Notes to the Financial Statements

1. General

The Company is an open-ended investment company and was incorporated in Luxembourg as a SICAV (société d'investissement à capital variable) on 15 June 1990. The Company is a SICAV under part I of the Luxembourg Law of 17 December 2010, as amended, relating to undertakings for collective investment, which implements Directive 2009/65/EC ("UCITS IV Directive").

FIMLUX is the Management Company of the Company, with the day-to-day responsibility for the administration, investment management and marketing functions of the Company.

As at 30 April 2015, the Company consisted of 146 active sub-funds. The Directors may from time to time close sub-funds as well as add further sub-funds with different investment objectives, subject to the approval of the CSSF.

The following sub-funds were launched during the Year:

Class of Shares

Date of launch

The following funds have changed their reporting currencies: China RMB Bond Fund from CNY to USD on 1 May 2014 and World Fund from EUR to USD on 16 June 2014.

On 6 May 2014, Institutional Japan Aggressive Fund was renamed to Japan Aggressive Fund.

On 12 May 2014, FAWF America Fund was renamed to FAWF Diversified Stock Fund and FAWF American Growth Fund was renamed to FAWF Equity Growth Fund.

On 15 July 2014, Institutional Global Dividend Fund was renamed to Global Equity Income Fund.

Investments in Indian securities are made through a wholly owned Mauritian subsidiary, FIL Investments (Mauritius) Limited (the "Subsidiary") previously called Fid Funds (Mauritius) Limited, whose sole object is to carry out investment activities on behalf of the Company. FIL Investment Management (Hong Kong) Limited ("FIMHK") provides investment advisory and management services to the Subsidiary. FIMHK has obtained approval from the Securities and Exchange Board of India and the Reserve Bank of India to invest in India on its own behalf and on behalf of approved client accounts as a Foreign Institutional Investor under Indian law. The Subsidiary is registered as a Foreign Institutional Investor sub-account of FIMHK's licence and has been granted approval to invest in Indian securities. The assets and liabilities of the Subsidiary are consolidated in the Statement of Net Assets and all investments held by the Subsidiary are disclosed in the Schedule of Investments.

2. Significant Accounting Policies

The financial statements are prepared in accordance with the Luxembourg legal and regulatory requirements relating to undertakings for collective investment.

Calculation of the Net Asset Value. The Net Asset Value per Share of each class of Shares, is calculated by determining first the proportion of the net assets of the relevant sub-fund attributable to each class of Shares. Each such amount will be divided by the number of Shares of the relevant class then outstanding as at close of business to the extent feasible. The Net Asset Value of each class is determined in the principal dealing currency of the respective class.

Security Valuation. Investments in securities traded on any stock exchange are valued at the last available price at the time when the valuation is carried out on the principal stock exchange on which such security is traded. Securities dealt on any over the counter market are valued in the same manner. The valuation of short-dated debt transferable securities and money market instruments not traded on a regulated exchange or market is determined by means of the amortised cost method to the extent this does not materially deviate from market value. Under this method, amortised cost is determined by valuing the security at original cost and thereafter accreting (amortising) the discount (premium) to its nominal value at a constant rate until maturity. All other assets are valued in such manner as the Directors of the Company consider appropriate. All holdings owned by the Company are quoted on a regulated market, except where otherwise distinguished in a sub-fund's Schedule of Investments.

Price Adjustment Policy. The Board of Directors of the Company implemented a price adjustment policy in order to protect the interests of the Company's Shareholders. The purpose of the price adjustment policy is to allocate the costs associated with large inflows and outflows to investors transacting that day, thereby protecting the long-term Shareholder from the worst effects of dilution. It achieves this purpose by adjusting the share class prices at which deals in a sub-fund are transacted. As such, share class prices may be adjusted up or down depending on the level and type of investor transactions on a particular day within a sub-fund. In this way the existing and remaining Shareholders do not suffer an inappropriate level of dilution. The Company will only trigger an adjustment in the price when there are significant net flows likely to have a material impact on the remaining Shareholders. The adjustment will be based on the normal dealing costs for the particular assets in which a sub-fund is invested but will not exceed 2% of the price. Once an adjustment is made to a share class price, that price is the official price for that share class for all deals that day. As at 30 April 2015, price adjustments were made on the following sub-funds:

