Risk and Reward Profile

Historical data may not be a reliable indication for the future.

The risk category shown is not guaranteed and may change over time.

The lowest category does not mean a "risk free" investment. The risk and reward profile is classified by the level of historical fluctuation of the Net Asset Values of the share class, and within this classification, categories 1-2 indicate a low level of historical fluctuations, 3-5 a medium level and 6-7 a high level.

The value of your investment may fall as well as rise and you may get back less than you originally invested.

The fund may invest in instruments denominated in currencies other than the fund base currency. Changes in currency exchange rates can therefore affect the value of your investment.

This Fund is categorised in risk class 1 because, in accordance with the investment policy, the value of the investments may scarcely fluctuate. Consequently, both the expected return and the potential risk of loss may be very slight.

Additional risks: Currency, hedging.

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.

The ongoing charges figure is based on expenses for the year ending 30 August 2022. This figure may vary from year to year. It excludes:

- performance fees (where applicable);
- portfolio transaction costs, except in the case of an entry/exit charge paid by the fund when buying or selling units in another collective investment undertaking.

For more information about charges, including the possibility that swing pricing may apply, please consult the most recent Prospectus.

Past performance is not a guide to future performance results.

If any, the past performance shown takes into account the ongoing charges with exception of any applicable entry/exit charges.

The fund was launched on 30 November 1995. This class was launched on 2 May 2006.

Past performance has been calculated in USD.

If applicable, events in the fund's life which may have affected the performance history are highlighted as an '*'; in the chart, which may include changes to the fund's objective and details of such events can be found on our website or by requesting it from your appointed representative or your usual Fidelity contact.
