OF

## FIDELITY INVESTMENT FUNDS IV

(an umbrella company with variable capital  
registered in England and Wales under registered number IC000712)

This document constitutes the Prospectus for Fidelity Investment Funds IV ("the Company"), which has been prepared in accordance with The Collective Investment Schemes Sourcebook (COLL).

**This Prospectus is dated, and is valid as at, 7 July 2017.**

Copies of this Prospectus have been sent to the Financial Conduct Authority (formerly known as the Financial Services Authority) and the Depositary.

FIL Investment Services (UK) Limited, the Authorised Corporate Director of the Company, is the person responsible for the information contained in this Prospectus. To the best of its knowledge and belief (having taken all reasonable care to ensure that such is the case), the information in this document does not contain any untrue or misleading statement or omit any matters required by The Collective Investment Schemes Sourcebook to be included in it. FIL Investment Services (UK) Limited accepts responsibility accordingly.

FIL Investment Services (UK) Limited is authorised and regulated by the Financial Conduct Authority.

LO00608

## **PROSPECTUS OF FIDELITY INVESTMENT FUNDS IV**

An investment company with variable capital and segregated liability between Funds incorporated with limited liability and registered in England and Wales under number IC000712. The Company's FCA product reference number is 487683.

In accordance with the OEIC Regulations and with the approval of the FCA, the Company has converted to segregated liability status between Funds. Having segregated liability between Funds means that the Funds are segregated portfolios of assets and, accordingly, the assets of a Fund belong exclusively to that Fund and shall not be used to discharge directly or indirectly the liabilities of, or claims against, any other person or body, including the Company, or any other Fund, and shall not be available for any such purpose. As outlined in the COLL Sourcebook and as more particularly outlined herein under risk factors, the concept of segregated liability is relatively new and accordingly, where claims are brought by local creditors in foreign courts or under foreign law contracts, it is not yet known whether foreign courts will recognize the segregated liability status between Funds.

No person has been authorised by the Company to give any information or to make any representations concerning the Company or in connection with the offering of Shares other than those contained in this Prospectus, and, if given or made, such information or representations must not be relied on as having been given or made by the Company. Any purchase of Shares made by any person on the basis of information or representations not contained in or inconsistent with the information and representations contained in this Prospectus will be solely at the risk of the purchaser.

The Company's Funds are designed and managed to support longer-term investment, and frequent trading is discouraged. The Company is not intended to serve as a vehicle for active trading which seeks to take advantage of short-term fluctuations in securities markets. This type of short-term or excessive trading is often described as "market timing" and may harm a Fund's performance by disrupting portfolio management strategies and by increasing expenses. FIL Investment Services (UK) Limited is committed to disallowing transactions which it knows or reasonably believes to represent a pattern of market timing activity involving the Funds. Accordingly, FIL Investment Services (UK) Limited and other distributors may reject any purchase or switch of Shares by persons who are considered to have a history of short-term or excessive trading in the Funds or in other funds managed by Fidelity or by other fund managers, or whose trading activity has been or may be disruptive.

The delivery of this Prospectus (whether or not accompanied by any reports) or the issue of Shares shall not, under any circumstances, create any implication that the affairs of the Company have not changed since the date hereof.

The distribution of this Prospectus and the offering of Shares in certain jurisdictions may be restricted. Persons into whose possession this Prospectus comes are required by the Company to inform themselves about and to observe any such restrictions. This Prospectus does not constitute an offer or solicitation by anyone in any jurisdiction in which such offer or solicitation is not authorised or to any person to whom it is unlawful to make such offer or solicitation.

Shares in the Company are not listed or dealt on any investment exchange.

The Company's Funds are marketable to all investors. However, potential investors should not treat the contents of this Prospectus as advice relating to legal, taxation, investment or any other matters and are recommended to consult their own professional advisers concerning the acquisition, holding or disposal of Shares.

Investors in the Company agree that data relating to them may be stored or used for legitimate purposes by FIL Investment Services (UK) Limited and associated or affiliated companies, who may be based outside of the European Economic Area. Data provided by investors will be used for a number of different purposes, including to develop and process the business relationship and to comply with legal and regulatory requirements. Data may be shared with associated or affiliated companies, wherever located, with intermediaries and other parties in the business relationship, and with other third parties for the purposes mentioned above. Information about investors may also be passed to financial and other organisations for the purpose of fraud prevention and where it is suspected that the relevant investor is or has been engaging in short-term, excessive or disruptive trading in the Company's Funds or other funds, so that appropriate steps may be taken to protect the Company and its Shareholders. If data is transferred outside of the UK, Fidelity will ensure that the recipient agrees to hold it securely in accordance with the requirements of the Data Protection Act 1998.

The provisions of this Prospectus and of the Company's Instrument of Incorporation are binding on each of its Shareholders (who are taken to have notice of them). The rights and obligations of Shareholders are set out in this Prospectus. Shareholders will not receive any direct legal interest in

investments made by a sub-fund. The Company operates under English Law and is subject to the jurisdiction of the English Courts.

The ACD will ensure that Shareholders in the Company are treated fairly. Each Share pertaining to the same Class of Shares within the same sub-fund bears the same rights and obligations. Therefore the equal treatment of all Shareholders holding Shares of the same Class within the same sub-fund is ensured. The ACD (or any of its delegates) will not enter into any arrangement granting a preferential treatment to any investor which, in the justified opinion of the ACD, could result into an overall material disadvantage to other investors.

This Prospectus has been issued for the purpose of section 21 of the Financial Services and Markets Act 2000 by FIL Investment Services (UK) Limited.

This Prospectus is based on information, law and practice at the date hereof. The Company cannot be bound by an out of date prospectus when it has issued a new prospectus, and investors should check with FIL Investment Services (UK) Limited that this is the most recently published prospectus.

## TERMS USED IN THIS DOCUMENT

<b>“ACD”</b>	FIL Investment Services (UK) Limited, the authorised corporate director of the Company
<b>“AIF”</b>	An alternative investment fund under the AIFM Directive
<b>“AIFM”</b>	Alternative Investment Fund Manager
<b>“AIFM Directive”</b>	EC Directive 2011/61/EU as amended
<b>“Approved Bank”</b>	An approved bank as defined in the Glossary to the FCA Handbook
<b>“Class”</b>	All of the Shares relating to a single Fund or a particular class of Shares relating to a single Fund
<b>“COLL”</b>	Refers to the appropriate chapter or rule in the COLL Sourcebook
<b>“COLL Sourcebook”</b>	The Collective Investment Schemes Sourcebook issued by the FCA, as amended or re-enacted from time to time
<b>“Company”</b>	Fidelity Investment Funds IV
<b>“Depositary”</b>	J.P.Morgan Europe Limited, the depositary of the Company
<b>“Dealing Day”</b>	Means a weekday (excluding UK public holidays)
<b>“Eligible Institution”</b>	One of certain eligible institutions as defined in the glossary to the FCA Handbook
<b>“FCA”</b>	The Financial Conduct Authority
<b>“FCA Handbook”</b>	The FCA Handbook of Rules and Guidance
<b>“Fund”</b>	A sub-fund of the Company (being part of the Scheme Property which is pooled separately and to which specific assets and liabilities of the Company may be allocated), and which is invested in accordance with the investment objective applicable to such sub-fund
<b>“Independent Fund Manager”</b>	The manager or operator of an Underlying Fund which is not the ACD or another Fidelity company
<b>“ISA”</b>	Individual Savings Account
<b>“ISA Regulations”</b>	The Individual Savings Account Regulations 1998 (as amended)
<b>“Mainly”</b>	Where the investment objective or policy of a Fund contains the word “mainly”, that Fund will invest over 50% of the value of its property in the specified kind of assets.
<b>“Mostly”</b>	Where the investment objective or policy of a Fund contains the word “mostly”, that Fund will invest over 50% of the value of its property in the specified kind of assets.
<b>“Net Asset Value” or “NAV”</b>	The value of the Scheme Property (or of the scheme property attributable to a Fund or Class) less the liabilities of the Company (or of the Fund or Class) as calculated in accordance with the Company’s Instrument of Incorporation
<b>“NURS scheme”</b>	A collective investment scheme which is non-UCITS retail scheme as defined in the COLL Sourcebook
<b>“OEIC Regulations”</b>	The Open-Ended Investment Companies Regulations 2001 as amended
<b>“Predominantly”</b>	Where the investment objective or policy of a Fund contains the word “predominantly”, that Fund will invest not less than 80% of the value of its property in the specified kind of assets.
<b>“Primarily”</b>	Where the investment objective or policy of a Fund contains the word “primarily”, that Fund will invest not less than 70% of the value of its property in the specified kind of assets.
<b>“Scheme Property”</b>	The property of the Company

<b>“Shareholder”</b>	a holder of registered Shares
<b>“Share”</b>	A share in the capital of the Company (including fractions of one hundredth of a Share)
<b>“UCITS scheme”</b>	A collective investment scheme which complies with the UCITS Directive 1985 as amended and replaced by EC Directive 2009/65/EC (the EU Directive regarding Undertakings for Collective Investment in Transferable Securities)
<b>“Underlying Fund”</b>	A collective investment scheme in which a Fund invests

Where a Fund's investment objective or policy refers to investments in companies of a particular country or region, such reference means (in the absence of any further specification) investments in companies listed, incorporated, headquartered or having their principal business activities in such country or region.

## THE COMPANY AND ITS FUNDS

### The Company

Fidelity Investment Funds IV is an open-ended investment company with variable capital incorporated in England and Wales under registered number IC000712 and authorised by the FCA on 2 October 2008.

The Company has an unlimited duration. Shareholders are not liable for the debts of the Company.

Share Capital:

The maximum share capital of the Company is £500 billion and the minimum share capital of the Company is £10 million. Shares have no par value. The share capital of the Company at all times equals the sum of the Net Asset Values of the Funds.

Base Currency:

The currency of the Company is pounds sterling or such other currency or currencies as may be the lawful currency of England and Wales.

### The Funds

The Company is itself authorised as a NURS scheme and is an AIF. It is structured as an umbrella company, the different Funds each comprising a distinct portfolio of investments. Additional Funds, or new Classes of Shares within existing Funds, may be established from time to time by the ACD with the agreement of the Depositary and the approval of the FCA. This Prospectus will be revised on the introduction of a new Fund or Class of Shares within a Fund.

The Funds are operated separately, and the assets of each Fund are managed in accordance with the investment objective and policy applicable to that Fund.

The following Funds are available as indicated:

#### **Multi Asset Funds:**

- Fidelity Multi Asset Allocator Defensive Fund
- Fidelity Multi Asset Allocator Strategic Fund (*formerly Fidelity Multi Asset Allocator Balanced Fund*)
- Fidelity Multi Asset Allocator Growth Fund
- Fidelity Multi Asset Allocator Adventurous Fund
- Fidelity Allocator World Fund
- Fidelity Multi Asset Defensive Fund
- Fidelity Multi Asset Strategic Fund
- Fidelity Multi Asset Growth Fund
- Fidelity Multi Asset Adventurous Fund
- Fidelity WealthBuilder Fund
- Fidelity Multi Asset Open Defensive Fund
- Fidelity Multi Asset Open Strategic Fund (*formerly Fidelity MultiManager Balanced Fund*)
- Fidelity Multi Asset Open Growth Fund (*formerly Fidelity MultiManager Growth Portfolio*)
- Fidelity Multi Asset Open Adventurous Fund
- Fidelity Open World Fund
- Fidelity Multi Asset Income Fund (*formerly Fidelity Retirement Income Fund*)
- Fidelity Multi Asset Balanced Income Fund
- Fidelity Multi Asset Income & Growth Fund

## **Target Funds:**

Fidelity Target 2020 Fund (*formerly Fidelity WealthBuilder Target 2020 Fund*)

Fidelity Target 2025 Fund (*formerly Fidelity Retirement 2025 Fund*)

Fidelity Target 2030 Fund (*formerly Fidelity Retirement 2030 Fund*)

The Target Funds provide a range of Funds with particular target years, each designed with the objective of achieving long term capital growth for investors planning to withdraw substantial portions of their investment in or after the particular target year indicated in the Fund's name.

## **Undiscovered Talent Fund:**

Fidelity Undiscovered Talent Fund

Full details of each Fund are set out in Appendix 1. The investment powers and restrictions of each Fund are explained below and in Appendix 2.

A Shareholder is entitled (subject to certain restrictions) to switch all or some of his Shares for Shares of a different Fund. Details of this switching facility and of the restrictions are set out in Buying, Selling and Switching Shares – "Switching Shares".

## **Investment Objectives and Policies of the Funds**

Fidelity Investment Funds IV provides access, both indirectly through investing in Underlying Funds (which may include those established in the countries of the EEA, Australia, Canada, Hong Kong, Japan, Singapore, South Korea, Switzerland, Taiwan and the USA) and directly, to the global research resources and stockpicking skills of Fidelity's investment management teams throughout the world. Each Fund provides the opportunity to benefit from investment in professionally managed pools of securities and other financial instruments in different geographic areas and currencies.

The investment objective and policy of each Fund is set out in Appendix 1, and details of the investment powers and restrictions prescribed by the COLL Sourcebook are provided in Appendix 2.

A Fund may change its investment objective and/or investment policy in accordance with the requirements of the COLL Sourcebook. A change which is classified as fundamental will require the prior approval of the FCA and at least 75% of the Fund's Shareholders who vote at a Shareholder meeting to be approved. A non-fundamental but still significant change would require FCA approval and at least 60 days advance notice to the Shareholders of the Fund.

## **Risk Factors**

The level of risk varies between Funds. Risk is about how likely an investment is to fluctuate in value over time. While historically, over the longer term, shares and bonds have been seen to outstrip the returns expected from a bank or building society account, potential investors should consider the risk factors described below before investing in a Fund.

### **- Past Performance**

Past performance information relating to each Fund is set out in Appendix 1. Potential investors are warned that past performance should not be seen as an indication of how a Fund will perform in the future and cannot in any way provide a guarantee of future returns. Your attention is drawn to the additional notes and warnings given in Appendix 1.

### **- Fluctuations in Value**

The investments of the Company are subject to normal market fluctuations and other risks inherent in investing in securities and other financial instruments. There can be no assurance that any appreciation in value of investments will occur, and the capital value of your original investment is not guaranteed. The value of investments and the income from them may go down as well as up and you may not get back the original amount invested. There is no assurance that the investment objective of a Fund will actually be achieved.

### **- Equities**

For Funds investing in the shares of companies (equities), the value of those equities may fluctuate, sometimes dramatically, in response to the activities and results of individual companies or because of general market and economic conditions or other events. Currency exchange rate movements will also cause changes in value when the currency of the investment is other than the base currency of the Fund holding that investment.

- **Bonds, Debt Instruments & Fixed Income (including High Yielding Securities)**

For Funds which invest in bonds or other debt instruments, the value of those investments will depend on market interest rates, the credit quality of the issuer and liquidity considerations. The net asset value of a Fund invested in debt instruments will change in response to fluctuations in interest rates, perceived credit quality of the issuer, market liquidity and also currency exchange rates (when the currency of the investment is other than the base currency of the Fund holding that investment). Some Funds may invest in high yielding debt instruments where the level of income may be relatively high (compared to investment grade debt instruments); however the risk of depreciation and realisation of capital losses on such debt instruments held will be significantly higher than on lower yielding debt instruments.

- **Lower Rated/Unrated Securities**

The credit quality of debt instruments is often assessed by rating agencies. Medium and lower rated securities and unrated securities of comparable quality may be subject to wider fluctuations in yield, wider bid-offer spreads, greater liquidity premium and accentuated market expectations, and consequently greater fluctuations in market values, than higher rated securities. Changes in such ratings, or expectation of changes, will be likely to cause changes in yield and market values, at times significantly so.

- **Country concentration**

Funds which invest in essentially only one country will have greater exposure to market, political, legal, economic and social risks of that country than a Fund which diversifies country risk across a number of countries. There is a risk that a particular country may impose foreign exchange and/or conversion controls or regulate in such a way as to disrupt the way the markets in that country operate. The consequences of these actions, and others such as confiscation of assets, could be to hinder the normal operation of the Fund with regard to the purchase and sale of investments and possibly the ability to meet redemptions. Dealing in the Fund may be suspended and investors may not be able to acquire or redeem units in the Fund. These and other actions could also adversely affect the ability to price investments in the Fund which could affect the net asset value of the Fund in a material way. However, diversification across a number of countries could introduce other risks such as currency risk. In certain countries, and for certain types of investments, transaction costs are higher and liquidity is lower than elsewhere.

- **Legal and tax risks**

In some jurisdictions the interpretation and implementation of laws and regulations and the enforcement of shareholders' rights under such laws and regulations may involve significant uncertainties. Furthermore, there may be differences between accounting and auditing standards, reporting practices and disclosure requirements and those generally accepted internationally. Some of the Funds may be subject to withholding and other taxes. Tax law and regulations of any country are constantly changing, and they may be changed with retrospective effect. The interpretation and applicability of the tax law and regulations by tax authorities in some jurisdictions are not as consistent and transparent as those of more developed nations, and may vary from region to region.

- **Holdings concentration**

Some Funds may invest in a relatively small number of investments and the net asset value of the Fund may be more volatile as a result of this concentration of holdings relative to a Fund which diversifies across a larger number of investments.

- **Investments in Medium and Small sized firms**

There may be limited opportunities to find alternative ways of managing cash flows especially where the focus of investment is on small and medium sized firms. For Funds specialising in such firms, transactions, particularly those large in size, are likely to have a greater impact on the costs of running a Fund than similar transactions in larger Funds or similar transactions in large sized firms because of the relatively illiquid nature of markets in small and medium sized companies' shares.

- **Liquidity risk**

In normal market conditions a Fund's assets comprise mainly realisable investments which can be readily sold. A Fund's main liability is the redemption of any shares that investors wish to sell. In general the Fund manages its investments, including cash, such that it can meet its liabilities. Investments held may need to be sold if insufficient cash is available to finance such

redemptions. If the size of the disposals are sufficiently large, or the market is illiquid, then there is a risk that either the investments might not be sold or the price at which they are sold may adversely affect the net asset value of the Fund.

- **Foreign Currency risk**

A Fund's total return and balance sheet can be significantly affected by foreign exchange rate movements if the Fund's assets and income are denominated in currencies other than the base currency of the Fund and this means that currency movements may significantly affect the value of a Fund's Share price. The three principal areas of foreign currency risk are where movements in exchange rates affect the value of investments, short term timing differences or income received. A Fund may, or may not, hedge these risks using either spot or forward foreign exchange contracts and the associated risks are explained below in the section on Financial Derivative Instruments.

- **Pricing and Valuation risk**

For quoted investments a valuation price can be obtained from an exchange or similarly verifiable source. However, investment in unquoted and/or illiquid investments which will increase the risk of mispricing. Furthermore, the Fund will compute net asset values when some markets are closed for holidays or other reasons. In these and similar cases an objective verifiable source of market prices will not be available and the investment manager will invoke its Fair Value process which will determine a fair value price for the relevant investments; this Fair Value process involves assumptions and subjectivity.

- **Credit risk**

Investments may be adversely affected if any of the institutions with which money is deposited suffers insolvency or other financial difficulties (default). Credit risk also arises from the uncertainty about the ultimate repayment of principal and interest for bond or other debt instrument investments. The entire deposit or purchase price of the debt instrument is at risk of loss if there is no recovery after default. The risk of default is usually greatest with bonds and debt instruments that are classed as 'sub-investment' grade. As explained further below, in Appendix 2, under Derivatives, a credit default swap where a Fund has sold protection will involve very similar credit risks to those arising from holding the actual underlying bond, debt instrument or basket of instruments.

- **Counterparty Credit & Settlement risk**

All security investments are transacted through brokers who have been approved by the investment manager as an acceptable counterparty. The list of approved brokers is reviewed regularly. There is a risk of loss if a counterparty fails to perform its financial or other obligations to the Funds, for example, the possibility that a counterparty may default, by failing to make payments due, or make payments in a timely manner. If settlement never occurs the loss incurred by the Fund will be the difference between the price of the original contract and the price of the replacement contract, or, in the case where the contract is not replaced the absolute value of the contract at the time it is voided.

Furthermore, in some markets 'Delivery versus Payment' may not be possible in which case the absolute value of the contract is at risk if the Fund meets its settlement obligations but the counterparty fails before meeting its obligations.

The assets of the Funds are held in custody by the Depositary and the Depositary may appoint other banks and financial institutions to hold the Fund's assets. Cash and fiduciary deposits may not be treated as segregated assets and might therefore not be segregated from the own assets of the Depositary, bank or financial institution holding a Fund's assets in the event of the insolvency or the opening of bankruptcy, moratorium, liquidation or reorganisation proceedings of the Depositary, bank or financial institution holding a Fund's assets as the case may be. Subject to specific depositor's preferential rights in bankruptcy proceedings set forth by regulation in the jurisdiction of the Depositary, bank or financial institution holding a Fund's assets, a Fund's claim might not be privileged and may only rank pari passu with all other unsecured creditors' claims. The Company, acting on behalf of a Fund might not be able to recover all of its assets in full.