Sub-fund name	Class of Shares	Un-adjusted NAV per Share	Adjusted NAV per Share

Fair Value Adjustments Policy. Fair value adjustments may be implemented to protect the interests of the Company's Shareholders against market timing practices. Accordingly if a sub-fund invests in markets that are closed for business at the time the sub-fund is valued, the Directors may, by derogation from the provisions above under security valuation, allow for the securities included in a particular portfolio to be adjusted to reflect more accurately the fair value of the sub-fund's investments at the point of valuation. As at 30 April 2015, no sub-funds were materially impacted by this fair value adjustment policy.

Bank Deposits and Cash at Banks and Brokers. All bank deposits and cash at bank and brokers amounts are carried at face value.

Investment Security Transactions. Investment security transactions are accounted for on the date securities are purchased or sold. The computation of the cost of sales of securities is made on the basis of average cost.

Futures. Futures are accounted for on the date of opening or closing of the contract. Subsequent payments are made or received by the portfolio each day, dependent on the daily fluctuations in the value of the underlying index or security which are recorded for financial reporting purposes as unrealised gains or losses by the portfolio. The unrealised gains or losses resulting from futures are included in the Statement of Net Assets and in the Schedule of Investments. The realised gains and losses are based on the First In — First Out method. All gains and losses on futures are disclosed in the Statement of Operations and Changes in Net Assets.

Forward Foreign Exchange Contracts. Forward foreign exchange contracts are valued on the basis of forward exchange rates prevailing at the closing date and applicable to the remaining period until the expiration date. The unrealised gains or losses resulting from forward foreign exchange contracts are included in the Statement of Net Assets and in the Schedule of Investments. All forwards, including those used for the hedging of Share classes, are included in the Schedule of Investments. All gains and losses on forwards are disclosed in the Statement of Operations and Changes in Net Assets.

Option Contracts. Options purchased are recorded as investments at their realisable market value; options written or sold are recorded as liabilities based on the cost to close the position. Purchased and written options are included in the Statement of Net Assets and in the Schedule of Investments. When the exercise of an option results in a cash settlement, the difference between the premium and the settlement proceeds is accounted for as a realised gain or loss. When an option expires, the premium is accounted for as a realised gain for options written or as a realised loss for options purchased. All gains and losses on options are disclosed in the Statement of Operations and Changes in Net Assets.

Interest Rate & Inflation Swaps. Interest receivable and payable on interest rate and inflation swap contracts is accrued on a daily basis, and future commitments under the swap are valued at market rates. Interest rate and inflation swap contracts are disclosed in the Statement of Net Assets and in the Schedule of Investments. All gains and losses in the value of interest rate and inflation swaps are disclosed in the Statement of Operations and Changes in Net Assets. Income receivable/payable on interest rate swaps is included in income or expenses on an accruals basis and is reflected in the Statement of Operations and Changes in Net Assets as Interest received/paid on swaps.

Credit Default Swaps. Premiums paid and received on credit default swap contracts to buy or sell protection against a credit event are accrued on a daily basis and reflected as net income. Future commitments under the swap are valued at market rates. Credit default swap contracts are disclosed in the Statement of Net Assets and the Schedule of Investments. All gains and losses in the value of credit default swaps are disclosed in the Statement of Operations and Changes in Net Assets.

Contracts for Difference. Contracts for difference are contracts entered into between a broker and the Company under which the parties agree to make payments to each other so as to replicate the economic consequences of holding a long or short position in the underlying security. Contracts for difference also mirror any corporate actions that take place. Dividends received or paid on contracts for difference are disclosed net in the Statement of Operations and Changes in Net Assets under the caption Derivative Income or Derivative Expenses. When a contract is closed, the Company records a realised gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed. The valuation of contracts for difference is based on the underlying security and they are disclosed in the Statement of Net Assets and the Schedule of Investments. The finance costs paid to the broker for holding the underlying security are included under the caption Finance costs on contracts for difference in the Statement of Operations and Changes in Net Assets. All gains and losses on contracts for difference are disclosed in the Statement of Operations and Changes in Net Assets.

