The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. This is a higher risk product which rates the potential losses from future performance at a high level, and poor market conditions are very likely to impact the capacity to pay you. Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above. Additionally, the product is subject to further considered in the indicator shown above. Additionally, the product is subject to trinfer risks, such as uncertainties related to the legal and regulatory status of the underlying or the risks associated with nascent technology and crypto protocols such as hacking and theft of Bitcoin. This product does not include any protection from future market performance so you could lose some or all of your investment. If Fidelity Exchange Traded Products GmbH is not able to pay you what is owed, you could lose your entire investment. For detailed information about all risks please refer to the risk sections of the legal documentation. Updated and additional documents relating to the product, particularly the prospectus and any supplements and the final terms can be obtained on the legal documentation website under https://www.fidelityinternational.com/fidelity-physical-bitcoin-etp-legal-documentation in accordance with legal requirements.