- **Overseas Investments**

If you choose a Fund which invests overseas you should note that, as they are sterling based and contain foreign investments, they will be affected by fluctuations in rates of currency exchange, in addition to the usual stockmarket fluctuations.

- **Emerging Markets including Russia**

Several of the Funds invest, in part or in whole, in emerging market securities. The price of these securities may be more volatile than those of securities in more developed markets. As a result there may be a greater risk of price fluctuation or of the suspension of redemptions in such Funds, compared to Funds investing in more mature markets. This volatility may stem from political and economic factors and be exacerbated by legal, trading liquidity, settlement, transfer of securities and currency factors. Some emerging market countries have relatively prosperous economies but may be sensitive to world commodity prices and/or volatile inflation rates. Others are especially vulnerable to economic conditions. Although care is taken to understand and manage these risks, the respective Funds and accordingly the Shareholders in those Funds will ultimately bear the risks associated with investing in these markets.

Some of the Funds may invest a portion of their net assets in Russia. There are specific risks linked to investing in Russia. Investors should be aware that the Russian market presents specific risks in relation to the settlement and safekeeping of securities as well as regarding the registration of assets where registrars are not always subject to effective government or other supervision. Russian securities are not on physical deposit with the Custodian or its local agents in Russia. Therefore, neither the Custodian nor its local agents in Russia can be considered to be performing a physical safekeeping or custody function in accordance with recognised international standards. The Custodian's liability only extends to its own negligence and/or wilful default and to negligence and wilful misconduct of its local agents in Russia and does not extend to losses due to the liquidation, bankruptcy, negligence and wilful default of any registrar. In the event of such losses, the Fund will have to pursue its rights against the issuer and/or the appointed registrar of the securities.

Some, or all, of the risks attributed to investing in Russia may also apply in other emerging markets.

- **Securitised or Structured Debt Instruments**

Funds may invest in securitised or structured debt instruments (collectively referred to as structured products). Such instruments include asset-backed securities, mortgage-backed securities, collateralised debt instruments and collateralised loan obligations. Structured products provide exposure, synthetically or otherwise, to underlying assets and the risk/return profile is determined by the cash flows derived from such assets. Some of such products involve multiple instruments and cash flow profiles such that it is not possible to predict with certainty the outcome from all market scenarios. Also the price of such an investment could be contingent on, or highly sensitive to, changes in the underlying components of the structured instrument. The underlying assets can take many forms including, but not limited to, credit card receivables, residential mortgages, corporate loans, manufactured housing loans or any type of receivables from a company or structured vehicle that has regular cash flows from its customers. Some structured products may employ leverage which can cause the price of the instruments to be more volatile than if they had not employed leverage. In addition investments in structured products may be less liquid than other securities. The lack of liquidity may cause the current market price of assets to become disconnected from the underlying assets' value and consequently Funds investing in securitised products may be more susceptible to liquidity risk. The liquidity of a structured product can be less than a regular bond or debt instrument and this may adversely affect either the ability to sell the position or the price at which such a sale is transacted.

- **Mortgage-Related Securities**

Generally, rising interest rates tend to extend the duration of fixed rate mortgage-related securities making them more sensitive to changes in interest rates. As a result, in a period of rising interest rates a Fund holding mortgage-related securities may exhibit additional volatility (extension risk). In addition, adjustable and fixed rate mortgage-related securities are subject to prepayment risk. When interest rates decline, borrowers may pay off their mortgages sooner than expected. This can reduce the returns of a Fund because the Fund may have to reinvest that money at the lower prevailing interest rates. In addition investments in securitised products may be less liquid than other securities. The lack of liquidity may cause the current market price of assets to become disconnected from the underlying assets value and consequently Funds investing in securitised products may be more susceptible to liquidity risk. The liquidity of a securitised product can be less than a regular bond or debt instrument and this may adversely affect either the ability to sell the position or the price at which such a sale is transacted.

- **Equity Linked Notes (Structured Notes)**

Equity Linked Notes (ELNs) and similar structured notes involve a counterparty structuring a note whose value is intended to move in line with the underlying security specified in the note.

Unlike Financial Derivative Instruments, cash is transferred from the buyer to the seller of the note. In the event that the counterparty (structuring of the note) defaults the risk to the Fund is to that of the counterparty, irrespective of the value of the underlying security within the note. Additional risks result from the fact that the documentation of such notes programmes tends to be highly customised. The liquidity of an ELN or similar notes can be less than that for the underlying security, a regular bond or debt instrument and this may adversely affect either the ability to sell the position or the price at which such a sale is transacted.

- **Securities Lending**

Securities Lending involves risks in that (a) if the borrower of securities lent by a Fund fails to return them there is a risk that the collateral received may realise less than the value of the securities lent out, whether due to inaccurate pricing, adverse market movements, a deterioration in the credit rating of issuers of the collateral, or the illiquidity of the market in which the collateral is traded, that (b) in case of reinvestment of cash collateral such reinvestment may (i) create leverage with corresponding risks and risk of losses and volatility, (ii) introduce market exposures inconsistent with the objectives of the sub-fund, or (iii) yield a sum less than the amount of collateral to be returned and that (c) delays in the return of securities on loans may restrict the ability of a Fund to meet delivery obligations under security sales.

- **Repurchase Transactions**

Repurchase Transactions involve risks in that (a) in the event of the failure of the counterparty with which cash of a Fund has been placed there is the risk that collateral received may realise less than the cash placed out, whether because of inaccurate pricing of the collateral, adverse market movements, a deterioration in the credit rating of issuers of the collateral, or the illiquidity of the market in which the collateral is traded; that (b) (i) locking cash in transactions of excessive size or duration, (ii) delays in recovering cash placed out, or (iii) difficulty in realising collateral may restrict the ability of the Fund to meet redemption requests, security purchases or, more generally, reinvestment; and that (c) repurchase transactions will, as the case may be, further expose a Fund to risks similar to those associated with optional or forward derivative financial instruments.

- **Derivatives and Forward Transactions**

The purposes and extent of the use of derivatives and forwards by the Funds, together with some more detailed and specific risks associated with these activities, are detailed in Appendix 2.

**Derivatives and forwards may be used in order to achieve the investment objective (i.e. for specific investment purposes) in any Fund, in addition to being used for efficient portfolio management purposes. The ACD does not expect to use derivatives aggressively, but the use of derivatives in a Fund may lead to higher volatility in its Share price or cause the risk profile of the Fund to alter.**

The ACD employs a risk management process to oversee and manage derivative exposures within the Funds. The use of derivatives has the overall intention of reducing the volatility of returns, although this outcome is not guaranteed.

The ACD may use one or more separate counterparties to undertake derivative transactions on behalf of the Funds, and may be required to pledge collateral paid out of the property of a Fund in order to secure such contracts. There may be a risk that the counterparty will wholly or partially fail to honour its contractual obligations regarding the return of collateral and any other payments due to the Fund. The ACD assesses the creditworthiness of counterparties as part of its risk management process.

- **Dealing Arrangements**

In certain circumstances, the investor's right to redeem Shares may be suspended or redemption requests may be deferred (see Appendix 4, Deferred Redemption of Shares).

- **Liability**

Shareholders are not liable for the debts of the Company. A Shareholder is not liable to make any further payment to the Company after he has paid the purchase price of the Shares.

### **Risk Management Process**

The Manager employs a risk management process which identifies and addresses the following main risks in particular:

- Market risk - the risk of loss for the Funds resulting from fluctuation in the market value of positions held in the Funds attributable to changes in market variables, such as interest rates,

foreign exchange rates, equity and commodity prices or an issuer's credit worthiness. Market risk includes the risk arising from leveraging and inappropriate diversification. Leveraging encompasses the global risk exposure while diversification includes counterparty limits associated with OTC derivatives as well as concentration limits. 'Leverage' means any method by which the fund manager increases the exposure of a fund it manages whether through borrowing of cash or securities, or leverage embedded in derivative positions or by any other means;

- Liquidity risk - the risk of not being able to liquidate a position in a timely manner at a reasonable price to meet client redemptions. Liquidity risk also includes the ability and cost of borrowing if the Funds are unable to liquidate sufficient assets to meet redemption requests.
- Counterparty/Credit risk - is the risk of loss if a counterparty fails to perform or meet its financial obligations (e.g. to repay principal and/or interest in a timely manner) to the Fund.
- Operational risk - the risk of loss arising from inadequate or failed internal processes, systems, third parties, external events, people and fraud.
- Regulatory risk - the risk of a fund violating a specific regulatory requirement, as well as a Board-imposed restriction, client guideline, prospectus and eligibility requirements.

Risk management policies and procedures define qualitative or quantitative risk limits as well as procedures to ensure that exposures of the Funds to market, liquidity, counterparty, operational and all other relevant risks are identified and appropriately managed. Techniques and tools are developed globally at FIL Group level and monitored locally within each Fund.

It is the Manager's risk management policy to implement and strictly monitor risk limits to meet any regulatory and/or other requirements that the Funds have to comply with e.g. investment policy and diversification limits and any other risk limits, which the Manager believes is relevant to ensure a proper management of the material risks that the Fund has identified and might be exposed to. Further details of the risk management policy are available from the Manager on request.

### **Investment Powers and Restrictions**

The assets of each Fund will be invested with the aim of achieving the investment objective and policy of that Fund. They must also be invested so as to comply with the investment and borrowing powers and restrictions set out in the COLL Sourcebook, the Instrument of Incorporation of the Company and this Prospectus.

A summary of the investment powers and restrictions applicable to each Fund is set out in Appendix 2.

## **SHARES**

### **Classes of Shares**

Shares of different Classes may from time to time be issued in respect of a Fund, and the ACD may from time to time create additional Classes in respect of a Fund. The differences between Classes may be the eligible investors, minimum subscription, the minimum holding and/or the charges to be borne, as summarised in the Table below and further detailed in Appendix 1 in relation to each Fund. In most cases either income Shares or accumulation Shares are offered. The Classes currently available in each Fund are set out in Appendix 1.

### **Income (Inc) type Shares**

Holders of income Shares are entitled to be paid the income attributable to such Shares in respect of each annual and interim accounting period. However, unless the Shareholder instructs the ACD that he wishes to receive the income, the income will be reinvested in the relevant Fund and used to purchase further income Shares.

### **Accumulation (Acc) type Shares**

Holders of accumulation Shares are not entitled to be paid the income attributable to such Shares, but that income is automatically added to (and retained as part of) the capital assets of the relevant Fund at the end of each annual accounting period. The price of an accumulation Share increases to reflect accrued income.

### **A Shares, I Shares, MoneyBuilder Asset Allocator Shares, N Shares and Y Shares**

These Classes of Shares may be available as Income and/or Accumulation type Shares. The particular criteria for these Classes of Shares are summarised in the Table below.

### **Treatment of Charges and Expenses**

Where a Fund has more than one Class, each Class may attract different charges and expenses and so monies may be deducted from the Classes in unequal proportions. In these circumstances, the proportionate interests of the Classes within a Fund will be adjusted accordingly.

### **Register of Shareholders and Statements**

All Shares are in registered form. Certificates will not be issued in respect of Shares. Ownership of Shares will be evidenced by an entry in the Company's register of Shareholders. The Company has the power to issue bearer Shares but there are no present plans to do so.

At least once each year the ACD will send a statement to each person who holds Shares or has held Shares since the previous statement. Where Shares are jointly held, statements are sent to the first named Shareholder. The statement will describe current holding(s) of Shares at the date of the statement and any transactions in Shares since the date of the last statement. Individual statements will also be issued at any time on request by the registered Shareholder.

## **Share Classes and their Characteristics**

Indicative minimum investment levels and charges are set out in the Table below. These may vary as between Funds, therefore please refer to Appendix 1 more particularly for details in respect of each Fund and Share Class.

<b>Share Class</b>	<b>Eligible investors</b>	<b>Minimum investment and transaction levels</b>	<b>Charges</b>
A	Any investor (Closed to new investment through Fidelity platforms. Existing investors via this channel may continue to invest).	Initial investment: £1000 (£50 per month under regular savings plan) Subsequent investment: £250 (£50 per month under regular savings plan) Withdrawal: No restriction provided minimum holding remains Holding: £1000 (no minimum for regular savings plan)	Preliminary: Varies as between Funds Investment management: Varies as between Funds Service Charge: 0.05% per annum or as otherwise stated if any Registrar Charge: 0.10% per annum or as otherwise stated if any
I	Institutional investors.	Initial investment: £3,000,000 Subsequent investment: £100,000 Withdrawal: £100,000 Holding: £100,000	Preliminary: Varies as between Funds Investment management: Varies as between Funds Service Charge: Varies as between Funds Registrar Charge: Varies as between Funds
MoneyBuilder Asset Allocator	MoneyBuilder Asset Allocator Shares may only be held by direct investors who apply without using an intermediary.	Initial investment: £1000 (£50 per month under regular savings plan) Subsequent investment: £250 (£50 per month under regular savings plan) Withdrawal: No restriction provided minimum holding remains Holding: £1000 (no minimum for regular savings plan)	Preliminary: Varies as between Funds Investment management: Varies as between Funds Service Charge: 0.05% per annum or as otherwise stated if any Registrar Charge: 0.10% per annum or as otherwise stated if any

Share Class	Eligible investors	Minimum investment and transaction levels	Charges
N	<p>N Accumulation Shares may only be held by investors applying through FundsNetwork using an intermediary pre-approved by Fidelity.</p> <p>N Income Shares may be held by investors applying through all Fidelity platforms.</p>	<p>Initial investment: £1000 (£50 per month under regular savings plan)  Subsequent investment: £250 (£50 per month under regular savings plan)  Withdrawal: No restriction provided minimum holding remains  Holding: £1000 (no minimum for regular savings plan)</p>	<p>Preliminary: Varies as between Funds  Investment management: Varies as between Funds  Service Charge: 0.05% per annum or as otherwise stated if any  Registrar Charge: 0.10% per annum or as otherwise stated if any</p>
Y	Any investor.	<p>Initial investment: £1000 (£50 per month under regular savings plan)  Subsequent investment: £250 (£50 per month under regular savings plan)  Withdrawal: No restriction provided minimum holding remains  Holding: £1000 (no minimum for regular savings plan)</p>	<p>Preliminary: None  Investment management: Varies as between Funds  Service Charge: 0.05% per annum or as otherwise stated if any  Registrar Charge: 0.10% per annum or as otherwise stated if any</p>

## **BUYING, SELLING AND SWITCHING SHARES**

### **General**

The ACD will receive requests for the issue, redemption and switching of Shares between 9.00 a.m. and 5.00 p.m. on weekdays excluding UK public holidays. Requests received after 5.00 p.m. on the last business day preceding a Dealing Day will not be dealt on that Dealing Day but, once accepted, will be dealt on the following Dealing Day. Once a deal is accepted Shares will be dealt on a forward basis at the price determined at the next valuation of the scheme property for dealing purposes (on a Dealing Day). Dealing in Shares may generally be by post or by telephone. The ACD will, as specified below, from time to time allow dealings in Shares or communications with Shareholders to be made on-line or through other communication media.

### **Money Laundering Prevention**

Under legislation to prevent money laundering in the United Kingdom, persons conducting investment business are responsible for compliance with money laundering regulations. Investors may be asked to provide proof of identity when buying, redeeming or switching Shares, and, in certain circumstances, it may be necessary for the ACD to re-verify an investor's identity and obtain any missing or additional information for this purpose. Until satisfactory proof of identity is provided, the ACD reserves the right to refuse to issue Shares, to pay the proceeds of sale of Shares, or to switch Shares. The ACD will not be liable for any share price movements occurring during delays while money laundering checks are carried out.

### **Minimum Holdings**

The minimum initial subscription for Shares in any Class and any subsequent subscription are set out for the relevant Fund at Appendix 1. Generally, Shareholders must maintain a minimum holding of Shares for each Class in which they invest. If, following a redemption of Shares or at any time, a holding of Shares falls below the minimum holding, the ACD may require redemption of the entire holding.

The ACD may at its discretion accept subscriptions lower than the minimum.

### **Buying Shares**

Applications to purchase Shares may be made by post, telephone, fax or via the Internet as determined by the ACD from time to time. Application forms may be obtained from the ACD if required. The ACD may also at its discretion accept electronic instructions subject to appropriate arrangements which it specifies being in place.

Completed applications received on a dealing day before the valuation point (12.00 noon UK time) will normally be fulfilled that day at the next calculated net asset value.

Normally, cleared moneys must have been received for a subscription to be dealt. Subscription monies will only normally be accepted if by electronic transfer and, if received by the ACD between 9.00 a.m. and 5.00 p.m. on the last business day preceding the relevant Dealing Day. Where monies are not received as above the ACD may return them to the applicant at the applicant's risk.

The ACD has the right to reject an application for Shares in certain circumstances, either wholly or partially, and in such event the ACD will return any money sent (or the balance of such money) at the risk of the applicant.

Any money received by the ACD in respect of the purchase of Shares earlier than the day before the settlement date will be held in a client money bank account. Any money received later than this may be held in a client money bank account, but will otherwise be held in a corporate bank account in accordance with the delivery versus payment exemption as permitted by the FCA's client money rules.

Any subscription monies remaining after a whole number of Shares has been issued will be used to purchase fractions of whole Shares (known as smaller denomination Shares). A smaller denomination Share is equivalent to one-hundredth of a whole Share.

A contract note will be sent normally by the close of the Dealing Day on which the Shares are allocated and priced. This will show the number of Shares purchased and the price. If relevant, notice of the applicant's right to cancel will be sent separately (together with a renunciation form) within seven days of receipt of the application. Settlement is due on receipt of the contract note by the applicant. Shares are normally issued to an applicant only once settlement in cleared funds has been received.

## **Selling Shares**

A Shareholder is normally entitled to require that some or all of his Shares be redeemed on any Dealing Day. Any number of Shares may be redeemed, but a Shareholder may be required to redeem all of his Shares if, following a partial redemption, his holding is less than the minimum holding for the Fund concerned.

Requests to redeem Shares may be made to the ACD by telephone or in writing. Alternatively, forms of redemption are available on the Internet. Requests by telephone or via the Internet must be confirmed in writing. The ACD may also at its discretion accept electronic instructions subject to appropriate arrangements which it specifies being in place.

A contract note will be sent to the selling Shareholder (or to the first-named, in the case of joint Shareholders), giving details of the Shares sold and the price. Payments to satisfy the redemption request will normally be issued by the close of the third business day (but no later than close of the fourth business day) after the later of the day of the calculation of the price and receipt by the ACD of a properly completed and signed Renunciation Form in respect of the appropriate number of Shares, together with any other appropriate evidence of title as determined by the ACD. All redemption payments will be issued from a client money bank account. However, prior to issue, balances relating to redemption payments may be held by the ACD in a corporate bank account in accordance with the delivery versus payment exemption as permitted by the FCA's client money rules. All redemption proceeds that remain unpaid after the settlement date will be held in a client money bank account.

Once a request to redeem Shares has been made, it cannot subsequently be withdrawn.

## **Switching Shares**

A Shareholder may at any time switch all or some of his Shares of one Class ("Original Shares") for Shares of another Class within the same Fund or for Shares of any Class within a different Fund ("New Shares"). Switches into a Share Class may only be made providing any eligibility criteria for that Share Class are met. A switch involves the sale of the Original Shares and the purchase of the New Shares. The number of New Shares issued will be determined by reference to the respective prices of New Shares and Original Shares at the valuation point applicable when the Original Shares are redeemed and the New Shares are issued.

Instructions for switching Shares may be given by telephoning the ACD or in writing to the ACD, and the Shareholder may be required to complete a switching form (which, in the case of joint Shareholders, must be signed by all the joint holders). Switching forms may be obtained from the ACD and are also available on the Internet. The ACD may also at its discretion accept electronic instructions subject to appropriate arrangements which it specifies being in place.

The ACD may at its discretion make a charge on the switching of Shares. The charge will not exceed an amount equal to the then prevailing preliminary charge (if any) for the New Shares. The ACD may adjust the number of New Shares issued to reflect the imposition of any switching charge and any other charges or levies in respect of the issue or sale of the New Shares or the redemption or cancellation of the Original Shares as may be permitted pursuant to the COLL Sourcebook.

If a switch would result in the Shareholder's holding a number of Original Shares or New Shares of a value which is less than the minimum holding in the Fund concerned, the ACD may, if it thinks fit, convert the whole of the Shareholder's holding of Original Shares to New Shares or refuse to effect any switch of the Original Shares. No switch will be made during any period when the right of Shareholders to require the redemption of their Shares is suspended. The general provisions on procedures relating to redemption will apply equally to a switch.