Equity Linked Notes. Equity Linked Notes are valued daily based on the price of the underlying security and are disclosed in the Statement of Net Assets and the Schedule of Investments at market value. The intermediate coupon(s) and final payment at maturity are determined by the change in value of the underlying security. The interest income or "out performance" earned and any gains or losses are disclosed in Statement of Operations and Changes in Net Assets.

Term Loans. The Company invests in term loans that have been made by banks to companies. Term Loans are traded at tranche level and are made up of a number of underlying loans all with different terms (coupon rates, payment dates, maturity dates) from the same issuer. Term loans are valued according to the general security valuation policy and are disclosed in the Statement of Net Assets and the Schedule of Investments at market value. All gains and losses on term loans are disclosed in the Statement of Operations and Changes in Net Assets.

Foreign Exchange. Assets and liabilities as at 30 April 2015 have been translated at the prevailing exchange rates on that date. The Directors determine the designated currency of each sub-fund. All transactions denominated in foreign currencies during the year are translated into the

subfund's designated currency at the exchange rate prevailing on the day of transaction.

Bonds in Escrow. Bonds included in the Schedule of Investments can be used as collateral against open derivative exposures. Where this is the case, bonds will be escrowed to prevent them from being traded.

Fund Share Transactions. The issue and redemption price per Share of each sub-fund is the Net Asset Value per Share on the date of trade, subject to the price adjustment policy.

Formation Costs. All formation costs related to the launch of the Company have been amortised. Costs incurred in launching new sub-funds will be charged to current operating expenses.

Income. Dividends on equities are recognised when the security is quoted ex-dividend. Interest is accounted for on an accruals basis.

Zero Coupon Disclosure. Zero coupon bonds and zero coupon money market instruments are disclosed in the Schedule of Investments at a rate reflecting the actual return.

Co-Management of Assets. For the purpose of effective management, where the investment policies of the sub-funds so permit, the Board of Directors may choose to co-manage assets of certain sub-funds within the Fidelity Funds range. In such cases, assets of different sub-funds will be managed in common. Fractions may result from the co-management technique. The value of these fractions is based on the market value of the underlying securities in the portfolio of the co-managed sub-funds at the end of the year and is included in the total market value of the portfolio. Considering the immateriality of these amounts, they have been included as "Fractions" in the Schedule of Investments.

Combined Accounts. The combined financial statements have been presented in USD which is the Company's designated currency and represent the total financial statements of the different sub-funds. Sub-funds stated in currencies other than USD have been converted at exchange rates ruling at the year-end.

3. Investment Management Fees and Other Transactions with the Investment Manager or its Affiliates

Pursuant to the investment Management Agreement dated 1 June 2012, FFML is entitled to a monthly investment management fee and asset allocation fee, accrued daily and based on the average total Net Assets of each sub-fund, at annual rates disclosed in the table below:

Weighted based on the underlying composition of the fund. US assets are charged 0.35% and non-US assets are charged 0.41%.

Class C Shares are subject to an annual distribution fee of up to 1.00% of the Net Asset Value of the relevant class. Class E Shares are subject to an annual distribution fee of up to 0.75% of the Net Asset Value of the relevant class. These fees are accrued daily and payable quarterly to FIL Distributors. The Reserved Funds' classes of Shares may only be acquired by investors who are either Undertakings for Collective Investment or investors whose assets are held in accounts managed by FIL or its affiliates. Expenses and charges, excluding investment management fees, administration expenses, government taxes and custodian fees for such classes of Shares, will be charged to, and paid directly by, FIL and its affiliates. The investment management fees, administration expenses, government taxes and custodian fees for such classes of Shares are charged to the sub-funds but are reimbursed in full by FIL and its affiliates.

FIL and its affiliates may waive any or all of their fees and limit the maximum level of expenses (with certain exceptions) that the sub-funds would be paying. These waivers are voluntary and may be revised at any time. In addition, FFML may from time to time bear certain expenses of the sub funds, on a discretionary basis. Certain officers and directors of the Company are also directors, officers or employees of FIL or its affiliates.

