

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Fidelity Index World ESG Screened Fund

a sub-fund of Fidelity Investment Funds

Fidelity Index World ESG Screened Fund P Accumulation Shares
(ISIN:GB00BSB76G36)

This fund is managed by FIL Investment Services (UK) Limited

Objectives and Investment Policy

Objective: The fund aims to track the performance (before fees and expenses are applied) of the MSCI World IMI ESG Screened (Net Total Return) Index, thereby seeking to increase the value of your investment over 5 years or more.

The Index being tracked applies the most common exclusionary screens across environmental social and governance pillars. The Index and therefore the fund also targets a 30% reduction in carbon emission intensity relative to the parent index (MSCI World IMI Index).

Investment Policy: The fund uses an index tracking (passive) investment approach whereby it aims to replicate the composition of the index. However, for practical reasons and/or to reduce the dealing costs of the fund, it may not invest in every company share in the index or at its weighting within the index.

Investment Process : As well as investing directly in company shares, the fund will achieve exposure indirectly using derivatives, such as exchange traded index futures, for example at the time of cash inflows to remain fully invested or to reduce transaction costs. To manage the cash position, the fund may invest in other investment types such as liquidity funds (including those managed by Fidelity). Through derivatives and cash position management the Fund may be exposed to securities considered not to satisfy the index's ESG criteria. Though it is expected to be on an exceptional and limited basis, the Fund may also hold non-index positions e.g. if they have ceased to form part of the index until it is practicable to sell them, or in relation to processing corporate actions.

Derivatives and Techniques: Derivatives are investments whose value is linked to another investment, or to the performance of a stock exchange or to some other variable factor, such as interest rates and used to reduce risk or transaction costs and/or to generate extra income or further increase the value of your investment.

Additional information: Income earned by the fund is paid into the fund and reflected by an increase in the value of each share. Shares can usually be bought and sold each business day of the fund. The fund's performance can be compared to the MSCI World IMI ESG Screened (Net Total Return) Index.

Risk and Reward Profile

Historical data may not be a reliable indication for the future.

The risk category shown is not guaranteed and may change over time.

The lowest category does not mean a "risk free" investment.

The risk and reward profile is classified by the level of historical fluctuation of the Net Asset Values of the share class, and within this classification, categories 1-2 indicate a low level of historical fluctuations, 3-5 a medium level and 6-7 a high level.

The value of your investment may fall as well as rise and you may get back less than you originally invested.

The fund may invest in instruments denominated in currencies other than the fund base currency. Changes in currency exchange rates can therefore affect the value of your investment.

This fund is categorised in risk class 6 because, in accordance with the investment policy, the value of the investments may fluctuate considerably. Consequently, both the expected return and the potential risk of loss may be high. Fidelity International's partial swing pricing policy can cause differences in the fund's performance versus the index. A fund's performance tracking may be affected if the times at which a fund and its benchmark index are priced are different. The fund is priced at midday UK time, and the index is priced when the relevant stock markets close. This can cause apparent differences in the fund's performance versus that of the index than if the fund and the index were priced at the same time. The performance of the fund and the Index may be different to the market or other funds that invest in similar assets but do not apply sustainability criteria.

Charges for this fund

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

| One-off charges taken before or after you invest | |
|---|-------|
| Entry charge | 0.00% |
| Exit charge | 0.00% |
| The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser / distributor. | |
| Charges taken from the fund over a year | |
| Ongoing charges | 0.15% |
| Charges taken from the fund under certain specific conditions | |
| Performance fee | N/A |

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.

The ongoing charges figure shown here for this new class is an estimate of the charges. This figure may vary from year to year.

It excludes:

- performance fees (where applicable);
- portfolio transaction costs, except in the case of an entry/exit charge paid by the fund when buying or selling units in another collective investment undertaking.

For more information about charges, including the possibility that swing pricing may apply, please consult the most recent Prospectus.

Past Performance

Past performance is not a guide to future performance results.

If any, the past performance shown takes into account the ongoing charges with exception of any applicable entry/exit charges.

The fund and the class were launched on 25 March 2025.

Past performance has been calculated in GBP.

Practical Information

Depositary: JP Morgan Europe Limited.

This key information document describes a sub-fund of Fidelity Investment Funds (the "Fund"). The prospectus and periodic reports are prepared for the entire Fund.

For more information, please consult the prospectus and latest reports and accounts which may be obtained free of charge in English from FIL Investment Services (UK) Limited. These documents and details of the remuneration policy are available via www.fidelityinternational.com.

The tax legislation in United Kingdom may have an impact on your personal tax position. For further details you should consult a tax advisor.

FIL Investment Services (UK) Limited may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the prospectus of the fund.

The Net Asset Value of the fund is available at the registered office of FIL Investment Services (UK) Limited, and at www.fidelityinternational.com.

The assets and liabilities of the fund are segregated by law from those of other sub-funds and there is no cross-liability among the sub-funds.