The ACD may at its discretion convert a Share to another Class of Shares provided this does not cause material prejudice to affected Shareholders.

Shareholders subject to UK tax should note that a switch of Shares between Funds (but not between Classes of Shares within a Fund) is treated as a disposal for the purposes of capital gains taxation.

A Shareholder who switches Shares of one Class for Shares of any other Class will not be given a right by law to withdraw from or cancel the transaction.

Further information relating to dealing in the Funds is provided in Appendix 4.

## **SHARE PRICES**

### **Pricing Basis**

The Company deals on a forward pricing basis. A forward price is the price calculated at the next valuation of the Scheme Property after the purchase, redemption or switch of Shares is agreed.

Shares are priced on a single, mid-market basis in accordance with the COLL Sourcebook.

### **Calculation of Prices**

The price of a Share is calculated by reference to the Net Asset Value of the Fund (or Class) to which it relates. In summary, this is done by valuing the property of the Fund and dividing that value (or the part attributed to Shares of the relevant Class) by the number of Shares of the relevant Class in issue. The basis of the calculation of the Net Asset Value is summarised in Appendix 4 – “Calculation of Net Asset Value”. The Net Asset Value of each Fund is normally calculated at 12.00 noon UK time on each business day for that Fund. The ACD may at any time during a Dealing Day carry out an additional valuation if the ACD considers it desirable to do so.

Investors should bear in mind that, on purchase, the ACD’s preliminary charge is added to the price of a Share and that any applicable redemption charge will be deducted from the price of a Share on sale. In addition, for both purchases and sales by investors, there may be a dilution levy as described below.

### **Publication of Prices**

The most recent Share prices currently appear daily in the *Financial Times* and may also be published in one or more newspapers. In addition Share prices are made available online at [www.fidelity.co.uk](http://www.fidelity.co.uk). For reasons beyond the control of the ACD, a published price may not be the current price. Share prices for Y class Shares are only available from Fidelity on 0800 700 000 or on the relevant Fidelity wealth manager web site.

### **Dilution Levy and Large Deals**

In certain circumstances, the value of the property of a Fund may be reduced as a result of costs incurred in dealings in the Fund’s investments, including stamp duty, or through dealing in those investments at prices other than the mid-market price. In order to prevent this effect, known as “dilution”, and the consequent potential adverse effect on remaining Shareholders, the ACD has the power to charge a “dilution levy” when Shares are bought or sold. Any dilution levy must be fair to all Shareholders and potential Shareholders.

The ACD will not impose a dilution levy in respect of any deal (or series of deals placed on the same day) involving shares with a value below £500,000.

However, the ACD reserves the right to impose a dilution levy:

- (a) in respect of a “large deal” (i.e., a deal (or series of deals placed on the same day) in respect of Shares exceeding £500,000 in value) involving the redemption or switching of Shares within 30 days of their purchase; or
- (b) in respect of any other large deal (as above) where the ACD is of the opinion that the interests of the Shareholders require the imposition of a dilution levy.

It is not possible to predict accurately whether dilution would occur at any point in time. If a proposed transaction falls or potentially falls within one of the above categories, the investor should enquire as to whether a dilution levy will apply in respect of that transaction before giving instructions to the ACD. In deciding whether to impose a dilution levy, the ACD may consider a number of factors including the size of the transaction relative to the overall value of the Fund, the level of transaction costs within that particular market, the liquidity of the underlying investments within the Fund, the amount of investments to be bought/sold and the likely time that this will take, the likelihood of an adverse impact on the value of investments as a result of the accelerated rate of disposal, and the length of time for which the Shares in question were held.

Based on future projections and on its experience of managing the Funds, the ACD is unlikely to impose a dilution levy unless it considers that the dealing costs relating to a Shareholder transaction are significant and will have a material impact on the value of the Fund in question. On a large redemption, the ACD may require the redeeming Shareholder to accept an in specie redemption (see Appendix 4 – “In Specie Redemptions”) instead of imposing a dilution levy.

Based on future projections, the levy (if imposed) will be up to 0.80% of the purchase cost or the redemption or switch proceeds. Any dilution levy would be paid to the Company and would become part of the property of the relevant Fund.

The ACD believes that its dilution policy described above will not materially affect the future growth of the Funds.

## **CHARGES AND EXPENSES**

### **ACD's Charges**

#### **Preliminary Charge**

The ACD may make a preliminary charge on a sale of Shares based on the amount subscribed. Details of the current preliminary charge (if any) for Shares of each Fund are set out in Appendix 1. The maximum preliminary charge permitted in every case is 7% of the amount subscribed. The preliminary charge is payable to the ACD. A Fund may invest in other collective investment schemes managed by the ACD or an associate of the ACD. In relation to such investments in Fidelity funds, no duplication of preliminary charges will arise in respect of investment through the Company.

A Fund may invest in other collective investment schemes managed by Independent Fund Managers. In relation to investments in such Underlying Funds, the ACD will seek to negotiate that no preliminary charges will be applied in respect of investment through the Company.

#### **Redemption Charge**

The ACD currently makes no charge on a cancellation or redemption of Shares.

#### **Switch Charge**

See Buying, Selling and Switching Shares - "Switching Shares", above, which provides that the ACD may at its discretion make a charge for switching shares from time to time whether for a switch to Shares of another Class within the same Fund or for Shares of any Class within a different Fund.

#### **Annual Charges**

In payment for carrying out its duties and responsibilities, the ACD is entitled to make certain annual charges out of each Fund as described below. The current rates for each Fund are set out in the details of the Funds in Appendix 1.

- Investment management charge
- Service charge  
The ACD makes a charge for providing all necessary administration and fund accounting services to the Company.
- Registrar charge  
The ACD makes a charge for its services as registrar and transfer agent.

Each of these Annual Charges accrues daily and is payable monthly. The daily calculation is based on the Net Asset Value of the relevant Fund at 12 noon UK time on the previous business day.

#### **Underlying Fund Charges**

As each Fund may invest in other collective investment schemes, various other charges and expenses may be incurred indirectly by the Funds at the level of the Underlying Funds.

Where any Fund invests in other collective investment schemes managed by Independent Fund Managers, the ACD will seek to negotiate a high level of rebate of the Underlying Funds' management charges, so as to minimise the effect of charging at both the Fund and Underlying Fund levels.

Where any Fund invests in other collective investment schemes managed by the ACD or an associate of the ACD, to mitigate a double management charge in respect of the same portfolio, up to the full amounts of the charges which the ACD and/or any associated company of the ACD receives for managing the investments of the relevant Underlying Funds will be credited to the Fund, to the extent that such charges are attributable to investment in the Underlying Funds by the Fund.

In relation to investments in Underlying Funds, the ACD will seek to negotiate that no preliminary charges will be applied in respect of investment through the Company.

#### **Redemption Charge**

The ACD currently makes no charge on a cancellation or redemption of Shares.

## **Treatment of Charges**

Fidelity Multi Asset Open Strategic Fund (Income Share classes), Fidelity Multi Asset Income Fund (Income Share classes), Fidelity Multi Asset Balanced Income Fund (Income Share classes) and Fidelity Multi Asset Income & Growth Fund (Income Share classes) only: in accordance with the COLL Sourcebook, the ACD and the Depositary have agreed that the ACD's annual charges may be treated as capital charges, which will enhance income returns but may constrain capital growth.

### **Depositary's Charges**

The Depositary's remuneration, which is payable out of the assets of each Fund, is a periodic charge at such annual percentage of the value of the property of each Fund as is set out below, with the property of each Fund being valued and such remuneration accruing and being paid on the same basis as the ACD's annual charges. Currently, the ACD and the Depositary have agreed that the Depositary's remuneration in respect of each Fund shall be calculated on a sliding scale as follows:

<b>Band Range</b>	<b>Fee</b>
On the first £250 million	0.01% per annum
On the next £750 million	0.005% per annum
On the remainder	0.001% per annum

The Depositary is also entitled to receive out of the property of each Fund, remuneration for such services in performing or arranging for the performance of the functions conferred on the Depositary by the Instrument of Incorporation or the COLL Sourcebook. Currently the Depositary does not receive any remuneration or service charges under this paragraph. The introduction of or increase in any such charge is subject to obtaining the requisite consent from Shareholders. Any such charges shall be on terms no less favourable than would be applicable to a comparable customer of the Depositary. Service charges shall accrue when the relevant transaction or other dealing is effected and shall be paid in arrears on the next following date on which payment of the Depositary's periodic charge is to be made or as soon as practicable thereafter.

The Depositary's remuneration may not exceed 0.50% per annum of the Net Asset Value of the Fund.

### **Custodian Charges**

The Depositary has appointed J.P. Morgan Chase Bank (London Branch) as the Custodian of the property of each Fund and is entitled to receive reimbursement of the Custodian's fees as an expense of the Fund. J.P. Morgan Chase Bank's remuneration for acting as Custodian is calculated at an *ad valorem* rate determined by the territory or country in which the assets of the Fund are held. Currently, the lowest rate is 0.005% and the highest rate is 0.35%. In addition, the Custodian is permitted to make a transaction charge determined by the territory or country in which the transaction is effected. Currently, these transaction charges range from US\$1 to US\$100 per transaction.

The Depositary is also entitled to be reimbursed out of the property of each Fund in respect of remuneration charged by the Custodian for such services, being services delegated to the Custodian by the Depositary in performing or arranging for the performance of the functions conferred on the Depositary by the Instrument of Incorporation or the COLL Sourcebook. Currently the Depositary does not receive any remuneration or service charges under this paragraph. The introduction of or increase in any such charge is subject to obtaining the requisite consent from Shareholders. Any such charges shall be on terms no less favourable than would be applicable to a comparable customer of the Custodian. Service charges shall accrue when the relevant transaction or other dealing is effected and shall be paid in arrears.

The Custodian's *ad valorem* remuneration may not exceed 1% per annum of the Net Asset Value of the Fund, and its transaction charges may not exceed US\$750 per transaction.

### **Expenses**

In addition to the above charges, the Company may pay out of the assets of the Funds or if attributable to a particular Fund, out of the assets of a particular Fund as appropriate the following expenses:

#### **ACD Expenses**

All reasonable and properly evidenced out of pocket expenses incurred by the ACD as the authorised corporate director of the Company;

## Depository Expenses

Expenses properly incurred by the Depository in the discharge of its duties or exercising any of the powers conferred upon it in relation to the Company and each Fund, including all charges imposed by and any expenses of any agents appointed by the Depository to assist in the discharge of its duties, subject to approval by the ACD;

## Other Expenses

- (a) stamp duty, other taxes, brokerage or other expenses incurred in acquiring and disposing of investments;
- (b) interest on borrowings and charges incurred in negotiating borrowings;
- (c) expenses associated with administration of the Company and its Funds, including calculation of Net Asset Values and the pricing of Shares;
- (d) fees in respect of the publication and circulation of details of the Net Asset Value and Share prices;
- (e) expenses incurred in relation to servicing any fund supermarket or investment links to multi-manager products or any other platform on or through which Shares are available;
- (f) brokers' bond and errors and omissions insurance, sub-fund guarantee protection insurance;
- (g) taxation and duties payable by the Company;
- (h) expenses incurred in collecting and distributing income to Shareholders and related notifications;
- (i) expenses in respect of establishing and maintaining the register of Shareholders (and any sub-register) and related functions;
- (j) costs of printing and distributing reports, accounts and communications to Shareholders (including notices of general meetings), and costs incurred as a result of periodic updates of this Prospectus (and key features) or amendment of the Instrument of Incorporation of the Company and any other administrative expenses;
- (k) costs of convening and holding Shareholder meetings (including Class meetings);
- (l) expenses incurred in connection with company secretarial duties, including the cost of minute books and other documentation required to be maintained by the Company;
- (m) fees and expenses of the auditors and of tax, legal and other professional advisers of the Company;
- (n) costs incurred as a result of an update of this Prospectus or amendment to the Instrument of Incorporation of the Company and any other related expenses;
- (o) any payments otherwise due by virtue of the COLL Sourcebook and other rules of the FCA;
- (p) any amount payable by the Company under any indemnity provisions contained in the Instrument of Incorporation of the Company or any agreement with a functionary of the Company;
- (q) fees of the FCA under the Financial Services and Markets Act 2000 and the corresponding periodic fees of any regulatory authority in a country or territory outside the United Kingdom in which Shares are or may be marketed, and any related costs incurred in relation to obtaining and/or maintaining a regulatory status in a country or territory outside the United Kingdom;
- (r) such other expenses as the ACD resolves are properly payable out of the Scheme Property and as may be permitted to be paid out of the Scheme Property under, or alternatively are not prohibited from being paid out of the Scheme Property by, the COLL Sourcebook as amended from time to time.

The ACD shall also be permitted to charge or recover such fees, costs and/or expenditure as it so determines shall be so charged or recovered in respect of the costs and expenses of the authorization and incorporation of the Company, an offer of Shares, the preparation and printing of this Prospectus and the fees of the professional advisers to the Company in connection with any offer of Shares as borne by the ACD or other companies in its group, provided that such charge or recovery is not prohibited by the COLL Sourcebook or other provisions of the FCA Handbook from time to time.

Subject to current HM Customs & Excise regulations, Value Added Tax at the prevailing rate may be payable in addition to the Depository's remuneration, the Custodian's remuneration and the above expenses.

It is not currently proposed to seek a listing for the Shares on any stock exchange, but if a listing is sought in the future the fees connected with the listing will be payable by the Company.

Expenses are allocated between capital and income in accordance with the Instrument of Incorporation of the Company and the COLL Sourcebook.

### **Foreign Exchange Transactions**

Foreign exchange transactions for the Company are carried out through associates or affiliates of FIL Limited (an associated company of the ACD) as agent and at rates approved by the ACD.

To avail of economies of scale and efficiencies with the aim of lowering costs for the benefit of the Company and other Fidelity clients, these foreign exchange transactions may be aggregated with foreign exchange transactions to be effected on behalf of other collective investment schemes and individual client investment portfolios managed by Fidelity.

### **Allocation of Charges and Expenses between Funds**

All charges and expenses which are directly attributable to a particular Fund (or Class within a Fund) will be charged to that Fund (or Class). Otherwise, if there is more than one Class within a Fund, charges and expenses which are directly attributable to the Fund (but not to a particular Class) will normally be allocated between the Classes within the Fund *pro rata* to the Net Asset Value of the Fund attributable to each Class.

Any charges and expenses not attributable to any one Fund will normally be allocated by the ACD to all Funds (and their Classes) *pro rata* to the Net Asset Values of the Funds (and their Classes), although the ACD has a discretion to allocate such charges and expenses in a different manner which it considers fair to Shareholders generally.

### **Ongoing Charges Figure (“OCF”)**

The OCF for each Fund from time to time is set out in the most recent Key Investor Information Document (“KIID”) applicable to each Fund. The OCF is made up of the amounts paid to the ACD and the Depositary for providing services to a Fund. It also includes expenses that must be included in the OCF calculation (such as audit, legal and regulatory fees). The OCF calculation excludes costs incurred by a Fund in connection with transactions on its portfolio of assets (for example: brokerage fees, taxes and linked charges), and any performance fees, entry and exit fees, if applicable, interest on borrowings, and payments incurred because of financial instruments. The figure is expressed as a percentage of the Net Asset Value of a Fund.

## **INCOME**

### **Accounting Periods**

The annual accounting period of the Company ends each year on 31 October (the accounting reference date). The half-yearly accounting period ends each year on 30 April. In addition, Funds with income shares in issue may have interim accounting periods within each annual accounting period (see Appendix 1).

### **Income Allocations**

Allocations of income are made in respect of the income available for allocation in each annual accounting period.

Distributions of income for each Fund are paid on or before the annual income allocation date of 31 December. In the case of certain Funds with income Shares in issue, interim distributions will be paid on or before the interim income allocation dates set out in Appendix 1. If a holder of Income Shares instructs the ACD that he wishes to receive the income, this is normally paid by direct credit to the Shareholder's bank or building society but may, if the ACD so agrees, be paid by another common banking method. Income allocations to Accumulation Shares will be automatically added to (and retained as part of) the capital assets of the relevant Fund.

The amount available for allocation in an accounting period is calculated by:

- (a) taking the aggregate of the income received or receivable for the account of the relevant Fund for that period;
- (b) deducting the charges and expenses of the Fund paid or payable out of income for that accounting period; and
- (c) making such adjustments as the ACD considers appropriate (and after consulting the auditors as appropriate) in relation to tax and certain other issues.

Where a Fund has more than one Class in issue, allocations of income are made in accordance with the proportionate interests of the Classes within the Fund.

Where the income amount calculated to be distributed is less than £250 per unit class per accounting period, the ACD reserves the right to withhold the income and to carry it forward to the next accounting period.

If a distribution remains unclaimed for a period of six years after it has become due, it will be forfeited and will revert to the Company.

### **Income Equalisation**

The purchase price of a Share reflects the entitlement to share in the accrued income of the relevant Fund since the previous income allocation. This capital sum, known as income equalisation, is returned to a Shareholder with the first allocation of income in respect of a Share issued during an accounting period.

The amount of income equalisation is calculated by dividing the aggregate of the amounts of income included in the price of Shares of the relevant Class issued in an annual or interim accounting period by the number of those Shares and applying the resultant average to each of the Shares in question.

## **UK TAXATION**

The information given below does not constitute legal or tax advice, and prospective investors should consult their own professional advisers as to the implications of their subscribing for, purchasing, holding, switching or disposing of Shares under the laws of any jurisdiction in which they may be subject to tax.

### **Taxation of the Company and the Funds**

The Company is an umbrella scheme. The effect of the Company being an umbrella scheme is that each Fund is treated as a separate open-ended investment company (OEIC) within the meaning of section 613 – 615 of the Corporation Tax Act 2010 and is therefore treated for the purposes of United Kingdom taxation of income as a company resident in the United Kingdom. A Fund does not suffer any liability to United Kingdom taxation in respect of any capital gains accruing to it on the disposal of its investments. A Fund is however, liable to United Kingdom corporation tax at the current rate of 20% on the excess of its taxable income for any accounting period over its deductible expenses of management and interest costs for that period. Any distributions paid by any Fund to its Shareholders will not be treated as deductible expenses in computing the Fund's taxable income, except in the case of interest distributions.

The taxable income of each Fund does not include any dividends or other qualifying distributions received by that Fund from United Kingdom resident companies nor does it normally include foreign dividends unless the fund has elected to treat the latter as taxable. The tax treatment of any distributions received by a Fund from any Underlying Funds which are authorised unit trusts or OEICs will follow the same principles as apply to distributions paid by that Fund to a Shareholder that is within the charge to UK corporation tax, as explained below. Any other income derived by a Fund from foreign sources will be included in its taxable income, but, in computing its liability to corporation tax on any such income, credit may be available for any foreign withholding taxes that the income has borne.

Any corporation tax payable by any Fund will be assessed by reference to the Fund's accounting periods.

### **Taxation of Distributions from the Funds**

Each Fund will be treated, for tax purposes, as distributing to its Shareholders (in one of the ways specified below) the whole of the income shown in its accounts for each of its distribution periods as being available for distribution to Shareholders. The making of a distribution, for this purpose, includes both paying an amount in respect of a holding of income Shares to the Shareholder concerned and also investing an amount within the Fund in respect of a holding of accumulation Shares on behalf of the Shareholder concerned. Any reference in this section to a "distribution" should be construed accordingly. Each Fund's "distribution periods" will correspond to its accounting periods.

The distribution accounts of each Fund for any of its distribution periods may show the Fund's income as being available for distribution as either a dividend or interest distribution; the type selected depends on the source and composition of the income of the Fund for the distribution period in question (as explained further below).

Broadly speaking, any Fund which invests primarily in interest paying investments (including indirectly through other authorised unit trusts and OEICs) may make interest distributions. Other Funds may only make dividend distributions.

### **Dividend Distributions**

Any dividend distribution made by a Fund will be treated as if it were a UK dividend paid to the Shareholders in that Fund. No deduction by way of withholding tax is required to be made from any dividend distribution.

For distributions paid from 6 April 2016 a Shareholder in a Fund who is an individual and is resident in the United Kingdom for taxation purposes will be entitled to a dividend allowance of £5,000, where the dividend allowance is not exceeded no further UK tax is payable. Where the dividend allowance is exceeded individual Shareholders who pay income tax will be liable to tax based on their marginal rate of tax with the specific tax rates applicable to dividend income being 7.5% (basic rate), 32.5% (higher rate) or 38.1% (additional rate) tax on the amount that exceeds the dividend allowance.