FID is a wholly owned subsidiary of FIL. In performing its activities as General Distributor of the Company, FID is entitled to receive a sales commission on sales of Shares in the Company. For the year ended 30 April 2015, FID retained a total of USD 616,815 in sales commissions, the remainder is paid to intermediaries involved in distributing Shares.

The total aggregate value of the transactions of the Company traded through connected brokers was USD 59,912,565. Such transactions represent 0.04% of total transactions of the Company during the year ended 30 April 2015. Total brokerage commissions paid to connected brokers for the year ended 30 April 2015 was USD 6,341 at an average rate of commission of 0.01%. This represents 0.0044% of the total commissions paid. FFML has executed certain portfolio transactions to selected brokers who have agreed to repay a portion of commissions from such transactions to offset Company expenses. For the year ended 30 April 2015 the Company's expenses were reduced by USD 10,795,067 under this arrangement.

4. Directors' Fees

Subject to shareholder approval at the Annual General Meeting on 1 October 2015, Directors are each entitled to an annual fee of EUR 35,000 plus EUR 5,000 for each meeting attended. Directors who are affiliated with the Investment Manager or its holding company FIL Limited have waived their fees for the year ended 30 April 2015. The Chairman of the Audit Committee receives an additional fee of EUR 10,000 per annum. The total fees earned by the Directors in respect of services rendered for the year ended 30 April 2015 was USD 364,532.

5. Securities Lending

As at 30 April 2015, the Company lent securities having a value of USD 7,338,970 and received collateral with a market value of USD 8,463,585. During the year ended 30 April 2015, the Company paid USD 322,639 to the Custodian in relation to the securities lent. The following table discloses the breakdown of the total value of securities on loan, by sub-fund, as at 30 April 2015:

Sub-fund name	Security values USD	Sub-fund name	Security values USD
European Dividend Fund	1,601,370	Fidelity Target™ 2045 (Euro) Fund	7,441
FAWF International Fund	18,381	Fidelity Target™ 2050 (Euro) Fund	2,841

Fidelity Target™ 2040 (Euro) Fund	64,672		

The following table discloses the breakdown of the total value of securities on loan by counterparty and the total collateral market value by counterparty as at 30 April 2015:

Counterparty	Total Value USD	Collateral Market Value USD
Morgan Stanley	5,420,666	5,774,034
Credit Suisse	758,813	1,123,755
Societe Generale	632,328	990,266
Merrill Lynch	527,163	575,530

The collateral which consists of government bonds is held by the Custodian and is not reflected in the financial statements. Income from securities lending of USD 2,217,185 is included in the Net dividend and interest income balance within the Statement of Operations and Changes in Net Assets.

6. Taxation

The Company is not liable to any Luxembourg taxes on income or on realised or unrealised capital gains, nor to any Luxembourg withholding tax. The sub-funds are subject to an annual subscription tax of 0.05% on Equity, Bond, Balanced, Asset Allocation, MoneyBuilder, Fidelity Lifestyle and Singapore Retirements Funds and 0.01% on Cash, Reserved, Institutional Reserved Funds, Class P and I Shares, calculated and payable quarterly on the Net Assets of the sub-fund on the last day of each calendar quarter.

Foreign capital gains, dividends and interest may be subject to capital gain and withholding taxes or other taxes imposed by the country of origin concerned and such taxes may not be recoverable by the Company or its Shareholders. Where there is a reasonable likelihood that a liability will crystallise, the tax payable on the unrealised gain is provided for in the NAV. As at 30 April 2015, the capital gains tax provision for Institutional Hong Kong Opportunities Fund is HKD 714,213 as disclosed within the Statement of Net Assets.

7. Transaction Fees

Transaction fees are fees paid to brokers when buying and selling equities, CFD's, futures, options and exchange traded funds. Transaction fees are included in the costs of investments that are part of the realised and unrealised gain/(loss) in the Statement of Operations and Changes in Net

For the year ended 30 April 2015, these transaction fees amount to:

8. Equalisation

Income equalisation arrangements are applied to all share classes (accumulating and distributing), across all sub-funds. For distributing shares, these arrangements are intended to ensure that the income per Share which is distributed in respect of a distribution period is not affected by changes in the number of Shares in issue during that period. The calculation of equalisation is based on net investment income. All equalisation amounts are disclosed in the Statement of Operations and Changes in Net Assets.

