The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

### Fidelity Funds 2 - Transition Materials Fund

a sub-fund of Fidelity Funds 2

Fidelity Funds 2 - Transition Materials Fund W-ACC-GBP  
(ISIN:LU3220661394)

This fund is managed by FIL Investment Management (Luxembourg) S.à.r.l.

#### Objectives and Investment Policy

**Objective:** The fund aims to achieve capital growth over the long term.

**Investment Policy:** The fund invests at least 70% of its assets in equities of companies from anywhere in the world. The fund aims to make investments in companies mining, producing, processing or having other business activities relating to commodities that enable transition to a lower carbon economy including, but not limited to, themes such as, electrification, battery technology, sustainable land use, innovative solutions, low carbon supply and carbon capture. The fund may invest in the following assets according to the percentages indicated:

Money market instruments: up to 20%

Convertible bonds: up to 10%

China A and B shares (directly and/or indirectly): less than 30% (in aggregate)

Emerging markets (including China): up to 50 %

**Investment Process:** In actively managing the fund, the Investment Manager considers growth and valuation metrics, company financials, return on capital, cash flows and other measures, as well as company management, industry, economic conditions, and other factors.

A minimum of 80% of the fund's investments are used to meet the environmental or social characteristics promoted by the fund, as described in the fund's investment policy. The Investment Manager considers ESG characteristics when assessing investment risks and opportunities and may invest in securities of issuers with low but improving ESG characteristics. Through the investment management process the Investment Manager aims to ensure that investee companies follow good governance practices. For more information, see "Sustainable Investing and ESG Integration" and the Sustainability Annex.

**Derivatives and Techniques:** The fund may use derivatives for efficient portfolio management.

**Base Currency:** USD.

**Benchmark:** MSCI AC World Index, a broad market index that does not take into account ESG characteristics. Used for: performance comparison only.

The fund is not benchmark-constrained and its performance over any period may or may not deviate significantly from that of the benchmark.

**Risk Management Method:** Commitment.

**Distribution:** As this is a non-distributing share class, dividends are re-invested.

#### Risk and Reward Profile

Historical data may not be a reliable indication for the future.

The risk category shown is not guaranteed and may change over time.

The lowest category does not mean a "risk free" investment.

The risk and reward profile is classified by the level of historical fluctuation of the Net Asset Values of the share class, and within this classification, categories 1-2 indicate a low level of historical fluctuations, 3-5 a medium level and 6-7 a high level.

The value of your investment may fall as well as rise and you may get back less than you originally invested.

The fund may invest in instruments denominated in currencies other than the fund base currency. Changes in currency exchange rates can therefore affect the value of your investment.

This fund is categorised in risk class 5 because, in accordance with the investment policy, the value of the investments may fluctuate somewhat sharply. Consequently, both the expected return and the potential risk of loss may be above average.

Additional risks: liquidity, emerging markets.

**Recommended holding period:** The fund aims to achieve its objective over a rolling 5 year period based on our assessment of the risk and reward characteristics and costs of the product.

## Charges for this fund

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.