Shareholders within the charge to UK corporation tax will receive dividend distributions "streamed" into franked and unfranked components depending on the underlying income of the Fund. The franked stream is treated as franked investment income in the hands of the corporate shareholder. The unfranked stream is treated as an annual payment received after deduction of tax at the lower rate. This tax is repayable only to the extent of the Shareholder's proportion of the Fund's net UK corporation tax liability although all of it is available for offset against the Shareholder's

UK corporation tax liabilities. Both the proportions of a dividend distribution that are to be treated as franked and unfranked investment income and the Shareholder's proportion of the Fund's net UK corporation tax liability will be shown on tax vouchers accompanying dividend distributions.

### **Interest Distributions**

A Fund which, by way of example, invests exclusively in UK authorised unit trusts or OEICs with more than 60% of their investments invested throughout an accounting period in, broadly speaking, interest paying investments, derivative contracts whose underlying subject matter is such investments or certain contracts for differences may make interest distributions. Distributions paid prior to 6 April 2017 were generally paid after deduction of income tax at the lower rate of 20%. Any distribution paid on or after 6 April 2017 will be paid without any tax deductions.

For distributions paid from 6 April 2016 a Shareholder in a Fund who is an individual and is resident in the United Kingdom for taxation purposes will be entitled to a personal savings allowance of £1,000 (basic rate) £500 (higher rate) and £0 (upper rate). From 6 April 2017 where the distribution exceeds this allowance Shareholders liable to income tax will be liable to pay income tax based on their marginal rate of tax with the specific tax rates applicable to savings income being 20% (basic rate), 40% (higher rate) or 45% (additional rate) tax on the amount that exceeds the personal savings allowance.

Details of interest distributions paid to individuals, (other than ISA investors and Child Trust Fund investors), with addresses in the UK and other specified countries must be reported to HM Revenue & Customs by the ACD along with the names and addresses of those individuals.

The attention of Shareholders within the charge to UK corporation tax is drawn to the provisions of Section 490 of Corporation Tax Act 2009. Under these provisions, holdings in a Fund which, by way of example, invests exclusively in unit trust schemes or OEICs where each such scheme or OEIC at any time during an accounting period holds more than 60% of its investments in interest paying investments, derivative contracts whose underlying subject matter is such investments or certain contracts for differences will be taxed as creditor relationships of the Shareholder. That creditor relationship can only be taxed on a mark to market basis of accounting. This means that the Shareholder within the charge to corporation tax can be charged to tax on unrealised profits in each accounting period.

### **Capital Gains**

Shareholders who are resident or, if applicable, ordinarily resident in the UK for tax purposes who are not within the charge to UK corporation tax may be subject to capital gains tax in respect of gains arising from the sale or other disposal of Shares, where their annual gains exceed their allowance. For disposals from 6 April 2016 at the rate of 10% (basic rate tax payers) or 20% (higher or additional rate tax payers).

Shareholders within the charge to UK corporation tax will be subject to corporation tax in respect of gains arising from the sale or other disposal of Shares.

When the first income allocation is made to Shares purchased during an accounting period, the amount representing the income equalisation in the price of the Shares is a return of capital and is not taxable as income in the hands of shareholders. This amount should be deducted from the cost of Shares in computing any capital gains realised on a subsequent disposal.

No deduction by way of withholding tax is required to be made from any payment made by a Fund to a Shareholder upon the redemption of his Shares.

### **US Foreign Account Tax Compliance Act ("FATCA")**

The Hiring Incentives to Restore Employment Act (the "Hire Act") was signed into US law in March 2010. It includes provisions generally known as Foreign Account Tax Compliance ("FATCA"). The objective of FATCA provisions is to require non-US Financial Institutions to identify and appropriately report on US taxpayers holding assets outside the US as a safeguard against US tax evasion.

On 12 September 2013 the UK signed an agreement ("IGA") with the US to implement the Foreign Account Tax Compliance Act ("FATCA") for all UK based Financial Institutions. The IGA as transposed into UK law requires UK Financial Institutions, to report to Her Majesty's Revenue and Customs ("HMRC") the details of US taxpayers holding assets with those Financial Institutions so the UK can exchange this information with the US on an automatic basis. The IGA is effective from 1 July 2014 and includes the Company as a UK Financial Institution, and requires the Company to obtain mandatory evidence as to whether they are or are not any new Shareholder from that date is a US person within the meaning of IGA, or in the case of non-individuals what their FATCA classification is. The Company is also required to identify any existing Shareholder as a US Person or in the case of

non-individuals what their FATCA classification is, within the meaning of the IGA based on the records the Company holds.

Further under UK law implementing the IGA the Company is required to disclose such information as maybe required under the IGA to HMRC on any Shareholder who is considered to have become a US person, or non-participating financial institution, within the meaning of the IGA. Shareholders should consult their own tax advisers regarding any potential obligations that the IGA, or the wider US FATCA regulations, may impose on them.

Under the terms of the IGA the Company as a UK Financial Institution is not subject to any additional US taxes, unless it is considered to be in material non-compliance with UK law. In addition as the Company does not pay US source income to Shareholders the Company is not required to withhold any US taxes from distribution or redemption payments unless the UK agrees before 31 December 2016 with the US that such withholding should be applied.

### **UK International Tax Compliance Agreements (“ITC”)**

In addition to the agreement signed by the UK with the US to implement the Foreign Account Tax Compliance Act (“FATCA”), the UK has now signed additional agreements (“IGAs”) with a number of other jurisdictions. Details of the jurisdictions and agreements can be found at <https://www.gov.uk/hmrc-internal-manuals/international-exchange-of-information/ieim402340>

These additional IGAs, as transposed into UK law, require UK Financial Institutions, to report to HMRC the details of relevant taxpayers holding assets with those Financial Institutions so the UK can exchange this information with the relevant jurisdiction on an automatic basis. The IGAs are effective on, or after, 1 July 2014 and includes the Company as a UK Financial Institution, and requires the Company to obtain mandatory evidence as to whether the tax residency(s) of any individual, or in the case of non-individuals what their ITC classification is. The Company is also required to identify any existing shareholder as a relevant taxpayer or in the case of non-individuals what their ITC classification is, within the meaning of the IGAs based on the records the Company holds.

Further under UK law implementing the IGAs the Company is required to disclose such information as maybe required under the IGAs to HMRC on any Shareholder who is considered to have become a relevant taxpayer, within the meaning of the IGA. Investors should consult their own tax advisers regarding any potential obligations that the IGAs may impose on them.

**These statements are based on UK law and HM Revenue & Customs practice as known at the date of this document. Shareholders are recommended to consult their professional advisers if they are in any doubt about their tax position.**

## **APPENDIX 1: THE FUNDS**

This Appendix sets out full details of each of the Funds:

### **Multi Asset Funds:**

Fidelity Multi Asset Allocator Defensive Fund  
Fidelity Multi Asset Allocator Strategic Fund (*formerly Fidelity Multi Asset Allocator Balanced Fund*)  
Fidelity Multi Asset Allocator Growth Fund  
Fidelity Multi Asset Allocator Adventurous Fund  
Fidelity Allocator World Fund  
Fidelity Multi Asset Defensive Fund  
Fidelity Multi Asset Strategic Fund  
Fidelity Multi Asset Growth Fund  
Fidelity Multi Asset Adventurous Fund  
Fidelity WealthBuilder Fund  
Fidelity Multi Asset Open Defensive Fund  
Fidelity Multi Asset Open Strategic Fund (*formerly Fidelity MultiManager Balanced Fund*)  
Fidelity Multi Asset Open Growth Fund (*formerly Fidelity MultiManager Growth Portfolio*)  
Fidelity Multi Asset Open Adventurous Fund  
Fidelity Open World Fund  
Fidelity Multi Asset Income Fund (*formerly Fidelity Retirement Income Fund*)  
Fidelity Multi Asset Balanced Income Fund  
Fidelity Multi Asset Income & Growth Fund

### **Fidelity Multi Asset Income & Growth Fund Target Funds:**

Fidelity Target 2020 Fund (*formerly Fidelity WealthBuilder Target 2020 Fund*)  
Fidelity Target 2025 Fund (*formerly Fidelity Retirement 2025 Fund*)  
Fidelity Target 2030 Fund (*formerly Fidelity Retirement 2030 Fund*)

### **Undiscovered Talent Fund:**

Fidelity Undiscovered Talent Fund

## **Fidelity Multi Asset Allocator Defensive Fund**

### **Investment Objective and Policy**

The Fund aims to provide long term capital growth with a focus on capital preservation through global exposure to lower risk assets.

The Fund will mainly invest into index tracking funds (which may include funds managed by Fidelity) with the aim of pursuing a lower cost investment approach. The Fund can also invest directly into transferable securities, other collective investment schemes, money market instruments, cash and deposits, and is also able to use derivatives for efficient portfolio management and investment purposes.

Asset allocation exposure of the Fund will be actively managed and is typically allocated as follows: 75% lower risk assets (such as debt instruments e.g. bonds and cash) and 25% higher risk assets (including equities, commodities & property securities). The Fund's asset allocation between lower and higher risk assets can be tactically adjusted as follows in order to preserve capital or take advantage of market opportunities: 65-100% lower risk assets and 0-35% higher risk assets.

Class of Shares	A Accumulation Shares Gross paying A Accumulation Shares N Accumulation Shares Gross paying N Accumulation Shares Y Accumulation Shares Gross paying Y Accumulation Shares
Currency of Denomination	Pounds Sterling
Minimum Initial Investment	£1,000 (or £50 per month under regular savings plan)
Minimum Subsequent Investment	£250
Minimum Withdrawal	None, provided minimum holding remains
Minimum Holding	£1,000 (except for regular savings plans – no minimum holding)
ACD's Preliminary Charge	None*
Investment Management Charge	1.20% per annum – A Accumulation Shares 0.25% per annum – N Accumulation Shares 0.28% per annum – Y Accumulation Shares
ACD's Service Charge	None
ACD's Registrar Charge	None
Annual Accounting Date	31 October
Half-yearly Accounting Date	30 April
Annual Income Allocation Date	31 December
Interim Income Allocation Date	None
Grouping Periods for Income Equalisation	Annual accounting periods
Annual Report published by	Last day of February
Interim Report published by	30 June

**Performance of the Fund**

Annual total return (full calendar years) 2012 to 2016

Average annual return to 31.12.16 (3Y, 5Y)

**Notes**

1. Past performance information is not available before 2012.
2. Basis of calculation: NAV to NAV with income reinvested to 31 December 2016, net of tax and annual charges but excluding any preliminary charges. More recent past performance information is available from the ACD on request.
3. Potential investors are warned that past performance should not be seen as an indication of future performance and cannot in any way provide a guarantee of future returns. The value of investments and income from them can go down as well as up, and investors may not get back the original amount invested.
4. In accordance with the AIFM Directive, the maximum level of leverage to be used on this Fund is 200% under the Commitment method and 300% under the Gross method.
5. The ACD expects that the Ongoing Charges Figure (“OCF”) of each class of the Fund will normally equal the annual rate of the management charge. This is because the expenses that form the basis of the OCF<sup>1</sup> calculation, including, audit, depositary, legal and regulatory fees, will be paid by Fidelity out of the management charge.  
<sup>1</sup>The OCF does not include costs incurred by a fund in connection with transactions on its portfolio (for example: brokerage fees, taxes and linked charges), interest on borrowings, and payments incurred because of financial instruments.
6. \*Certain historic savings plan arrangements may still levy an ACD’s preliminary charge depending on the terms applicable to those arrangements.
7. “Typically”, in the context of this Fund, means over a typical market cycle of 5-7 years.

## **Fidelity Multi Asset Allocator Strategic Fund**

*(formerly Fidelity Multi Asset Allocator Balanced Fund)*

### **Investment Objective and Policy**

The Fund aims to provide long term capital growth through a balanced portfolio providing global exposure to both lower and higher risk assets.

The Fund will primarily invest into index tracking funds (which may include funds managed by Fidelity) with the aim of pursuing a lower cost investment approach. The Fund can also invest directly into transferable securities, other collective investment schemes, money market instruments, cash and deposits, and is also able to use derivatives for efficient portfolio management and investment purposes.

Asset allocation exposure of the Fund will be actively managed and is typically allocated as follows: 50% lower risk assets (such as debt instruments e.g. bonds and cash) and 50% higher risk assets (including equities, commodities & property securities). The Fund's asset allocation between lower and higher risk assets can be tactically adjusted as follows in order to preserve capital or take advantage of market opportunities: 30-70% lower risk assets and 30-70% higher risk assets.

Class of Shares	A Accumulation Shares N Accumulation Shares Y Accumulation Shares MoneyBuilder Asset Allocator Accumulation Shares
Currency of Denomination	Pounds Sterling

This is because the expenses that form the basis of the OCF1 calculation, including, audit, depositary, legal and regulatory fees, will be paid by Fidelity out of the management charge.  
<sup>1</sup>The OCF does not include costs incurred by a fund in connection with transactions on its portfolio (for example: brokerage fees, taxes and linked charges), interest on borrowings, and payments incurred because of financial instruments.
6. \*Certain historic savings plan arrangements may still levy an ACD’s preliminary charge depending on the terms applicable to those arrangements.
7. “Typically”, in the context of this Fund, means over a typical market cycle of 5-7 years.

## **Fidelity Multi Asset Allocator Adventurous Fund**

### **Investment Objective and Policy**

The Fund aims to provide long term capital growth through global exposure to higher risk assets.

The Fund will primarily invest into index tracking funds (which may include funds managed by Fidelity) with the aim of pursuing a lower cost investment approach. The Fund can also invest directly into transferable securities, other collective investment schemes, money market instruments, cash and deposits, and is also able to use derivatives for efficient portfolio management and investment purposes.

Asset allocation exposure of the Fund will be actively managed and is typically allocated as follows: 100% higher risk assets (including equities, commodities & property securities) and 0% lower risk assets (such as debt instruments e.g. bonds and cash). The Fund's asset allocation between higher and lower risk assets can be tactically adjusted as follows in order to preserve capital or take advantage of market opportunities; 80-100% higher risk assets and 0-20% lower risk assets.

Class of Shares	A Accumulation Shares N Accumulation Shares Y Accumulation Shares

**Performance of the Fund**

Annual total return (full calendar years) 2014 to 2016

Average annual return to 31.12.16 (3Y)

**Notes**

1. Past performance information is not available before 2014.
2. Basis of calculation: NAV to NAV with income reinvested to 31 December 2016, net of tax and annual charges but excluding any preliminary charges. More recent past performance information is available from the ACD on request.
3. Potential investors are warned that past performance should not be seen as an indication of future performance and cannot in any way provide a guarantee of future returns. The value of investments and income from them can go down as well as up, and investors may not get back the original amount invested.
4. In accordance with the AIFM Directive, the maximum level of leverage to be used on this Fund is 200% under the Commitment method and 300% under the Gross method.
5. The ACD expects that the Ongoing Charges Figure (“OCF”) of each class of the Fund will normally equal the annual rate of the management charge. This is because the expenses that form the basis of the OCF1 calculation, including, audit, depositary, legal and regulatory fees, will be paid by Fidelity out of the management charge.

<sup>1</sup>The OCF does not include costs incurred by a fund in connection with transactions on its portfolio (for example: brokerage fees, taxes and linked charges), interest on borrowings, and payments incurred because of financial instruments.

## **Fidelity Multi Asset Defensive Fund**

### **Investment Objective and Policy**

The Fund aims to provide long term growth through global exposure to lower risk assets together with some exposure to higher risk assets.

The Fund will primarily invest in funds (including funds managed by Fidelity). The Fund may also invest directly into transferable securities, other collective investment schemes, money market instruments, cash and deposits and is also able to use derivatives for efficient portfolio management and investment purposes.

Asset allocation exposure of the Fund will be actively managed and typical allocation will be as follows: 75% lower risk assets (such as debt instruments e.g. bonds and cash) and 25% higher risk assets (including equities, commodities and property securities). However, the Fund's allocation between lower risk and higher risk assets can be tactically adjusted within the following ranges in order to preserve capital or take advantage of market opportunities: 65-100% lower risk assets and 0-35% higher risk assets.

Class of Shares	A Accumulation Shares Gross paying A Accumulation Shares N Accumulation Shares Gross paying N Accumulation Shares Y Accumulation Shares Gross paying Y Accumulation Shares

**Performance of the Fund**

Annual total return (full calendar years) 2010 to 2016

Average annual return to 31.12.16 (3Y, 5Y)

**Notes**

1. Past performance information is not available before 2010.
2. Basis of calculation: NAV to NAV with income reinvested to 31 December 2016, net of tax and annual charges but excluding any preliminary charges. More recent past performance information is available from the ACD on request.
3. Potential investors are warned that past performance should not be seen as an indication of future performance and cannot in any way provide a guarantee of future returns. The value of investments and income from them can go down as well as up, and investors may not get back the original amount invested.
4. In accordance with the AIFM Directive, the maximum level of leverage to be used on this Fund is 200% under the Commitment method and 300% under the Gross method.
5. \*Certain historic savings plan arrangements may still levy an ACD's preliminary charge depending on the terms applicable to those arrangements.
6. "Typical", in the context of this Fund, means over a typical market cycle of 5-7 years.

## **Fidelity Multi Asset Strategic Fund**

### **Investment Objective and Policy**

The Fund aims to provide long term capital growth through global exposure to a balance of lower and higher risk assets.

The Fund will primarily invest in funds (including funds managed by Fidelity). The Fund may also invest directly into transferable securities, other collective investment schemes, money market instruments, cash and deposits and is also able to use derivatives for efficient portfolio management and investment purposes.

Asset allocation exposure of the Fund will be actively managed and typical allocation will be as follows: 50% lower risk assets (such as debt instruments e.g. bonds and cash) and 50% higher risk assets (including equities, commodities and property securities). However, the Fund's allocation between lower risk and higher risk assets can be tactically adjusted within the following range in order to preserve capital or take advantage of market opportunities: 30-70% lower risk assets and 30-70% higher risk assets.

Class of Shares	A Accumulation Shares N Accumulation Shares Y Accumulation Shares

7. \*Certain historic savings plan arrangements may still levy an ACD’s preliminary charge depending on the terms applicable to those arrangements.

## **Fidelity Multi Asset Open Defensive Fund**

### **Investment Objective and Policy**

This Fund targets an average annual return of 4% after the deduction of ongoing fund charges, over a typical market cycle of 5-7 years. The return target assumes the deduction of the ongoing charges figure (OCF) on the Y share class. There is no guarantee that the target will be achieved by the Fund. The Fund typically has a large exposure to lower risk investments with the aim of mitigating the risk of capital losses, however, an investor may not get back the full amount invested.

The Fund invests primarily into funds (including those managed by Fidelity) which provide global exposure to a diversified range of assets. The Fund can also invest directly into transferable securities, money market instruments, cash and deposits, and is also able to use derivatives for efficient portfolio management and investment purposes.

Asset allocation exposure of the Fund will be actively managed subject to it remaining within the following parameters: 0-35% equity, 15-100% debt instruments (which may include high yield and emerging market debt), 0-30% cash and 0-30% alternatives (such as infrastructure securities and Real Estate Investment Trusts).

Class of Shares	N Accumulation Shares Gross paying N Accumulation Shares Y Accumulation Shares Gross paying Y Accumulation Shares

## Performance of the Fund

Annual total return (full calendar years) 2014 to 2016

Average annual return to 31.12.16 (3Y)

### Notes

1. Past performance information is not available before 2014.
2. Basis of calculation: NAV to NAV with income reinvested to 31 December 2016, net of tax and annual charges but excluding any preliminary charges. More recent past performance information is available from the ACD on request.
3. Potential investors are warned that past performance should not be seen as an indication of future performance and cannot in any way provide a guarantee of future returns. The value of investments and income from them can go down as well as up, and investors may not get back the original amount invested.
4. In accordance with the AIFM Directive, the maximum level of leverage to be used on this Fund is 200% under the Commitment method and 300% under the Gross method.

## **Fidelity Multi Asset Open Strategic Fund**

*(formerly Fidelity MultiManager Balanced Fund)*

### **Investment Objective and Policy**

This Fund targets an average annual return of 5% after the deduction of ongoing fund charges, over a typical market cycle of 5-7 years. The return target assumes the deduction of the ongoing charges figure (OCF) on the Y share class. There is no guarantee that the target will be achieved by the Fund. The Fund typically has exposure to both higher and lower risk investments meaning that there is a moderate risk of capital losses and an investor may not get back the full amount invested.

The Fund invests primarily into funds (including those managed by Fidelity) which provide global exposure to a diversified range of assets. The Fund can also invest directly into transferable securities, money market instruments, cash and deposits, and is also able to use derivatives for efficient portfolio management and investment purposes.

Asset allocation exposure of the Fund will be actively managed subject to it remaining within the following parameters: 20-60% equity, 5-80% debt instruments (which may include high yield and emerging market debt), 0-30% cash and 0-30% alternatives (such as infrastructure securities and Real Estate Investment Trusts).