9. Dividend Payments

The following dividend payments were made during the year ended 30 April 2015:

Sub-fund name	Div per Share	Ex-div date	Sub-fund name	Div per Share	Ex-div date

16. Credit Facility

The Company has syndicated multi-currency committed revolving credit facilities of USD 500,000,000 with a number of banks, for which J.P.Morgan Europe Limited acts as Agent. One facility for USD 250,000,000 was renewed on 17 November 2014 for a further 364 days, and the other facility for USD 250,000,000 was renewed on 16 May 2014 for a further 364 days. The facilities incur commitment fees of 0.07% and 0.07% respectively. The facilities, if drawn, bear interest at a rate of 1.00% above LIBOR (London Inter Bank Offer Rate) or, in the case of Swingline advances, at a rate of the higher of Prime Rate or 1.25% above the Federal Funds rate. Furthermore, if on any date the aggregate principal amount borrowed under any such facility (including amounts borrowed under any associated Swingline facility) equals or exceeds 33% of the aggregate committed amounts in respect of any such facility, then such facility will bear interest on the outstanding principal amount thereof at a rate per annum equal to the rate of interest otherwise applicable to such facility plus 0.05% per annum. The facilities are unsecured. During the period ended 30 April 2015 none of the facilities were used

17. Claims for Discriminatory Withholding Taxes within the European Union

Investment funds generally suffer local withholding taxes on receipt of cross-border payments of dividends throughout Europe. However, European Court of Justice and European Free Trade Association Court decisions support a tax discrimination claim where EU or European Economic Area ("EEA") countries impose such withholding taxes on cross-border payments at rates higher than the withholding tax imposed on dividends paid in similar situations to resident investors.

The Board of the Company has therefore authorised the filing of protective claims, based on the EU principle of the freedom of movement of capital within the EU & EEA, against countries where it is believed that withholding taxes may have been unlawfully imposed by individual EU or EEA States on dividend payments to the Company. The Board's decision has been taken exclusively to protect the position of investors in the Company.

The nature of these claims is complex and subject to each jurisdiction's local statute of limitations and procedural requirements. Consequently, these claims may be subject to lengthy litigation, and at the current time there is no certainty whether all the protective claims will ultimately be successful and whether or how much withholding tax will ultimately be recovered in each of the jurisdictions. During the year ended 30 April 2015, there were accruals made for reclaims from France and Sweden and withholding taxes were refunded from France and Sweden as detailed below: France: refunds received during the year ended 30 April 2015: USD 4,751,071.

Sweden: refunds received during the year ended 30 April 2015: USD 87,212.

18. Statement of Changes in Investments

A list for each sub-fund, specifying for each investment the total purchases and sales which occurred during the year under review, may be obtained free of charge from the Registered Office of the Company or from any of the companies registered as Distributors of the Company. It is possible to receive information about the full holdings of the sub-funds in which you invest, at any point in time during the year. This is available upon request, by contacting your usual Fidelity Representative.

19. Rates of Exchange

Nigerian naira (NGN)

The USD exchange rates as at 30 April 2015 are noted below. For the Chinese Renminbi currency, please note that the offshore rate is applied.

On 1 May 2015, Multi Asset Strategic Fund was renamed to Global Multi Asset Tactical Moderate Fund. On the same date, Multi Asset Strategic Defensive Fund was renamed to Global Multi Asset Tactical Defensive Fund and changed its reporting currency from EUR to USD.

On 18 July 2015, European Aggressive Fund was merged into European Dynamic Growth Fund.

Audit Report

To the Shareholders of Fidelity Funds

We have audited the accompanying financial statements of Fidelity Funds (the "SICAV") and of each of its sub-funds, which comprise the statement of net assets and the schedule of investments as at 30 April 2015 and the statement of operations and changes in net assets for the year then ended, and a summary of significant accounting policies and other explanatory notes to the financial statements.

