Fidelity Enhanced Reserve Fund

a sub fund of Fidelity UCITS II ICAV.

Share Class: A-MINCOME(G)-GBP Hedged (ISIN: IE00BG0D1X06), (Currency: GBP)

The fund is managed by FIL Fund Management (Ireland) Limited

Objectives & Investment Policy

- The fund aims to provide an attractive level of risk adjusted total return (income plus capital growth) from a portfolio of debt securities issued worldwide.
- The fund invests primarily in a broad range of fixed income securities and money market instruments which are issued by governments of, government agencies or corporate issuers worldwide. These include bonds, bonds with warrants, convertible bonds, contingent convertible bonds (including corporate hybrid securities), subordinated bonds, dim sum bonds, debentures and notes.
- The fund may invest in securities issued in both developed and emerging market countries.
- The fund has the freedom to invest in other permitted assets such as asset backed securities, Sukuk structures (Islamic debt instruments which represent a proportionate beneficial ownership in an asset or pool of assets) and other collective investment schemes.
- The fund may invest up to 30% in below-investment grade securities and up to 50% in dim sum bonds.
- The fund may invest, in the aggregate, up to 20% directly in onshore China fixed income securities through either the China Inter-bank Bond Market or the QFII programme, subject to a maximum of 10% being invested through the QFII programme.
- The fund may invest in assets directly or achieve exposure indirectly through other eligible means including derivatives. The fund can use derivatives with the aim of risk or cost reduction or to generate additional capital or income, including for investment purposes, in line with the fund's risk profile.
- The fund is actively managed without reference to a benchmark.
- Income in the fund will be distributed in accordance with the terms of supplement.
- Shares can usually be bought and sold each dealing day of the fund.

Risk and Reward Profile

- Historical data may not be a reliable indication for the future.
- The risk category shown is not guaranteed and may change over time.
- The lowest category does not mean a "risk free" investment.
- The risk and reward profile is classified by the level of historical fluctuation of the Net Asset Values of the unit class, and within this classification, categories 1-2 indicate a low level of historical fluctuations, 3-5 a medium level and 6-7 a high level.
- The value of your investment may fall as well as rise and you may get back less than you originally invested.
- The fund may invest in instruments denominated in currencies other than the fund base currency. Changes in currency exchange rates can therefore affect the value of your investment..
- Currency hedging may be used which aims to reduce the effect of such changes. However, the effects may not be completely eliminated to the degree expected.
- There is a risk that the issuers of bonds may not be able to repay the money they have borrowed or make interest payments. While we seek to mitigate this, the fund may be exposed to the risk of financial loss if it invests into an instrument issued by an entity that subsequently defaults on its borrowings. Losses may also be realised if an entity that the fund is exposed to ceases to make interest payments over a period of time or indefinitely. Bond prices have an inverse relationship with interest rates such that when interest rates rise, bonds may fall in value. Rising interest rates may cause the value of your investment to fall.
- Liquidity is a measure of how easily an investment can be converted into cash. Under certain market conditions assets may be more difficult to sell.
- Emerging markets may be more volatile and it could be harder to sell or trade securities. There may be less supervision, regulation and less well-defined procedures than in more developed countries. Emerging markets can be sensitive to political instability, which can result in greater volatility and uncertainty, subjecting the fund to the risk of losses.