This Fund was previously run as a UCITS scheme and was restructured into a NURS scheme on 1 November 2008.

## **Fidelity Multi Asset Open Growth Fund**

*(formerly Fidelity MultiManager Growth Portfolio)*

### **Investment Objective and Policy**

This Fund targets an average annual return of 5.5% after the deduction of ongoing fund charges, over a typical market cycle of 5-7 years. The return target assumes the deduction of the ongoing charges figure (OCF) on the Y share class. There is no guarantee that the target will be achieved by the Fund. The Fund typically has exposure to higher risk investments meaning that there is a risk of short-term price fluctuations and an investor may not get back the full amount invested.

The Fund invests primarily into funds (including those managed by Fidelity) which provide global exposure to a diversified range of assets. The Fund can also invest directly into transferable securities, money market instruments, cash and deposits, and is also able to use derivatives for efficient portfolio management and investment purposes.

Asset allocation exposure of the Fund will be actively managed subject to it remaining within the following parameters: 40-85% equity, 0-60% debt instruments (which may include high yield and emerging market debt), 0-20% cash and 0-30% alternatives (such as infrastructure securities and Real Estate Investment Trusts).

## **Fidelity Open World Fund**

### **Investment Objective and Policy**

This Fund targets an average annual return of 7% after the deduction of ongoing fund charges, over a typical market cycle of 5-7 years. The return target assumes the deduction of the ongoing charges figure (OCF) on the Y share class. There is no guarantee that the target will be achieved by the Fund. The Fund typically has a large exposure to equities meaning that it is likely to experience short-term price fluctuations in line with these markets and an investor may not get back the full amount invested.

The Fund invests primarily into funds (including those managed by Fidelity) which provide global exposure to a diversified range of assets. The Fund can also invest directly into transferable securities, money market instruments, cash and deposits, and is also able to use derivatives for efficient portfolio management and investment purposes.

Asset allocation exposure of the Fund will be actively managed subject to it remaining within the following parameters: 80-100% equity, 0-20% debt instruments (which may include high yield and emerging market debt), 0-10% cash and 0-20% alternatives (such as infrastructure securities and Real Estate Investment Trusts).

2. Basis of calculation: NAV to NAV with income reinvested to 31 December 2016, net of tax and annual charges but excluding any preliminary charges. More recent past performance information is available from the ACD on request.
3. Potential investors are warned that past performance should not be seen as an indication of future performance and cannot in any way provide a guarantee of future returns. The value of investments and income from them can go down as well as up, and investors may not get back the original amount invested.
4. In accordance with the AIFM Directive, the maximum level of leverage to be used on this Fund is 200% under the Commitment method and 300% under the Gross method.
5. \*Certain historic savings plan arrangements may still levy an ACD's preliminary charge depending on the terms applicable to those arrangements.

## **Fidelity Multi Asset Income Fund**

*(formerly Fidelity Retirement Income Fund)*

### **Investment Objective and Policy**

The Fund aims to achieve an income yield that is typically within a range of 4-6% per annum. There is no guarantee that the income target will be achieved by the Fund. Any income you may receive will vary depending on the share class of the Fund into which you are invested.

The Fund invests primarily in funds (including funds managed by Fidelity) which provide global exposure to a mixture of asset classes. The Fund can also invest directly into transferable securities, money market instruments, cash and deposits, and is also able to use derivatives for efficient portfolio management and investment purposes.

Asset allocation exposure of the Fund will be actively managed subject to it remaining within the following parameters: 20-100% income assets (such as bonds and cash) and 0-65% growth assets (such as equities, infrastructure securities and property securities). The Fund's asset allocation can be adjusted within the ranges in order to preserve capital or to take advantage of market opportunities.

5. \*Certain historic savings plan arrangements may still levy an ACD's preliminary charge depending on the terms applicable to those arrangements.

This Fund was previously run as a UCITS scheme and was restructured into a NURS scheme on 1 November 2008.

## **Fidelity Multi Asset Balanced Income Fund**

### **Investment Objective and Policy**

The Fund aims to achieve an income yield that is typically within a range of 4-6% per annum. The Fund also aims to generate some long term capital growth. There is no guarantee that the income or capital growth target will be achieved by the Fund. Any income you may receive will vary depending on the share class of the Fund into which you are invested.

The Fund invests primarily in funds (including funds managed by Fidelity) which provide global exposure to a mixture of asset classes. The Fund can also invest directly into transferable securities, money market instruments, cash and deposits, and is also able to use derivatives for efficient portfolio management and investment purposes.

Asset allocation exposure of the Fund will be actively managed subject to it remaining within the following parameters: 20-100% income assets (such as bonds and cash) and 0-60% growth assets (such as equities, infrastructure securities and property securities). The Fund's asset allocation can be adjusted within the ranges in order to preserve capital or to take advantage of market opportunities.

## **Fidelity Multi Asset Income & Growth Fund**

### **Investment Objective and Policy**

The Fund aims to achieve an income yield that is typically within a range of 4-6% per annum. The Fund also aims to achieve long term capital growth which will typically be in line with inflation. There is no guarantee that the income or capital growth target will be achieved by the Fund. Any income you may receive will vary depending on the share class of the Fund into which you are invested.

The Fund invests primarily in funds (including funds managed by Fidelity) which provide global exposure to a mixture of asset classes. The Fund can also invest directly into transferable securities, money market instruments, cash and deposits, and is also able to use derivatives for efficient portfolio management and investment purposes.

Asset allocation exposure of the Fund will be actively managed subject to it remaining within the following parameters: 25-100% growth assets (such as equities, infrastructure securities and real estate securities) and 0-100% income assets (such as bonds and cash). The Fund's asset allocation can be adjusted within the ranges in order to preserve capital or to take advantage of market opportunities.

## **Fidelity Target 2020 Fund**

*(formerly Fidelity WealthBuilder Target 2020 Fund)*

### **Investment Objective and Policy**

The Fund aims to achieve capital growth for investors planning to withdraw their investment in the year 2020. It is intended to close the Fund shortly afterwards.

The Fund will initially target growth through exposure to global equity markets and commodities. This will be achieved by investing primarily in funds, including those managed by Fidelity. The Fund's exposure will become increasingly defensive as the Fund approaches maturity, through global exposure to debt instruments (e.g. bond funds) and cash. As the target date nears, the Fund will have a UK bias and will primarily invest into cash, deposits and gilts, with the aim of capital preservation.

At any stage the Fund may also invest directly in transferable securities, money market instruments, cash and deposits. Derivatives may also be used by the Fund for efficient portfolio management and for investment purposes.

5. \*Certain historic savings plan arrangements may still levy an ACD’s preliminary charge depending on the terms applicable to those arrangements.

This Fund was previously run as a UCITS scheme and was restructured into a NURS scheme on 1 November 2008.

## **Fidelity Target 2030 Fund**

*(formerly Fidelity Retirement 2030 Fund)*

### **Investment Objective and Policy**

The Fund aims to achieve capital growth for investors planning to withdraw their investment in the year 2030. It is intended to close the Fund shortly afterwards.

The Fund will initially target growth through exposure to global equity markets and commodities. This will be achieved by investing primarily in funds, including those managed by Fidelity. The Fund's exposure will become increasingly defensive as the Fund approaches maturity, through global exposure to debt instruments (e.g. bond funds) and cash. As the target date nears, the Fund will have a UK bias and will primarily invest into cash, deposits and gilts, with the aim of capital preservation.

At any stage the Fund may also invest directly in transferable securities, money market instruments, cash and deposits. Derivatives may also be used by the Fund for efficient portfolio management and for investment purposes.

5. \*Certain historic savings plan arrangements may still levy an ACD's preliminary charge depending on the terms applicable to those arrangements.

This Fund was previously run as a UCITS scheme and was restructured into a NURS scheme on 1 November 2008.

## **Fidelity Undiscovered Talent Fund**

### **Investment Objective and Policy**

The Fund's investment objective is to achieve long term capital growth. The Fund's policy is to invest primarily in collective investment schemes covering markets throughout the world and providing exposure mainly to equities, including schemes managed by Fidelity. The Fund will seek to invest in new, emerging or undiscovered fund managers who offer the potential to outperform their peer group. This may include fund managers who are relatively new to managing money and so have a shorter track record; or those running a fund which has gone unnoticed by the market but has a solid track record but lower assets under management; or those managers who are stand alone or with a small team in a boutique structure. The Fund may also invest directly in transferable securities, money market instruments, cash and deposits. Derivatives and forward transactions may also be used for investment purposes.

4. In accordance with the AIFM Directive, the maximum level of leverage to be used on this Fund is 200% under the Commitment method and 300% under the Gross method.

## **APPENDIX 2: INVESTMENT RESTRICTIONS**

***Each Fund is categorised as a non-UCITS retail scheme for the purposes of compliance with the FCA Handbook.***

### **General**

Authorised funds, such as the Funds of the Company, are required to comply with a number of investment rules that require the spreading of risk. The ACD must ensure that, taking account of the investment objective and policy of each Fund, the Scheme Property of each Fund aims to provide a prudent spread of risk. An aim of the restrictions on investment and borrowing powers set out in the COLL Sourcebook (which are summarised below) is to help protect Shareholders by laying down minimum standards for the investments that may be held.

The ACD will, on a Shareholder's request, provide supplementary information to that set out in this Prospectus relating to the quantitative limits applying in the risk management of each Fund, the methods used in this connection, and any recent development of the risk and yields of the main categories of investment of each Fund.

The property of a Fund must only consist of any or all of the following, as is permitted in this Prospectus:

- (a) units in collective investment schemes;
- (b) transferable securities;
- (c) money market instruments provided they meet the criteria set out in "Money Market Instruments" below;
- (d) derivatives and forward transactions;
- (e) deposits with an Approved Bank which mature in no more than twelve months, and are either repayable on demand or have the right to be withdrawn; and
- (f) immovables provided they meet the criteria set out in "Immovables" below;
- (g) gold up to a value of 10% of the scheme property; and
- (h) cash and near cash.

The scheme property of the Company may also include movable and immovable property that is necessary for the direct pursuit of the Company's business, but it is not intended that the Company will hold any such property.

### **Collective Investment Schemes**

Investment by a Fund in units in collective investment schemes is subject to the following restrictions:

- A Fund may invest in any of the following types of collective investment scheme:
  - (a) a scheme which complies with the conditions necessary for it to enjoy the rights conferred by the UCITS Directive;
  - (b) a scheme which is recognised under the provisions of section 270 or section 272 of the Financial Services and Markets Act 2000;
  - (c) a NURS scheme;
  - (d) a scheme which is authorised outside the United Kingdom, and the investment and borrowing powers of which are the same or more restrictive than those of a NURS Scheme; or
  - (e) a scheme which does not fall into (a)-(d) above and in respect of which no more than 20% in the value of property of the Fund (including the aggregate of any transferable securities which are not approved securities) is invested;
- any Underlying Fund must operate on the principle of the prudent spread of risk;
- any Underlying Fund must be prohibited from having more than 15% in value of its scheme property consisting of units in collective investment schemes; and
- any Underlying Fund must permit investors in that scheme to redeem their units in accordance with the scheme at a price which is related to the net value of the property to which the units relate and is determined in accordance with the scheme.
- As mentioned below (see "Spread Requirements"), no more than 35% in value of a Fund is to consist of units in any one collective investment scheme. For the purposes of this spread

requirement, if investment is made in sub-funds of an umbrella scheme, each sub-fund is treated as if it were a separate scheme.

- No Fund may invest in another Fund in the Company. However, a Fund may invest in associated collective investment schemes (other collective investment schemes which are managed or operated by the ACD or an associate of the ACD) provided there is no double charging of the preliminary charge on investment, or of the redemption charge on disinvestment, on the basis set out in the COLL Sourcebook.

- **Transferable Securities**

A Fund may invest in transferable securities. “Transferable securities” are essentially shares, instruments creating or acknowledging indebtedness, government and public securities, instruments giving entitlement to such investments, and certificates representing certain securities, in each case which are transferable without the consent of a third party.

No more than 20% in value of a Fund’s property may consist of the aggregate of transferable securities which are not approved securities and money market instruments which are not admitted to or dealt on an eligible market.

“Approved securities” are transferable securities traded on eligible securities markets (as defined below), otherwise than by the specific permission of the market authority.

“Eligible securities markets” are regulated markets, which are defined by reference to provisions of the Investment Service Directive; markets established in EEA member states on which transferable securities admitted to official listing in those states are dealt in or traded; and other markets which the ACD, after consultation with the Depositary, has decided are appropriate for the purpose of investment of the property of the relevant Fund. In accordance with the relevant criteria in the COLL Sourcebook and formal guidance from the FCA, such markets must operate regularly and be regulated, recognised and open to the public.

The eligible markets for each Fund (in addition to those established in EEA member states) are as follows:

<b>Member States of EEA and EU – All primary and secondary markets</b>	
<b>Other countries</b>

- **Money Market Instruments**

A Fund may invest in money market instruments including those which are:

- admitted to or dealt in on an eligible market; or
- are not within (a) but are liquid and whose value can be determined accurately at any time, provided that, no more than 20% in value of the scheme property of a Fund may consist of the aggregate of such money market instruments and transferable securities which are not approved securities.

“Eligible markets” are regulated markets, which are defined by reference to provisions of the Investment Service Directive; markets established in EEA member states on which transferable securities admitted to official listing in those states are dealt in or traded; and other markets which the ACD, after consultation with the Depositary, has decided are appropriate for the purpose of investment of the property of the relevant Fund (these other markets are listed above). In accordance with the relevant criteria in the COLL Sourcebook and formal guidance from the FCA, such markets must operate regularly and be regulated, recognised and open to the public.

- **Derivatives and Forward Transactions**

**Under the COLL Sourcebook, derivatives may be used by NURS schemes for efficient portfolio management purposes (such as hedging) or for achieving a scheme’s investment objectives, or for both.**

**The Funds have the power to use derivatives for specific investment purposes in accordance with the investment objective and policy of the relevant Fund. Whilst the ACD does not expect to use derivative aggressively in the management of a Fund, their use may lead to a higher volatility in the share price of the Fund, except as otherwise stated (see The Company and Its Funds - “Derivatives and Forwards Transactions”).**

The use of derivatives and forward transactions for the Company’s Funds is currently governed as follows:

- by the COLL Sourcebook provisions explained in sections (a) to (e) below, which apply to all Funds generally; and
- in addition, by the terms set out below, which explain the extent of the possible use of derivatives for the Funds.

Examples of the techniques and instruments used in this regard are given below.

- (a) Subject to certain detailed restrictions, a transaction in a derivative or a forward transaction may be effected for a Fund if it is a permitted transaction and the transaction is covered, on the basis explained below. A transaction in a derivative must not cause a Fund to diverge from its investment objectives. For any derivative transaction, there are requirements that there must be an appropriate risk management process in place.

- (b) To be a permitted transaction, the following constraints must be complied with.

The underlying property of any transaction in a derivative must consist of property to which the Fund is dedicated (for example, transferable securities).

A transaction in a derivative must be in an approved derivative, (i.e. a transaction effected on or under the rules of an eligible derivatives market) or, subject to restrictions, an over-the-counter (OTC) derivative transaction.

Eligible derivatives markets are those which are regulated as defined in the FCA Handbook or markets in EEA states which are regulated, operate regularly and are open to the public. Markets not falling within either of these definitions are eligible if the ACD, after consultation with the Depositary, has decided that such markets are appropriate for the purposes of investment of or dealing in the property of a Fund with regard to the relevant criteria set out in the COLL Sourcebook and the formal guidance on eligible markets issued by the FCA as amended from time to time. The eligible derivatives markets for the Funds are as follows:

Athens Derivatives Exchange (ADE)  
Australia Securities Exchange  
Austria Exchange  
Chicago Board of Trade  
Chicago Board Options Exchange  
Chicago Mercantile Exchange  
Eurex (Germany; Zurich)  
Euronext (Amsterdam; Brussels; Paris-MATIF; Paris-MONEP; LIFFE)  
Hong Kong Futures Exchange  
ICE Futures U.S.  
Korean Futures Exchange (KOFAX)

XEMD – Mercado Mexicano de Derivados

Any forward transaction must be made with an Eligible Institution or an Approved Bank.

A transaction in a derivative must not be entered into if the intended effect is to create the potential for an uncovered sale of one or more transferable securities, money market instruments, units in a collective investment scheme or derivatives. This is subject to the general ability to enter into an uncovered sale whether through using a derivative or not, provided:

- (i) the risks of the underlying financial instrument of a derivative can be appropriately represented by another financial instrument and the underlying financial instrument is highly liquid; or
- (ii) the ACD or the depositary has the right to settle the derivative in cash, and cover exists within the scheme property which falls within one of the following asset classes:
  - cash;
  - liquid debt instruments (e.g. government bonds of first credit rating) with appropriate safeguards (in particular, haircuts);
  - other highly liquid assets having regard to their correlation with the underlying of the financial derivative instruments, subject to appropriate safeguards (e.g. haircuts where relevant).

In the asset classes referred to in (i) and (ii) above, an asset may be considered as liquid where the instrument can be converted into cash in no more than seven business days at a price closely corresponding to the current valuation of the financial instrument on its own market.

- (c) A transaction in derivatives or a forward transaction may only be entered into if the maximum exposure, in terms of the principal or notional principal created by the transaction to which a Fund is or may be committed by another person is covered globally. Exposure is covered globally if adequate cover from within the scheme property of the Fund is available to meet the Fund's total exposure, taking into account the value of the underlying assets and any reasonably foreseeable market movement, counterparty risk, and the time available to liquidate any positions.

The global exposure relating to derivatives held in a Fund may not exceed the net asset value of that Fund. Global exposure calculations for all funds – unless otherwise indicated – are using the commitment approach as part of their risk management process, measures and limits.

- (d) A derivative or forward transaction which will or could lead to the delivery of property for the account of a Fund, may be entered into only if at the time of execution:
  - (i) that property can be held for the account of the relevant Fund; and
  - (ii) the ACD, having taken reasonable care, determines that delivery of the property under that transaction will not occur or will not lead to a breach of the applicable restrictions.
- (e) The ACD must use an appropriate risk management process enabling it to monitor and measure as frequently as appropriate the risk of each Fund's derivatives positions and their contribution to the overall risk profile of that Fund. This process must take into account the investment objectives and policy of the Fund and the creditworthiness of counterparties used to undertake derivative transactions. The use of derivatives has the overall intention of reducing the volatility of returns, although this outcome is not guaranteed and derivatives held may at times lead to increased price volatility. The Depositary is obliged to take reasonable care to review the appropriateness of the risk management process in line with its duties.

- (f) **The following provisions will apply in situations where the ACD enters into derivative and forward transactions for the efficient portfolio management of a Fund**

The ACD may utilise the property of a Fund to enter into transactions for the purposes of efficient portfolio management of that Fund, i.e. transactions which relate to transferable securities or money market instruments, are economically appropriate (they are realised in a cost effective way) and which are permitted by the COLL Sourcebook to be effected in order to achieve a reduction in certain risks or costs or the generation of additional

capital or income for the Funds with a risk level which is consistent with the risk profile of the Fund and the risk diversification rules laid down in COLL. There is no limit on the amount or value of the property of a Fund which may be used for such efficient portfolio management purposes, but the ACD will only enter into the transaction if it reasonably believes the transaction to be economically appropriate.

The aim of any derivative or forward use for such reasons is not to increase materially the risk profile of the Fund; rather, their use is to assist the ACD in meeting the investment objectives of each Fund.

A Fund may use various Financial Derivative Instruments to reduce risks or costs or to generate additional capital or income in order to meet the investment objectives of that Fund. Certain Funds may use derivatives extensively and/or for more complex strategies (i.e. have extended derivative powers) as referred to in their investment objective and policy. In this section and others that refer to derivatives, privately negotiated or non-exchange traded derivatives are referred to as being "Over The Counter", or "OTC".

Investors may wish to consult their financial adviser about the suitability of a particular Fund for their investment needs bearing in mind its powers with regard to the use of derivatives.

While the judicious use of derivative instruments by experienced investment managers can be beneficial, derivative instruments also involve risks different from, and, in certain cases, greater than, the risks associated with more traditional investments. The use of derivatives may give rise to a form of leverage, which may cause the net asset values of these Funds to be more volatile and/or change by greater amounts than if they had not been leveraged. This is because leverage tends to exaggerate the effect of any increase or decrease in the value of the respective Funds' portfolio of securities and other instruments.