Responsibility of the Board of Directors of the SICAV for the financial statements

The Board of Directors of the SICAV is responsible for the preparation and fair presentation of these financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation of the financial statements and for such internal control as the Board of Directors of the SICAV determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Responsibility of the "Réviseur d'entreprises agréé"

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier". Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the judgment of the "Réviseur d'entreprises agréé", including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the "Réviseur d'entreprises agréé" considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Board of Directors of the SICAV, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements give a true and fair view of the financial position of Fidelity Funds and of each of its sub-funds as of 30 April 2015, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation of the financial statements.

Other matters

Supplementary information included in the annual report has been reviewed in the context of our mandate but has not been subject to specific audit procedures carried out in accordance with the standards described above. Consequently, we express no opinion on such information. However, we have no observation to make concerning such information in the context of the financial statements taken as a whole.

The European Directive on Savings Income 2003/48/EC

The EU Council Directive 2003/48/EC of 3 June 2003 on taxation of savings income in the form of interest payments (hereinafter the "Directive") provides that from 1 July 2005, paying agents established in a member state of the EU or certain dependent or associated territories of member states who make certain savings income payments to individuals resident in another member state or to residual entities within the sense of the Directive (and, depending on the home state of the paying agent, possibly also to individuals and residual entities within the sense of the Directive resident in certain dependent or associated territories of member states) will be obliged, depending on the jurisdiction of establishment of the paying agent, either to report details of the payment and payee to fiscal authorities or to withhold tax from it.

The law of 21 June 2005 (the "Law") has implemented into Luxembourg law the Directive. Pursuant to the Law and in accordance with the letter of the Directive, the withholding tax applicable in Luxembourg was set at 15% from 1 July 2005 until 30 June 2008, then 20% from 1 July 2008 until 30 June 2011, rising to 35% from 1 July 2011. Article 9 of the Law provides however that no withholding tax will be withheld if the Beneficiary explicitly authorises the paying agent in writing to proceed to an Exchange of Information or if the Beneficiary provides the paying agent with an exemption certificate drawn up in the name of the Beneficiary by the competent authority in his country of residence. Dividends distributed by the Company will fall into the scope of the Directive if more than 15% of the relevant sub-fund's assets are invested in debt claims (as defined in the Law). Redemption proceeds realised by Shareholders on the disposal of Shares will fall into the scope of the Directive if more than 25% of the relevant sub-fund's assets are invested in debt claims.

Unaudited Supplementary Information - continued

N/A = The Directive is not applicable to those sub-funds as they are not distributed to investors in Europe. IN = In scope of the Law.

OUT = Out of scope of the Law.

For French residents only

For the year under review, the following sub-funds have invested in securities eligible to PEA (Plan d'Épargne en Actions), a French tax wrapping in accordance with article L 221-31 of the French monetary and financial code.

Sub-fund name	% of Net Assets
France Fund	99.24
Germany Fund	97.14
Iberia Fund	96.33
Italy Fund	95.65
Nordic Fund	95.23
United Kingdom Fund	88.99
European Smaller Companies Fund	88.14
Euro Blue Chip Fund	86.97
European Dynamic Growth Fund	86.55
European Larger Companies Fund	82.12

Unaudited Supplementary Information - continued

For German residents only

The Shareprofit II Tax rates for the period from 1 March to 30 June 2013 can be found on www.fidelity.de.

For UK residents only

The affairs of the Company have been conducted to ensure as far as possible that United Kingdom Reporting Fund Status will be granted for the period of these accounts with respect to the sub-funds and Share classes that are registered in the United Kingdom. With respect to UK registered sub-funds and Share classes in existence prior to the introduction of the new regime the Company has applied to the UK Inland Revenue to transition into the new regime and the UK authorities have given notice that they accept this entry. Moreover, the Company has submitted an application for the new regime for UK registered sub-funds and Share classes launched during the accounting period ending 30 April 2014. It also submitted or will submit an application for new Share classes in existing or new UK registered sub-funds launched during the accounting period. Reportable income figures are generally available six months after the year end date. The distributing subfunds and Share classes of the Company that were registered in the UK at the time have also been certified as "distributing funds" by the UK Inland Revenue authorities under the predecessor regime for all accounting periods up to 30 April 2010.
