencies may be hedged, for example with currency forward contracts. The fund's reference currency is the currency used for reporting and may be different from the currency of denomination of the investments.
- The fund is actively managed. The Investment Manager will, when selecting investments for the Fund and for the purposes of monitoring risk, consider the ICE BofA Q4AR Custom Index (the "Index") as the Index constituents. The fund's performance can be assessed against its Index. When monitoring risk, the Investment Manager references the Index for the purpose of setting internal guidelines. These guidelines represent overall levels of exposure relative to the Index and do not imply that the fund will invest in the Index's constituents. Where the fund invests in securities that are included in the Index its allocation to those securities is likely to differ from the Index allocation. The Investment Manager has a wide degree of freedom relative to the Index with regards to investment selection and it may invest in issuers, sectors, countries and security types not included in the Index in order to take advantage of investment opportunities.
- The fund's performance can be compared to the Index.
- Income earned by the fund is reinvested in additional shares or paid to shareholders on request.
- Shares can usually be bought and sold each business day of the fund.

## Risk and Reward Profile

Lower risk

Typically lower rewards

Typically higher rewards

1 2 3 4 5 6 7

- Historical data may not be a reliable indication for the future.
- The risk category shown is not guaranteed and may change over time.
- The lowest category does not mean a "risk free" investment.
- The risk and reward profile is classified by the level of historical fluctuation of the Net Asset Values of the share class, and within this classification, categories 1-2 indicate a low level of historical fluctuations, 3-5 a medium level and 6-7 a high level.
- The value of your investment may fall as well as rise and you may get back less than you originally invested.
- The fund may invest in instruments denominated in currencies other than the fund base currency. Changes in currency exchange rates can therefore affect the value of your investment.
- Currency hedging may be used which aims to reduce the effect of such changes. However, the effects may not be completely eliminated to the degree expected.
- The use of derivatives may result in "leverage" by which we mean a level of exposure which could expose the fund to the potential of greater gains or losses than would otherwise be the case.
- There is a risk that the issuers of bonds may not be able to repay the money they have borrowed or make interest payments. While we seek to mitigate this, the fund may be exposed to the risk of financial loss if it invests into an instrument issued by an entity that subsequently defaults on its borrowings. Losses may also be realised if an entity that the fund is exposed to ceases to make interest payments over a period of time or indefinitely. Bond prices have an inverse relationship with interest rates such that when interest rates rise, bonds may fall in value. Rising interest rates may cause the value of your investment to fall.

# Charges for this fund (ISIN: LU0168055563)

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

#### One-off charges taken before or after you invest

Entry charge 3.50% Exit charge N/A

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.

#### Charges taken from the fund over a year

Ongoing charges 1.04%

# Charges taken from the fund under certain specific conditions

Performance fee N/A

The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser / distributor.

The ongoing charges figure is based on expenses for the year ending 30/04/2021. This figure may vary from year to year. It excludes:

- performance fees (where applicable);
- portfolio transaction costs, except in the case of an entry/exit charge paid by the fund when buying or selling units in another collective investment undertaking.

For more information about charges, including the possibility that swing pricing may apply, please consult the most recent Prospectus.

#### **Past Performance**

If applicable, events in the fund's life which may have affected the performance history are highlighted as an '\*'; in the chart, which may include changes to the fund's objective and details of such events can be found on our website or by requesting it from your appointed representative or your usual Fidelity contact. If applicable, the Objectives and Investment Policy section shall refer to a benchmark and information on previous benchmarks may be found in the annual report and accounts.

Past performance is not a guide to future performance results.

If any, the past performance shown takes into account the ongoing charges with exception of any applicable entry/exit charges.

The fund was launched on 12/11/1990. This class was launched on 09/06/2003. Past performance has been calculated in USD.

The performance of the Benchmark is also included in the graph for comparative purposes.

## **Practical Information**

- The depositary is Brown Brothers Harriman (Luxembourg) S.C.A.