The following types of risks are amongst those relevant in relation to the use of derivatives and forwards by the Funds:

- **Market Risk** – which is the general risk applicable to all investments that the value of a particular investment may fluctuate. Where the value of the underlying asset (either security or reference benchmark) of a derivative instrument changes, the value of the instrument will become positive or negative, depending on the performance of the underlying asset. For non-option derivatives the absolute size of the fluctuation in value of a derivative will be very similar to the fluctuation in value of the underlying security or reference benchmark. In the case of options, the absolute change in value of an option will not necessarily be similar to the change in value of the underlying because, as explained further below, changes in options values are dependent on a number of other variables.
- **Liquidity Risk** – Liquidity risk exists when a particular instrument is difficult to purchase or sell. If a derivative instrument transaction is particularly large or if the relevant market is illiquid (as can be the case with OTC derivative instruments), it may not be possible to initiate a transaction or liquidate a position at an advantageous price.
- **Counterparty Credit Risk** – which is the risk that a loss may be sustained by a Fund as a result of the failure of the other party to a derivative instrument (usually referred to as a 'counterparty') to comply with the terms of the derivative instrument contract. The counterparty credit risk for an exchange-traded derivative instrument is generally less than for an OTC derivative instrument, since the clearing firm, which is the issuer or counterparty to each exchange-traded derivative instrument, provides a guarantee of clearing. This guarantee is supported by a daily payment system (i.e. margin requirements) operated by the clearing firm in order to reduce overall counterparty credit risk. Assets deposited as margin with the brokers and/or exchanges may not be held in segregated accounts by these counterparties and may therefore become available to the creditors of such counterparties in the event of default by them. For privately negotiated OTC derivative instruments, there is no similar clearing firm guarantee. Therefore, the investment manager adopts a counterparty risk management framework which measures, monitors and manages counterparty credit risk, taking into account both current and potential future credit exposure, through the use of internal credit assessments and external credit agency ratings. Privately negotiated OTC derivative instruments are not standardised. They are an agreement between two parties and can therefore be tailored to the requirements of the parties involved. The documentation risk is reduced by adhering to standard ISDA documentation.

A Fund's exposure to an individual counterparty may not exceed 10% of the relevant Fund's net assets. Counterparty credit risk may be further mitigated through the use of collateral agreements. However, collateral arrangements are still subject to the insolvency risk and credit risk of the issuers

or depository of the collateral. Further, collateral thresholds exist below which collateral is not called for and timing differences between calculating the need for collateral and its receipt by the Fund from the counterparty will both mean that not all the current exposure will be collateralised.

- Settlement risk – Settlement risk exists when futures, forwards, contracts for differences, options and swaps (of any type) are not settled in a timely manner, thereby increasing counterparty credit risk prior to settlement and potentially incurring Funding costs that would otherwise not be experienced. If settlement never occurs the loss incurred by the Fund will be the same as it is for any other such situation involving a security namely the difference between the price of the original contract and the price of the replacement contract, or, in the case where the contract is not replaced the absolute value of the contract at the time it is voided.
- Fund Management Risk – Derivative products are highly specialised instruments that require investment techniques and risk analysis different from those associated with stocks and bonds. The use of a derivative instrument requires an understanding not only of the underlying asset but also of the derivative instrument itself, without necessarily the benefit of observing the performance of the derivative instrument under all possible market conditions. Further, the price of an OTC derivative might not move in line with the price of the underlying instrument in some market conditions.
- Other Risks – Other risks in using derivative instruments include the risk of mispricing or improper valuation. Some derivative instruments, in particular privately negotiated OTC derivative instruments, do not have prices observable on an exchange and so involve the use of formulae, with prices of underlying securities or reference benchmarks obtained from other sources of market price data. OTC options involve the use of models, with assumptions, which increases the risk of pricing errors. Improper valuations could result in increased cash payment requirements to counterparties or a loss of value to the Funds. Derivative instruments do not always perfectly or even highly correlate with or track the value of the assets, rates or indices they are designed to track. Consequently, a Fund's use of derivative instruments may not always be an effective means of, and sometimes could be counterproductive to, furthering that Fund's investment objective.

### **Risks in relation to specific derivative instruments**

For Funds using one or a combination of the following instruments the following are among the risks which should be considered as relevant:

- Security Forward Contracts and Contracts for Difference – the risk to the buyer or seller of such contracts is the change in value of the underlying security. When the value of the underlying security changes, the value of the contract becomes positive or negative. Unlike futures contracts (which are settled through a clearing firm), OTC forward contracts and contracts for difference are privately negotiated between two parties and are not standardised. Furthermore, the two parties must bear each other's credit risk, which is not the case with a futures contract and collateral is arranged to mitigate this risk. Also, since these contracts are not exchange traded, there is no marked-to-market margin requirement, which allows a buyer to avoid almost all capital outflow initially.
- Equity Index, Single Stock, Interest Rate and Bond Futures – the risk to the buyer or seller of an exchange-traded future is the change in value of the underlying reference index/security/contract/bond. Futures contracts are forward contracts, meaning they represent a pledge to make a certain economic transfer at a future date. The exchange of value occurs by the date specified in the contract; the majority of contracts have to be cash settled and where physical delivery is an option the underlying instrument is rarely exchanged. Futures are distinguished from generic forward contracts in that they contain standardised terms, trade on a formal exchange, are regulated by overseeing agencies, and are guaranteed by clearing firms. Also, in order to ensure that payment will occur, futures have both an initial margin and a daily margin requirement which moves in line with the market value of the underlying asset.
- Exchange-traded and OTC Options – Options are complex instruments whose value depends on many variables including the strike price of the underlying (versus the spot price both at the time the option is transacted and subsequently), the time to maturity of the option, the type of option (European or American or other type) and volatility among others. The most significant contributor to market risk resulting from options is the market risk associated with the underlying when the option has an intrinsic value (i.e. it is 'in-the-money'), or the strike price is near the

price of the underlying ('near-the-money'). In these circumstances the change in value of the underlying will have a significant influence on the change in value of the option. The other variables will also have an influence, which will likely to be greater the further away the strike price is from the price of the underlying. Unlike exchange traded option contracts (which are settled through a clearing firm), OTC option contracts are privately negotiated between two parties and are not standardised. Further, the two parties must bear each other's credit risk and collateral is arranged to mitigate this risk. The liquidity of an OTC option can be less than that of an exchange traded option and this may adversely affect the ability to close out the option position, or the price at which the close out is effected.

- Interest Rate Swaps – an interest rate swap normally involves exchanging a fixed interest amount per payment period for a payment that is based on a floating rate benchmark. The notional principal of an interest rate swap is never exchanged, only the fixed and floating amounts. Where the payment dates of the two interest amounts coincide there is normally one net settlement. The market risk of this type of instrument is driven by the change in the reference benchmarks used for the fixed and floating legs. An interest rate swap is an OTC agreement between two parties and so can be tailored to the requirements of the parties involved. Consequently each party bears the other's credit risk and collateral is arranged to mitigate this risk.
- Foreign Exchange contracts – these involve the exchange of an amount in one currency for an amount in a different currency on a specific date. Once a contract has been transacted the value of the contract will change depending on foreign exchange rate movements and, in the case of forwards, interest rate differentials. To the extent that such contracts are used to hedge non-base currency foreign currency exposures back to the base currency of the Fund, there is a risk that the hedge may not be perfect and movements in its value may not exactly offset the change in value of the currency exposure being hedged. Since the gross amounts of the contract are exchanged on the specified date, there is a risk that if the counterparty with whom the contract has been agreed goes into default between the time of payment by the Fund but before receipt by the Fund of the amount due from the counterparty, then the Fund will be exposed to the counterparty credit risk of the amount not received and the entire principal of a transaction could be lost.
- Credit Default Swaps (CDS) – these contracts represent a credit derivative, whose market value will change in line with the perceived credit standing of the underlying security or basket of securities. Where protection has been sold, the Fund has a similar credit exposure to the underlying security or basket of securities as if they had actually been bought. Where protection has been bought, the Fund will receive a payment from the counterparty to the swap if the underlying security (or one in the basket of securities) defaults, based on the difference between the notional principal of the swap and the expected recovery value, as determined by the market at the time of default. The swap contract is an agreement between two parties and therefore each party bears the other's counterparty credit risk. Collateral is arranged to mitigate this risk. The documentation risk for CDS is reduced by adhering to standard ISDA documentation. The liquidity of a CDS may be worse than the liquidity of the underlying security or securities in the basket and this may adversely affect the ability to close out a CDS position or the price at which close out is effected.
- Total Return Swaps (TRS) – these contracts represent a combined market and credit default derivative and their value will change as a result of fluctuations in interest rates as well as credit events and credit outlook. A TRS which involves the Fund receiving the total return is similar in risk profile to actually owning the underlying reference security. These transactions may be less liquid than interest rate swaps as there is no standardisation of the underlying reference benchmark and this may adversely affect the ability to close out a TRS position or the price at which close out is effected. The swap contract is an agreement between two parties and therefore each party bears the other's counterparty credit risk and collateral is arranged to mitigate this risk. The documentation risk for TRS is reduced by adhering to standard ISDA documentation.
- Inflation Index Swaps – the market risk of this type of instrument is driven by the change in the reference benchmarks used for the two legs of the transaction, one of which will be an inflation benchmark. This is an agreement between two parties and so can be tailored to the requirements of the parties involved. Consequently each party bears the other's credit risk and collateral is arranged to mitigate this risk. An inflation index swap normally involves exchanging a fixed final amount for a payment that is not fixed (the floating side of the swap would usually be linked to an inflation index in one of the major currencies).

Please note that the above is an indicative list of risks. For Funds using other instruments, different/additional risks may have to be considered.

### **Immovables**

- (a) A Fund may invest in land or a building (“immovable”) provided the criteria in (b) to (i) below are satisfied.
- (b) The immovable may be situated in any country or territory.
- (c) If the Fund invests in an immovable situated in England and Wales or Northern Ireland, the immovable must be a freehold or leasehold interest, or if the Fund invests in an immovable situated in Scotland, the immovable must be any interest or estate in or over land or heritable right including a long lease. If the immovable is not situated in these jurisdictions then it must be of an equivalent interest.
- (d) The ACD must have taken reasonable care to determine that the title to the immovable has a good marketable title.
- (e) The ACD must:
  - (i) have received a report from an appropriate valuer containing a valuation of the immovable (with or without any relevant subsisting mortgage) and stating that in the appropriate valuer’s opinion the immovable would, if acquired by the scheme, be capable of being disposed of reasonably quickly at that valuation; or
  - (ii) have received a report from an appropriate valuer as required by (e)(i) stating that the immovable is adjacent to or in the vicinity of another immovable included in the scheme property, or is another interest as defined in (c) in an immovable which is already included in the scheme property and, in the opinion of the appropriate valuer, the total value of both immovables would at least equal the sum of the price payable for the immovable and the existing value of the other immovable.
- (f) The Fund will not invest in an immovable which is not bought or agreed by an enforceable contract within six months after receipt of the report of the appropriate valuer under (e) above.
- (g) To purchase an immovable the ACD must ensure that the report in (e) can be reasonably relied upon, and that the immovable is not bought at more than 105% of its valuation in the report in (e).
- (h) Any furniture, fittings or other contents of any building may be regarded as part of the relevant immovable.
- (i) An appropriate valuer must be a person who:
  - (i) has knowledge of and experience in the valuation of immovables of the relevant kind in the relevant area;
  - (ii) is qualified to be a standing independent valuer of a non-UCITS retail scheme or is considered by the scheme’s standing independent valuer to hold an equivalent qualification;
  - (iii) is independent of the ICVC, the depositary and the ACD; and
  - (iv) has not engaged himself or any of his associates in relation to the finding of the immovable for the scheme or the finding of the scheme for the immovable.

### **Investment limits for immovables**

- (a) The following limits apply in respect of immovables held as part of scheme property of a Fund:
  - (i) not more than 15% in value of the Fund’s property is to consist of any one immovable and for the purposes of (a)(i) immovables within “Immovables” (e)(ii) above must be regarded as one immovable;
  - (ii) the figure of 15% in (a)(i) may be increased to 25% once the immovable has been included in the Fund’s property in compliance with (a)(i);
  - (iii) the income receivable from any one “group” (as defined in the FCA Handbook) in any accounting period must not be attributable to immovables comprising more than 25%, or in the case of a government or public body more than 35% of the value of the Fund’s property;
  - (iv) not more than 20% in value of the Fund’s property is to consist of immovables that are subject to a mortgage and any mortgage must not secure more than 100% of the valuation given by the valuer (on the assumption the immovable is not mortgaged);

- (v) the aggregate value of mortgages secured on immovables under (iv) above, borrowing of the Fund under the borrowing limits set out at Appendix 2 – “Borrowing” and any transferable securities that are not approved securities must not, in combination, at any time exceed 20% of the value of the Fund’s property;
- (vi) not more than 50% in value of the Fund’s property is to consist of immovables which are unoccupied and non-income producing or in the course of substantial development, redevelopment or refurbishment; and
- (vii) no option may be granted to a third party to buy any immovable comprised in the Fund’s property unless the value of the relevant immovable does not exceed 20% of the value of that Fund’s property together with, where appropriate, the value of investments in unregulated collective investment schemes and any transferable securities which are not approved securities.

### **Standing Independent valuer**

The ACD must appoint a standing independent valuer to value immovables in the scheme property of any Fund. This appointment must be made at the outset with the approval of the Depositary and upon any vacancy.

The standing independent valuer must be independent from the Company, the ACD, and the Depositary.

The following requirements apply to the functions of the standing independent valuer:

- (a) the ACD must ensure that the standing independent valuer values all the immovables held within the scheme property, on the basis of a full valuation with physical inspection (including where the immovable is or includes a building, internal inspection) at least once a year;
- (b) in (a) any inspection in relation to adjacent properties of a similar nature may be limited to that of only one such representative property;
- (c) the ACD must ensure that the standing independent valuer values the immovables, on the basis of a review of the last full valuation, at least once a month;
- (d) if either the ACD or Depositary becomes aware of any matters that appear likely to:
  - (i) affect the outcome of the valuation of an immovable; or
  - (ii) cause the valuer to value under (a) instead of (c);
 it must immediately inform the standing independent valuer of that matter;
- (e) the ACD must use its best endeavours to ensure that any other affected person (as defined in the FCA Handbook) reports to the standing independent valuer immediately upon that person becoming aware of any matter within (d); and
- (f) any valuation by the standing independent valuer must be on the basis of an Open Market value as defined in Practice Statement 3 in the Royal Institute of Chartered Surveyors’ Appraisal and Valuation Manual (first edition published September 1995) but subject to COLL 6.3.

Any valuation under COLL 6.3 has effect, until the next valuation under that rule, for the purposes of the value of immovables.

An agreement to transfer an immovable or an interest in an immovable is to be disregarded for the purposes of the valuation of the scheme property unless it reasonably appears to the ACD to be legally enforceable.

### **Spread Requirements**

There are limitations on the proportion of the value of a Fund which may be held in certain forms of investment. The general spread requirements are as set out below.

- (a) Not more than 35% in value of a Fund may consist of units in any one collective investment scheme.
- (b) Not more than 10% in value of a Fund’s property may consist of transferable securities or money market instruments issued by a single body, and in applying this limit, certificates representing certain securities are treated as equivalent to the underlying security. This limit is raised to 20% in respect of transferable securities where a Fund has an investment policy as stated in this prospectus to replicate the performance or composition of an index which has the characteristics in (i) to (iii):
  - (i) it must have a sufficiently diversified composition;
  - (ii) it must be a representative benchmark for the market to which it refers; and
  - (iii) it must be published in an appropriate manner.

The limit of 20% above in respect of transferable securities may be raised to 35% for one body only for a particular Fund and only where justified by exceptional market conditions for that Fund.

- (c) Not more than 20% in value of a Fund's property may consist of deposits with a single body.
- (d) The exposure to any one counterparty in an over-the-counter (OTC) derivative transaction must not exceed 10% in value of a Fund's property.
- (e) For the purpose of calculating the limits in (d) above, the exposure in respect of an OTC derivative may be reduced to the extent that collateral is held in respect of it if the collateral meets each of the following conditions:
  - it is marked-to-market on a daily basis and exceeds the value of the amount at risk;
  - it is exposed only to negligible risks (e.g. government bonds of first credit rating or cash) and is liquid;
  - it is held by a third party custodian not related to the provider or is legally secured from the consequences of a failure of a related party; and
  - it can be fully enforced by the Fund at any time.
- (f) For the purpose of calculating the limits in (d) above, OTC derivative positions with the same counterparty may be netted provided that the netting procedures comply with the conditions set out in section 3 of annex III to the Banking Consolidation Directive and are based on legally binding agreements.
- (g) In applying these spread requirements, all derivatives transactions are deemed to be free of counterparty risk if they are performed on an exchange where the clearing house is backed by an appropriate performance guarantee and is characterised by a daily mark-to-market valuation of the derivatives positions and at least daily margining.
- (h) The above restrictions do not apply to government and public securities. Government and public securities are, essentially, securities issued by certain governments, local authorities and public international bodies. No more than 35% of a Fund's property will be invested in government and public securities issued by any one body (except for the Fidelity Target 2020 Fund, Fidelity Target 2025 Fund and Fidelity Target 2030 Fund – as to which see below). Apart from this restriction, there is no limit on the amount which may be invested in such securities or in such securities issued by any one body or of any one issue.

In respect of the Fidelity Target 2020 Fund, Fidelity Target 2025 Fund and Fidelity Target 2030 Fund up to 100% of the property of the Fund may be invested in Government and public securities issued by or on behalf of or guaranteed by the Government of the United Kingdom. Where over 35% of the Fund consists of such government and public securities issued by one body then no individual position may exceed 30% of the Fund and the Fund must hold a minimum of six government and public securities of any issuer.

The spread requirements above do not apply during any period in which it is not reasonably practical to comply although the ACD must ensure that a Fund's property aims to provide a prudent spread of risk taking into account its investment objectives and policy.

### **Warrants and Nil-Paid and Partly-Paid Securities**

A warrant is an instrument giving entitlements to investments (a warrant or other instrument entitling the holder to subscribe for a share, debenture or government and public security) and any other transferable security (not being a nil-paid or partly-paid security) which is listed on an eligible securities market; and akin to an investment which is an instrument giving entitlements to investments, in that it involves a down payment by the then holder and a right later to surrender the instrument and pay more money in return for a further transferable security.

Where a Fund invests in a warrant, the exposure created by the exercise of the right conferred by that warrant must not exceed the limits in the spread requirements set out above.

A warrant falls within any power of investment if it is reasonably foreseeable that the right conferred by the proposed warrant could be exercised without contravening the investment restrictions in the COLL Sourcebook (assuming that there is no change in a Fund's property between the acquisition of the proposed warrant and its exercise and that the rights conferred by the proposed warrant and all other warrants forming part of the Fund's property at the time of acquisition of the proposed warrant will be exercised, whether or not it is intended that they will be).

A transferable security or a money market instrument on which any sum is unpaid falls within a power of investment only if it is reasonably foreseeable that the amount of any existing and potential call for

any sum unpaid could be paid by the Fund, at the time when payment is required, without contravening the COLL Sourcebook rules as they are applicable to the Fund.

### **Stocklending**

Stocklending involves a lender transferring securities to a borrower otherwise than by way of sale and the borrower is to transfer those securities, or securities of the same type and amount, back to the lender at a later date. In accordance with good market practice, a separate transaction by way of transfer of assets is also involved for the purposes of providing collateral to the “lender”, to cover it against the risk that the future transfer back of the securities may not be satisfactorily completed.

Stocklending may be entered into in respect of a Fund when it is appropriate with a view to generating additional income with an acceptable degree of risk. The Depositary, at the ACD’s request, may enter into stocklending transactions in respect of a Fund of a kind described in section 263B of the Taxation of Chargeable Gains Act 1992 (without extension by section 263C) on certain terms specified in the COLL Sourcebook. There is no limit on the value of the property of a Fund which may be the subject of stocklending transactions.

### **Repurchase Agreement Transactions**

A Fund may, on an ancillary basis, enter into repurchase agreement transactions which consist of the purchase and sale of securities with a clause reserving the seller the right or the obligation to repurchase from the acquirer the securities sold at a price and on terms specified by the two parties in their contractual arrangement. A Fund can act either as purchaser or seller in such transactions, but its involvement in such transactions is subject to the following rules:

- (a) A Fund may not buy or sell securities using a repurchase agreement transaction unless the counterparty in such transaction is a first class financial institution specialising in this type of transaction.
- (b) During the life of a repurchase agreement contract, a Fund cannot sell the securities which are the object of the contract, either before the right to repurchase the securities has been exercised by the counterparty or before the repurchase term has expired.
- (c) If a Fund is exposed to redemptions of its own Shares, it must ensure that the level of its exposure to repurchase agreement transactions is such that it is able, at all times, to meet its redemptions.

### **Power to Underwrite or Accept Placings**

Underwriting and sub-underwriting contracts and placings may be entered into for the account of the Company, subject to certain conditions set out in the COLL Sourcebook.

Neither the Company (nor the Depositary on account of the Company) must provide any guarantee or indemnity in respect of the obligation of any person. None of the property of a Fund may be used to discharge any obligation arising under any guarantee or indemnity with respect to the obligation of any person. This is subject to exceptions in the case of an indemnity or guarantee given for margin requirements where derivatives or forward transactions are being used in accordance with the COLL Sourcebook provisions (summarised above) and an indemnity of an officer, auditor or depositary of the Company from liability as permitted by the OEIC Regulations or an indemnity given to a person winding-up the scheme.

### **EU Securities Financing Transaction Regulations**

The Regulations require further transparency including in the Prospectus to address perceived risks in the use of securities financing transactions.

As described above, the Investment Manager in relation to each Fund may for the purpose of Efficient Portfolio Management (a) enter, either as purchaser or seller, into repurchase transactions and reverse repurchase and repurchase agreements transactions and (b) engage in securities lending transactions (these are not currently undertaken by any of the Funds).

The following type of assets can be subject to repurchase and reverse repurchase agreements: cash and bonds. The following type of assets can be subject to securities lending transactions: equity stocks.

As described above, a Fund may use Total Return Swaps or other financial derivative instruments with similar characteristics to meet the investment objective of a Fund and in accordance with the provisions on the use of financial derivative instruments set forth in their investment policy.

The following type of assets can be subject to Total Return Swaps or other financial derivative instruments with similar characteristics: equity stocks, equity indices, commodity indices and credit indices.

Counterparties to such transactions must be subject to prudential supervision rules considered by the FCA as equivalent to those prescribed by EU law and specialised in these types of transactions.

The counterparties to such transactions will generally be financial institutions based in an OECD member state and have an investment grade credit rating.

The table below shows the maximum and the expected use of securities financing transactions for any relevant Funds. At present only contracts for difference (CFDs) and total return swaps (TRS) are used in relation to the Funds. Funds not listed make no use of securities financing transactions.

<b>TRS/CFD Transactions</b>

Fidelity Target 2030 Fund	100	20
Fidelity Undiscovered Talent Fund	100	20
Fidelity WealthBuilder Fund	100	20

### **Borrowing**

The Company (on the instruction of the ACD) may borrow money from an Eligible Institution or an Approved Bank (for example, a bank or building society) for the use of a Fund on terms that the borrowing is to be repayable out of the property of the Fund. The ACD must ensure that any such borrowings comply with the COLL Sourcebook.

The ACD must ensure that borrowing does not exceed 10% of the value of the property of a Fund on any business day.

These borrowing restrictions do not apply to “back to back” borrowing for currency hedging purposes (i.e. borrowing permitted in order to reduce or eliminate risk arising by reason of fluctuations in exchange rates).

### **Cash and Near Cash**

The ACD’s investment policy may mean that at times it is appropriate for the property of a Fund not to be fully invested and for cash or “near cash” (meaning, essentially, certain types of deposits) to be

held. A Fund may hold cash or near cash where this may reasonably be regarded as necessary in order to enable:

- (a) the pursuit of the Fund's investment objectives; or
- (b) redemption of Shares; or
- (c) efficient management of the Fund in accordance with its investment objectives; or
- (d) other purposes which may reasonably be regarded as ancillary to the investment objectives of the Fund.

During the initial offer period for any new Fund, the Scheme Property of that Fund may consist of cash and near cash without limitation.

#### **Breaches of the Investment and Borrowing Powers and Limits**

Generally the ACD must, at its own expense, take action to rectify a breach of the investment and borrowing powers and limits as soon as it becomes aware of it. However,

- (a) if the reason for the breach is beyond the control of the ACD and the Depositary, the ACD must take the steps necessary to rectify a breach as soon as it is reasonably practicable, having regard to the interests of Shareholders, and, in any event, within six months or, if it is a transaction in derivatives or a forward transaction, generally within five business days; and
- (b) if the exercise of rights conferred by investments held by a Fund would involve a breach, the ACD may still exercise those rights if the prior written consent of the Depositary is obtained and the ACD must then take the steps necessary to rectify the breach as soon as is reasonably practicable, having regard to the interests of Shareholders, and, in any event, within six months or, if it is a transaction in derivatives or a forward transaction, generally within five business days.

Immediately upon the Depositary becoming aware of any breach of any of the investment and borrowing powers and limits, it must ensure that the ACD takes such appropriate action.

## **APPENDIX 3: MANAGEMENT, DISTRIBUTION, INVESTMENT MANAGEMENT AND ADMINISTRATION**

### **Authorised Corporate Director**

The authorised corporate director of the Company is FIL Investment Services (UK) Limited, a private limited liability company incorporated in England and Wales on 2 May 1986. The ultimate holding company of the ACD is FIL Limited, a company incorporated in Bermuda on 6 January 1969. The ACD is the sole director of the Company.

The registered office of the ACD is Oakhill House, 130 Tonbridge Road, Hildenborough, Tonbridge, Kent TN11 9DZ.

The Directors of the ACD are:

Keith Bonin

John Clougherty

Peter Horrell

Anthony Lanser

Nicky McCabe

Mike Webb

### **Share Capital**

The authorised and issued share capital of the ACD is £100,000 made up of 100,000 ordinary fully paid £1 shares.

### **Terms of Appointment**

The ACD was appointed under a Management and Administration Agreement between the Company and the ACD and a separate Investment Management Agreement between the Company and the ACD, both dated 27 October 2008.

The ACD is responsible for managing and administering the Company's affairs in compliance with the COLL Sourcebook. Under the terms of the Agreements, the ACD is to provide investment management services, administrative, accounting and secretarial services, and registrar services to the Company. The ACD may delegate all or some of its powers and duties, subject to conditions set out in the COLL Sourcebook. As more particularly outlined below, the ACD has delegated investment management of the Funds of the Company to FIL Investments International and has outsourced certain aspects of the administration of the Funds to FIL India Business Services Private Limited, FIL Fund Management (Ireland) Limited and FIL Transaction Services Ireland Limited, which are associates of the ACD.

The ACD may provide similar services for other clients, but will endeavour to ensure fair treatment as between the Company and other customers whose funds are managed or advised by the ACD.

The Agreements provide that the ACD's appointment is for an initial period of three years and thereafter may be terminated upon 12 months' written notice by either the ACD or the Company, although in certain circumstances the Agreements may be terminated forthwith by written notice. Termination cannot take effect until the FCA has approved the change of director. The Agreements terminate automatically if the ACD ceases to be the authorised corporate director of the Company or, in relation to any Fund, if that Fund is wound up.

Each Agreement includes an indemnity from the ACD to the Company in respect of liabilities incurred by the Company by reason of the acts or omissions of the ACD. The Company indemnifies the ACD in respect of liabilities incurred by the ACD by reason of the ACD's performance of its duties in accordance with the terms of the Agreements.

### **The Investment Manager**

The ACD has delegated investment management in respect of all the Funds established in the Company to FIL Investments International (the "Investment Manager"). The Investment Manager was incorporated in the United Kingdom and FIL Limited is its ultimate parent company. The Investment Manager is authorised and regulated in the United Kingdom by the Financial Conduct Authority. The Investment Manager acts as investment manager or investment adviser to a range of UCITS and AIFs.

Under the terms of the Investment Management Agreement entered into by the ACD and the Investment Manager dated 1 July 2016 (the "Investment Management Agreement"), the Investment Manager provides day to day investment management of the Funds under the supervision and subject

to the control of the ACD. The Investment Manager may delegate certain of its investment management responsibilities but the Investment Manager remains responsible for the proper performance by any such company of those responsibilities, including the authority to trade in the underlying assets of the Funds. Any delegation by the Investment Manager will be made in accordance with the requirements of the AIFMD and the FCA.

The Investment Manager (and any of its duly appointed delegates) is authorised to enter into transactions on behalf of the Company and the Funds and to select agents, brokers and dealers through whom it can execute transactions in respect of the Funds provided that the selection of any OTC counterparties are within a list of OTC counterparties that meet the selection criteria of the Manager in accordance with all applicable laws.

The Investment Management Agreement provides that the Investment Manager's appointment may be terminated upon 12 months' written notice and in certain circumstances may be terminated immediately and further provides that the Investment Manager will not be liable for any losses in the performance of its duties under the terms of the Investment Management Agreement except to the extent that such loss is as a direct result of the fraud, negligence, wilful default or breach of duty or breach of trust on the part of the Investment Manager.

### **Distribution**

By a General Distributor's Agreement dated 27 October 2008, the Company has appointed the ACD to assist in the promotion of Shares. The ACD, as general distributor, is authorised to appoint other companies in the FIL Limited group to distribute the Shares as sub-distributors. The ACD acts as principal in the purchase and sale of Shares via sub-distributors, and Shares are issued to and redeemed by the Company to the ACD on the terms of this Prospectus. A sub-distributor acts as agent for the ACD. By separate Sub-Distribution Agreements the ACD has appointed Financial Administration Services Limited and FIL Pensions Management to distribute Shares in the United Kingdom.

### **Other Schemes Managed or Operated by the ACD**

The ACD is also the authorised corporate director of Fidelity Institutional Funds, Fidelity Investment Funds, Fidelity Investment Funds 2, Fidelity Investment Funds III, Fidelity Investment Funds V, Fidelity Investment Funds VI and Fidelity Investment Funds VII, each of which is an investment company with variable capital comprising a number of sub-funds.

### **The Depositary**

The Depositary is J.P.Morgan Europe Limited, a company limited by shares, incorporated in England and Wales on 18 September 1968. Its registered office is at 25 Bank Street, Canary Wharf, London E14 5JP and its principal place of business is at Chaseside, Bournemouth, BH7 7DA.

Its ultimate holding company is J.P. Morgan Chase & Co. which is incorporated in Delaware, USA. The principal business activity of the Depositary is acting as depositary and trustee of collective investment schemes. The Depositary is authorised and regulated by the Financial Conduct Authority.

The appointment of the Depositary has been made under an Agreement dated 27 October 2008 (as amended) between the Company, the ACD and the Depositary ("the Depositary Agreement").

Registered Office: 25 Bank Street, Canary Wharf, London E14 5JP

Head Office: Chaseside, Bournemouth, Dorset BH7 7DB

The Depositary is required to ensure that:

- a) the issue, redemption and cancellation of Shares is carried out in accordance with applicable laws;
- b) the price per Share is calculated in accordance with applicable laws;
- c) where applicable, cause any sub-custodian or other custodial delegate carries out the instructions of the Manager unless they conflict with applicable laws;
- d) in transactions involving the assets of the Funds, the consideration is remitted to it within the usual time limits; and
- e) the income of the Funds is applied in accordance with the Instrument of Incorporation and COLL.

The Depositary's appointment may be terminated by either party on 90 days' notice in writing. Subject to applicable law, the appointment may also be terminated by the Depositary on 30 days' notice in writing if (i) it is unable to ensure the required level of protection of the investments of the Funds under

applicable laws because of the investment decisions of the ACD or its duly appointed delegate; or (ii) the ACD, wishes to invest or to continue to invest in any jurisdiction notwithstanding the fact that (a) such investment may expose a Fund to material country risk or (b) the Depositary is not able to obtain satisfactory legal advice confirming, among other things, that in the event of an insolvency of a sub-custodian or other relevant entity in such jurisdiction, the assets of a Fund held locally in custody are unavailable for distribution among, or realisation for the benefit of, creditors of such sub-custodian or other relevant entity.

Before expiration of any such notice period, the ACD shall propose a new depositary which fulfils UCITS requirements and to which the assets of the Funds shall be transferred. The ACD will use best endeavours to find a suitable replacement depositary, and until such replacement is appointed the Depositary shall continue to perform its services pursuant to its appointment under the Depositary Agreement.

The Depositary will be responsible for the safekeeping and ownership verification of the assets of the Funds, cash flow monitoring and oversight in accordance with applicable laws. In carrying out its role, the Depositary shall act independently from the ACD and solely in the interest of the Funds and their investors.

The Depositary is liable for the loss of a financial instrument held in custody by the Custodian or a Delegate. The Custodian shall, in accordance with applicable laws, not be liable if it can prove that the loss has arisen as a result of an external event beyond its reasonable control, the consequences of which would have been unavoidable despite all reasonable efforts to the contrary. The Depositary is also liable for losses caused as a result of its negligent or intentional failure to fulfil its obligations in accordance with applicable laws.

The Depositary Agreement contains indemnities by the Company in favour of the Depositary against (other than in certain circumstances and subject to applicable law) any liability incurred by the Depositary as a consequence of its safekeeping of any of the Scheme Property.

### **Delegation of safekeeping duties by the Depositary**

Subject to the COLL Sourcebook, the Depositary has full power under the Depositary Agreement to delegate (and authorise its sub-delegates to sub-delegate) all or any part of its duties as Depositary. Except as provided in applicable laws, the Depositary's liability shall not be affected by the fact that it has entrusted all or part of the assets in its care to any affiliated sub-custodian or third party delegates. When selecting and appointing a J.P. Morgan affiliated sub-custodian and other third party delegates (each a "Delegate", together the "Delegates"), the Depositary shall exercise all due skill, care and diligence as required by applicable laws to ensure that it entrusts assets of the Funds only to a Delegate who may provide an adequate standard of protection in accordance with applicable laws.

The current list of Delegates is available in Appendix 6, and the latest version of such list may be obtained by Shareholders from the Manager upon request.

The Depositary has appointed J.P. Morgan Chase Bank (London Branch) to assist the Depositary in performing its functions of custodian of the documents of title or documents evidencing title to the property of the Company. The relevant arrangements prohibit J.P. Morgan Chase Bank as such custodian from releasing the documents into the possession of a third party without the consent of the Depositary. The Depositary has appointed FIL Investment Services (UK) Limited in its capacity as registrar to assist the Depositary in performing its functions in relation to the distribution of income.

### **Conflicts of Interest**

As part of the normal course of global custody business, the Depositary may from time to time enter into arrangements with other clients, funds or other third parties for the provision of safekeeping and related services. Within a multi-service banking group such as JPMorgan Chase Group, from time to time conflicts may arise between the Depositary and its safekeeping delegates, for example, where an appointed delegate is an affiliated group company and is providing a product or service to a fund and has a financial or business interest in such product or service or where an appointed delegate is an affiliated group company which receives remuneration for other related custodial products or services it provides to the funds, for instance foreign exchange, securities lending, pricing or valuation services. In the event of any potential conflict of interest which may arise during the normal course of business, the Depositary will at all times have regard to its obligations under applicable laws.

Up-to-date information regarding the description of the Depositary's duties and conflicts of interest that may arise therefrom as well as from the delegation of any safekeeping functions by the Depositary will be made available to investors on request.

## **The Auditors**

The auditors of the Company are PricewaterhouseCoopers LLP, 7 More London Riverside, London SE1 2RT.

## **General**

The Company, the ACD, and the Depositary must each comply with the relevant requirements of the COLL Sourcebook in a timely manner unless delay is lawful and also in the interests of the Company.

The ACD may retain the services of third parties to assist it in the performance of its duties. Subject to the OEIC Regulations the ACD remains responsible for any function delegated.

A mandate to manage investments in the scheme property:

- (a) must not be given to the Depositary or to any party whose interests may conflict with those of the ACD or the Shareholders;
- (b) may only be given to a party authorised or registered to manage investments, provided that, if such a party is outside the UK there should be a cooperation agreement in place between the FCA and the relevant overseas regulator;
- (c) must be such that the ACD ensures it can effectively monitor the delegate's activities at all times;
- (d) must permit the ACD to give further instructions to the delegate and enable the mandate to be withdrawn immediately when in the best interests of Shareholders; and
- (e) must not prevent effective supervision of the ACD and it must not prevent the ACD from acting in or the Company from being managed in the best interests of Shareholders.

The Depositary must not delegate:

- (a) to the Company or the ACD any function of oversight of the Company or the ACD;
- (b) to the Company or the ACD any function of custody or control of scheme property;
- (c) to an associate of the Company or the ACD to assist the Depositary to perform any function of oversight of the Company or the ACD; or
- (d) to any party to assist it in being custodian of documents evidencing title to scheme property unless the arrangements prohibit release of those documents into possession of a third party without consent of the Depositary.

The Depositary remains responsible under the rules in the COLL Sourcebook for any act or omission of a delegate retained by it but will not be responsible where it can show:

- (a) that it was reasonable for it to obtain assistance to perform that function;
- (b) that the delegate was and remained competent to provide that function; and
- (c) that the Depositary took reasonable care to ensure that the function was provided in a competent manner.

The COLL Sourcebook contains various requirements relating to transactions entered into between the Company and the ACD, any investment adviser or any associate of them which may involve a conflict of interest. These are designed to protect the interests of the Company. Certain transactions between the Company and the ACD, or an associate of the ACD, may be voidable at the instance of the Company in certain circumstances.

The ACD and other companies within the FIL Limited group and the affiliated FMR LLC group based in the United States may, from time to time, act as investment managers or advisers to other funds which follow similar investment objectives to those of the Funds of the Company. It is therefore possible that the ACD and/or such other companies may in the course of their business have potential conflicts of interest with the Company or a particular Fund. The ACD will, however, have regard in such event to its obligations under its investment management agreement with the Company and, in particular, to its obligation to act in the best interests of the Company so far as practicable, having regard to its obligations to other clients when undertaking any investment where potential conflicts of interest may arise. Fidelity's conflicts of interest policy shall be available on request. The ACD may aggregate orders for Funds of the Company with orders for other funds or accounts of other clients, other companies within the FIL Limited group and the affiliated FMR LLC group or its or their employees. Such transactions will be allocated on a fair and reasonable basis in accordance with the requirements of the FCA Handbook as applicable. The overall effect of such aggregation is advantageous for the Funds of the Company over time but individual aggregated transactions may on some occasions operate to their disadvantage.

For certain Funds, as part of providing investment management and advisory services, the ACD may from time to time enter into commission sharing arrangements with brokers, under which the broker will provide or procure services or other benefits (at present these relate to investment research) which can be reasonably expected to assist the ACD in the provision of investment services. The Funds make no direct payment for these services. Any transactions conducted under these arrangements are done so in accordance with FCA rules.

The Company and each of the Funds from time to time may place orders for the purchase or sale of securities in which the Funds may invest with affiliates of FIL Fund Management Limited and other affiliates of FMR LLC, Boston, Massachusetts, provided that, among other conditions, they can reasonably be expected to execute the transaction on terms as favourable as could be expected to be obtained from other brokers qualified to execute the transaction and at commission rates comparable to those which would have been charged by such other brokers. Details of the policy on execution are contained in the Fidelity Client Terms which can be accessed at [www.fidelity.co.uk](http://www.fidelity.co.uk).

The Depositary may, from time to time, act as the depositary of other investment companies with variable capital. Further details of the conflicts of interest policy are available on request.

## **APPENDIX 4: GENERAL INFORMATION**

### **Register of Shareholders**

The register of Shareholders is maintained by the ACD at Oakhill House, 130 Tonbridge Road, Hildenborough, Kent TN11 9DZ, United Kingdom. It may be inspected by any Shareholder or his duly authorised agent during normal business hours at that address, without charge.

Copies of the entries in the register relating to a Shareholder are available on request by that Shareholder without charge. The Company has the power to close the register for any period or periods not exceeding 30 days in any one year.

### **Calculation of Net Asset Value**

The value of the Scheme Property (or Scheme Property attributable to a particular Fund or Class, as the case may be) shall be the value of the relevant assets less the value of the relevant liabilities determined in accordance with the Company's Instrument of Incorporation. A summary of the provisions follows.

1. All the Scheme Property (including receivables) is to be included, subject to the following provisions.
2. Property which is not a contingent liability transaction shall be valued as follows:
  - (a) units or shares in a collective investment scheme:
    - (i) if a single price for buying and selling units or shares is quoted, at the most recent such price; or
    - (ii) if separate buying and selling prices are quoted, at the average of the two prices (provided the buying price has been reduced by any initial charge included therein and the selling price has been increased by any exit or redemption charge attributable thereto); or
    - (iii) if, in the opinion of the ACD, the price obtained is unreliable or if no recent traded price is available or if no price exists, at a value which in the opinion of the ACD is fair and reasonable;
  - (b) any other transferable security:
    - (i) if a single price for buying and selling the security is quoted, at that price; or
    - (ii) if separate buying and selling prices are quoted, at the average of those two prices; or
    - (iii) if, in the opinion of the ACD, the price obtained is unreliable or if no recent traded price is available or if no price exists, at a value which in the opinion of the ACD is fair and reasonable;
  - (c) property other than that described in (a) and (b) above: at a value which, in the opinion of the ACD, is fair and reasonable.
3. Cash and amounts held in current and deposit accounts and in other time-related deposits shall be valued at their nominal values.
4. Property which is a contingent liability transaction shall be valued as follows:
  - (a) if it is a written option (and the premium for writing the option has become part of the Scheme Property), the amount of the net valuation of premium receivable shall be deducted;
  - (b) if the property is an off-exchange derivative, the method of valuation shall be agreed between the ACD and the Depositary;
  - (c) if it is an off-exchange future, it will be included at the net value of closing out in accordance with a valuation method agreed between the ACD and the Depositary;
  - (d) if it is any other form of contingent liability transaction, it will be included at the net value of margin on closing out (whether as a positive or negative value).
5. In determining the value of the Scheme Property, all instructions given to issue or cancel Shares shall be assumed to have been carried out (and any cash paid or received) whether or not this is the case.
6. Subject to paragraphs 7 and 8 below, agreements for the unconditional sale or purchase of property which are in existence but uncompleted shall be assumed to have been completed and all consequential action required to have been taken. Such unconditional agreements need not be taken into account if made shortly before the valuation takes place and, in the opinion of the ACD, their omission will not materially affect the final net asset amount.

7. Futures or contracts for differences which are not yet due to be performed and unexpired and unexercised written or purchased options shall not be included under paragraph 6.
8. All agreements are to be included under paragraph 6 which are, or ought reasonably to have been, known to the person valuing the property.
9. An estimated amount for anticipated tax liabilities at that point in time, including (as applicable and without limitation) capital gains tax, income tax, corporation tax, value added tax, stamp duty and any foreign taxes or duties, will be deducted.
10. An estimated amount for any liabilities payable out of the Scheme Property and any tax thereon will be deducted, treating periodic items as accruing from day to day.
11. The principal amount of any outstanding borrowings (whenever repayable) and any accrued but unpaid interest on borrowings will be deducted.
12. An estimated amount for accrued claims for tax of whatever nature which may be recoverable will be added.
13. Any other credits or amounts received or receivable will be added.
14. Currencies or values in currencies other than sterling shall be converted at the relevant valuation point at a rate of exchange that is not likely to result in any material prejudice to the interest of the shareholders or potential shareholders.
15. A sum representing any interest or any income accrued due or deemed to have accrued but not received will be added.

### **Transfers**

Shareholders are entitled to transfer their Shares to another person or body. All transfers must be in writing in the form of an instrument of transfer approved by the ACD for this purpose. Completed instruments of transfer must be returned to the ACD in order for the transfer to be registered by the ACD. The ACD may refuse to register a transfer unless an amount equivalent to the applicable SDRT has been paid.

### **Restrictions and Compulsory Transfer and Redemption of Shares**

The ACD may from time to time impose such restrictions as it may think necessary to ensure that no Shares are acquired or held by any person in breach of the law or governmental regulation (or any interpretation of a law or regulation by a competent authority) of any country or territory. In this connection, the ACD may reject in its discretion any application for the purchase, sale or switching of Shares.

If it comes to the notice of the ACD that any Shares (“affected Shares”) are owned directly or beneficially in breach of any law or governmental regulation (or any interpretation of a law or regulation by a competent authority) of any country or territory or by virtue of which the Shareholder in question is not qualified to hold such Shares, or if it reasonably believes this to be the case, the ACD may give notice to the holder(s) of the affected Shares requiring either the transfer of such Shares to a person who is qualified or entitled to own them or a request in writing for the redemption of such Shares in accordance with the COLL Sourcebook. If any person upon whom such a notice is served does not within 30 days after the date of such notice transfer the affected Shares to a person qualified to own them or establish to the satisfaction of the ACD (whose judgement is final and binding) that he or the beneficial owner is qualified and entitled to own the affected Shares, he shall be deemed upon the expiration of that 30 day period to have given a request in writing for the redemption of all the affected Shares pursuant to the COLL Sourcebook.

A person who becomes aware that he has acquired or holds affected Shares in breach of any law or governmental regulation (or any interpretation of a law or regulation by a competent authority) of any country or territory or by virtue of which he is not qualified to hold such Shares, shall forthwith, unless he has already received a notice from the ACD as above, either transfer all his affected Shares to a person qualified to own them or give a request in writing for the redemption of such Shares pursuant to the COLL Sourcebook.

### **US Persons**

The Shares have not been and will not be registered under the United States Securities Act of 1933 as amended (“Securities Act”) and, subject to certain exceptions, may not be offered or sold in the United States of America, its territories and possessions, any state of the United States of America and the District of Columbia (“United States of America”) or offered or sold to US Persons (as defined below). The Company has not been and will not be registered under the United States Investment Company Act of 1940, as amended. The ACD has not been and will not be registered under the United States Investment Advisers Act of 1940.

“US Person” means:

- (a) a citizen or resident of the United States of America;
- (b) a partnership, limited liability company, corporation or similar entity organised or incorporated under the laws of the United States of America, or an entity taxed as such or required to file a tax return as such under the United States federal income tax laws;
- (c) any estate or trust the executor, administrator or trustee of which is a US Person unless, in the case of trusts of which any professional fiduciary acting as trustee is a US Person, a trustee who is not a US Person has sole or shared investment discretion with respect to trust assets and no beneficiary of the trust (and no settlor if the trust is revocable) is a US Person;
- (d) any estate or trust whose income from sources outside the United States of America is includable in gross income for purposes of computing United States income tax payable by it;
- (e) any agency or branch of a foreign entity located in the United States of America;
- (f) any discretionary or non-discretionary account or similar account (other than an estate or trust) held by a dealer or other fiduciary located within or outside the United States of America for the benefit or account of a US Person;
- (g) any discretionary account or similar account (other than an estate or trust) held by a dealer or other fiduciary organised, incorporated or (if an individual) resident in the United States of America, except that any discretionary account or similar account (other than an estate or trust) held for the benefit or account of a non-US Person by a dealer or other professional fiduciary organised, incorporated or (if an individual) resident in the United States of America shall not be deemed a US Person;
- (h) any firm, corporation or other entity, regardless of citizenship, domicile, situs or residence if, under the income tax laws of the United States of America from time to time in effect, any portion of the income thereof would be taxable to a US Person even if not distributed other than as a passive foreign investment company;
- (i) any partnership, corporation or other entity if (A) organised or incorporated under the laws of any foreign jurisdiction and (B) owned or formed by a US Person or Persons principally for the purpose of investing in securities not registered under the Securities Act (including but not limited to Shares of the Company);
- (j) any employee benefit plan unless such employee benefit plan is established and administered in accordance with the laws of a country other than the United States of America and the customary practices and documentation of such country and is maintained primarily for the benefit of persons substantially all of whom are non-resident aliens with respect to the United States of America; or
- (k) any other person or entity whose ownership of Shares or solicitation for ownership of Shares the ACD through its officers or directors shall determine may violate any securities law of the United States of America or any state or other jurisdiction thereof.

*(Except that “US Person” shall not include any eligible investor or any person or entity, notwithstanding the fact that such person or entity may come within any of the categories referred to above, as to whom the ACD or the Company shall determine that ownership of Shares or solicitation for ownership of Shares shall not violate any securities law of the United States of America or any state or other jurisdiction thereof.)*

#### **Issue of Shares in Exchange for In Specie Assets**

The ACD may arrange for the Company to issue Shares in exchange for assets other than money, but will only do so where the Depositary is satisfied that the Company’s acquiring those assets in exchange for the Shares concerned is not likely to result in any material prejudice to the interests of Shareholders or potential Shareholders.

The ACD will ensure that the beneficial interest in the assets is transferred to the Company with effect from the issue of the Shares.

The ACD will not issue Shares in any Fund in exchange for assets the holding of which would be inconsistent with the investment objective of that Fund.

#### **In Specie Redemptions**

If a Shareholder requests the redemption or cancellation of Shares, the ACD may, if it considers the deal substantial in relation to the total size of the Fund concerned, arrange for the Company to cancel the Shares and transfer Scheme Property to the Shareholder instead of paying the price of the shares

in cash, or, if required by the Shareholder, pay the net proceeds of sale of the relevant Scheme Property to the Shareholder. A deal involving Shares representing 5% or more in value of a Fund will normally be considered substantial, although the ACD may in its discretion agree an *in specie* redemption with a Shareholder whose Shares represent less than 5% in value of the Fund concerned.

Before the proceeds of cancellation of the Shares become payable, the ACD will give written notice to the Shareholder that Scheme Property (or the proceeds of sale of that Scheme Property) will be transferred to that Shareholder.

The ACD will select the property to be transferred (or sold) in consultation with the Depositary. They must ensure that the selection is made with a view to achieving no greater advantage or disadvantage to the redeeming Shareholder than to continuing Shareholders. The Company retains from that property (or proceeds) the value (or amount) of any tax to be paid on the cancellation of Shares.

### **Suspension of Dealings in Shares**

The ACD may, with the agreement of the Depositary, or must if the Depositary so requires, suspend the issue, cancellation, sale and redemption of Shares in any or all of the Funds for a period of up to 28 days or longer in accordance with FCA rules, if the ACD or the Depositary is of the opinion that, due to exceptional circumstances, there is good and sufficient reason to do so having regard to the interests of Shareholders or potential Shareholders.

Re-calculation of the Share price will commence at the next relevant valuation point after the period of suspension ends.

### **Deferred Redemption of Shares**

If requested redemptions of Shares on a particular dealing day exceed 10% of a Fund's value, redemptions of Shares of that Fund may be deferred to the next valuation point. Any such deferral would only be undertaken in such manner as to ensure consistent treatment of all Shareholders who had sought to redeem Shares at the valuation point at which redemptions were deferred, and so that all deals relating to the earlier valuation point were completed before those relating to a later valuation point were considered. The intention of the deferred redemption power is to reduce the impact of dilution on the scheme. In times of high levels of redemption, deferred redemption provisions would enable the ACD to protect the interests of continuing Shareholders by allowing it to match the sale of property of a Fund to the level of redemptions of Shares in that Fund.

### **Limited Issue**

A Fund or a Class of Shares may be closed to purchases or switches in (but not to redemptions or switches out) if, in the opinion of the ACD, this is necessary to protect the interests of existing Shareholders. One such circumstance would be where a Fund or Class of Shares has reached a size such that the capacity of the market and/or of the Investment Manager have been reached, and where to permit further inflows would be detrimental to the performance of that Fund or Class of Shares. Any Fund or Class of Shares which, in the opinion of the ACD, is materially capacity constrained may be closed to purchases or switches in without notice to Shareholders. A Share issue closure will not apply (in the circumstances above) to Shareholders who are acquiring Shares through regular savings plans. During the period of closure, the ACD may in its discretion agree to the purchase of Shares redeemed to investors. Following closure, a Fund or a Class of Shares will not be re-opened until, in the opinion of the ACD, the circumstances which required closure no longer apply, significant capacity is available within the Fund or Class of Shares for new investment, and the issue of Shares can be made without materially prejudicing existing Shareholders.

### **Reports**

Annual reports of the Company will be published on or before the last day of February and half-yearly reports will be published on or before 30 June. Copies of reports may be obtained from the ACD or inspected at the ACD's offices at Oakhill House, 130 Tonbridge Road, Hildenborough Kent TN11 9DZ, United Kingdom.

### **Shareholder Meetings and Voting Rights**

#### **General Meetings**

General meetings of Shareholders may be held from time to time as necessary. Notice of the date, place and time of general meetings will be given to Shareholders.

The convening and conduct of Shareholders' meetings and the voting rights of Shareholders at those meetings are governed by the Company's Instrument of Incorporation and the COLL Sourcebook, which are summarised below.

### **Requisitions of Meetings**

The ACD may convene a general meeting at any time.

Shareholders may also requisition a general meeting. A requisition by Shareholders must state the objects of the meeting, be dated and be signed by Shareholders who, at the date of the requisition, are registered as holding not less than one-tenth in value of all Shares then in issue. The ACD must convene a general meeting no later than eight weeks after receipt of such a requisition at the head office of the Company.

### **Notice and Quorum**

Shareholders will receive at least 14 days' notice of a general meeting. They are entitled to be counted in the quorum and to vote at a meeting either in person or by proxy. The quorum for a meeting is two Shareholders, present in person or by proxy. If a meeting is adjourned, the quorum at the adjourned meeting is one Shareholder present in person or by proxy.

### **Voting Rights**

At a meeting of Shareholders, on a show of hands every Shareholder who (being an individual) is present in person or (being a corporation) is present by its properly authorised representative shall have one vote.

On a poll vote, a Shareholder may vote in person or by proxy or in any other manner permitted by the Company's Instrument of Incorporation. The voting rights attaching to each Share are such proportion of the voting rights attached to all the Shares in issue that the price of the Share bears to the aggregate price(s) of all the Shares in issue on the date seven days before the notice of meeting is deemed to have been served. A Shareholder entitled to more than one vote need not, if he votes, use all his votes or cast all the votes he uses in the same way.

Except where the COLL Sourcebook, the Open-Ended Investment Companies Regulations 2001 or the Instrument of Incorporation of the Company require an extraordinary resolution (which needs 75% of the votes cast at the meeting to be in favour if the resolution is to be passed), any resolution required by the COLL Sourcebook will be passed by a simple majority of the votes validly cast for and against the resolution (an ordinary resolution).

The ACD may not be counted in the quorum for a general meeting, and neither the ACD nor any associate of the ACD is entitled to vote at any meeting except in respect of Shares which the ACD or associate holds on behalf of or jointly with a person who, if the registered Shareholder, would be entitled to vote and from whom the ACD or associate has received voting instructions.

"Shareholders" in this context means Shareholders on the date seven days before the notice of the relevant meeting was sent out, but excluding persons who are known to the ACD not to be Shareholders at the time of the meeting.

### **Class Meetings**

The above provisions apply to meetings of Shareholders of a Fund or Class as they apply to general meetings of Shareholders, but by reference to the Fund or Class concerned.

### **Variation of Class Rights**

The rights attached to a Class of Share may not be varied without the sanction of an ordinary resolution passed at a meeting of the Shareholders of that Class.

### **Winding Up of the Company or a Fund**

The Company may not be wound up except as an unregistered company under part V of the Insolvency Act 1986 or, if the Company is solvent, under Chapter 7 of the COLL Sourcebook. A Fund may only be wound up under the COLL Sourcebook.

Where the Company or a Fund is to be wound up under the COLL Sourcebook, such winding up may only be commenced following approval by the FCA. The FCA will only give such approval if the ACD provides a statement (following an investigation into the affairs of the Company) either that the Company will be able to meet its liabilities within 12 months of the date of the statement or that the

Company will be unable to do so. The Company may not be wound up under the COLL Sourcebook if there is a vacancy in the position of authorised corporate director at the relevant time.

The Company may be wound up or a Fund terminated under the COLL Sourcebook if:

- (a) an extraordinary resolution to that effect is passed by Shareholders; or
- (b) the period (if any) fixed for the duration of the Company or the Fund by the Instrument of Incorporation of the Company expires, or an event (if any) occurs on the occurrence of which the Instrument of Incorporation provides that the Company or Fund is to be wound up (for example, if the share capital of the Company is below its prescribed minimum or (in relation to any Fund) if the Net Asset Value of the Fund is less than £30 million or the equivalent in the currency of denomination, or if in the ACD's opinion, it is desirable to terminate the Fund); or
- (c) on the effective date of an agreement by the FCA to a request by the ACD for the revocation of the authorisation order in respect of the Company or for the termination of the Fund.

A Fund may also be terminated in accordance with the terms of a scheme of arrangement or reconstruction, in which case Shareholders in the Fund will become entitled to receive shares or units in another regulated collective investment scheme in exchange for their Shares in the Fund.

On the occurrence of any of the events in paragraphs (a) to (c) above:

- (a) COLL 5 (relating to investment and borrowing powers) and COLL 6.2 and 6.3 (relating to pricing and dealing) will cease to apply to the Company or the relevant Fund;
- (b) the Company will cease to issue and cancel Shares in the Company or the Fund, and the ACD shall cease to sell or redeem Shares or arrange for the Company to issue or cancel them for the Company or the Fund;
- (c) no transfer of a Share shall be registered and no other change to the register shall be made without the sanction of the ACD;
- (d) where the Company is being wound-up, the Company shall cease to carry on its business except in so far as it is beneficial for the winding up of the Company; and
- (e) the corporate status and powers of the Company and, subject to the provisions of paragraphs (a) and (d) above, the powers of the ACD shall remain until the Company is dissolved.

The ACD shall, as soon as practicable after the Company or a Fund falls to be wound up, realise the assets and meet the liabilities of the Company or those attributable to the particular Fund and, after paying out or retaining adequate provision for all liabilities properly payable and retaining provision for the costs of winding up, arrange for the Depositary to make one or more interim distributions out of the proceeds to Shareholders proportionately to their rights to participate in the property of the Company or the Fund. If the ACD has not previously notified Shareholders of the proposals for winding up the Company or terminate the Fund, the ACD shall, as soon as practicable, after the commencement of winding up of the Company or the termination of the Fund, give written notice of the commencement to Shareholders. When the ACD has caused all of the Scheme Property to be realised and all of the liabilities of the Company or the particular Fund to be realised, the ACD shall arrange for the Depositary to make a final distribution to Shareholders, on or prior to the date on which the final account is sent to Shareholders, of any balance remaining in proportion to their holdings in the Company or the particular Fund. Any further balances, as distinct from amounts retained for the settlement of the final expenses and preparation of the final accounts, attributable to a Fund or the Company after the final distribution has been made will be assessed by the ACD, and if deemed to be material, relative to the costs of distribution, will be apportioned and paid based on the shareholding of each investor at the closure date, if it is not deemed material it will be donated to charity. This decision will be made in conjunction with the Depositary.

On completion of a winding up of the Company, the Company will be dissolved and any money (including unclaimed distributions) standing to the account of the Company will be paid into court within one month of dissolution.

Following the completion of the winding up of the Company or of a Fund, the ACD shall notify the FCA and the ACD must prepare a final account showing how the winding up took place and how the Scheme Property was distributed. The auditors of the Company shall make a report in respect of the final account, stating their opinion as to whether the final account has been properly prepared. Within four months of the termination of the winding up of the Company or a Fund the final account and the auditors' report must be sent to the FCA and to each relevant Shareholder and, in the case of the winding up of the Company, to the Registrar of Companies within two months of the termination of the winding up.

As the Company is an umbrella company with segregated liability between Funds, any liabilities attributable or allocated to a particular Fund under the COLL Sourcebook shall be met first out of the

Scheme Property attributable or allocated to that Fund. If the liabilities of a Fund are greater than the proceeds of the realisation of the Scheme Property attributable or allocated to the Fund, the ACD shall pay to the Company, for the account of the Fund the amount of the deficit, unless and to the extent that the ACD can show that the deficit did not arise as a result of any failure by the ACD to comply with the rules in the COLL Sourcebook.

### **Documents of the Company and Material Contracts**

The following documents may be inspected free of charge between 9.00 a.m. and 5.00 p.m. on every business day at the offices of the ACD at Oakhill House, 130 Tonbridge Road, Hildenborough, Tonbridge, Kent TN11 9DZ, United Kingdom:

- (a) the most recent annual and half-yearly reports of the Company; and
- (b) the Instrument of Incorporation of the Company.

Shareholders may obtain copies of the above documents (and of this Prospectus) from the same address.

### **Material Contracts**

The following contracts, not being contracts entered into in the ordinary course of business, have been entered into by the Company and are, or may be, material:

- (a) the Management and Administration Agreement dated 27 October 2008 between the Company and the ACD;
- (b) the Investment Management Agreement dated 27 October 2008 between the Company and the ACD);
- (c) the General Distribution Agreement dated 27 October 2008 between the Company and the ACD;
- (d) the Depositary Agreement dated 27 October 2008 between the Company, the ACD and the Depositary (as amended); and
- (e) the Investment Management Agreement dated 1 July 2016 between the ACD and FIL Investments International.

Details of the above contracts are given in Appendix 3 (“Management, Distribution and Administration”).

Copies of the contracts between the Company and the ACD will be provided to a Shareholder on request to the ACD.

### **Complaints**

Complaints concerning the operation or marketing of the Company may be referred to the Compliance Officer of the ACD at Oakhill House, 130 Tonbridge Road, Hildenborough, Tonbridge, Kent TN11 9DZ, United Kingdom. If an investor is not satisfied with the response received, complaints may also be made direct to The Financial Ombudsman Service, South Quay Plaza, 183 Marsh Wall, London E14 9SR.

## **APPENDIX 5: IMPORTANT INFORMATION FOR INVESTORS IN GUERNSEY**

The circulation of this Prospectus and the offering of Shares has been authorised by the Guernsey Financial Services Commission under the provisions of the Protection of Investors (Bailiwick of Guernsey) Law, 1987, as amended. In giving this authorisation, the Commission does not vouch for the financial soundness of the scheme or for the correctness of any of the statements made or opinions expressed with regard to it.
